The Vacation Thrill of a Lifetime

Glacier National Park The Low Cost of the Trip Will Surprise You

Up there in the Northern Rockies there are fifteen hundred square miles of breathing room—loafing space; great forests, sparkling streams, filmy waterfalls, exquisite mountain lakes, slow-moving glaciers cloud-swept mountain peaks and myriads of many-hued wild flowers.

Go this summer and refresh your soul! To breathe the breezes, quickened by the glaciers, flavored by the mountains and streams and perfumed by the pines and flowers is an experience you never will forget. Where mountain sheep pose on the edge of space you will find mammoth rustic inns. Where the Blackfeet Indians pitch their tepees among the pointed peaks you'll find cozy Alpine chalets.

If you are a fisherman, there are trout to battle with. If you are a hiker, there are sky-line trails to follow. If you love to ride, mountain ponies will carry you along the Continental Divide, the Backbone of this Continent. If you like to row, there are waters to explore. If you prefer to camp, there are scores of ideal spots on the shores of glinting lakes. The chalets (little hotel villages in the mountains) are delightful tarrying places. More elaborate accommodations are provided at the inns.

The who'e service scheme in Glacier blends completely with the dictates of your fancy. Better go this summer. 'Twill do you a world of good!

Burlington service takes you direct You can continue on to the Pacific Northwest and return via Yellowstone and Colorado if you wish.

As this is National Travel West year, I suggest that you make reservations early and avoid the possibility of disappointment.
