In a small trip of about 25 miles over Webster county this week we notice that corn generally was excellent, while in some localities, it has been slightly scorched or halled.

The friends of Mr. and Mrs. J. S. Gilham were pained this week to learn of the death of little Edward, their youngest child, aged 2½ years, after a very brief illness. He was dearly loved by the parents and grand parents as well as by other relatives, and was a great favorite among the children of the neighborhood.

10 YEARS AGO

Cauliflower and Vesuvius.

The cauliflower grows best at the foot of Mount Vesuvius, which has figured for so many centuries in history. Torre Annunziata and Torre Del Greco are two of the best centers for cauliflower. Their soil is particularly rich.

Northeast Pawnee

The farmers are jubilant over the heavy rains of last week, amounting to close to two inches, coming in a most opportune time for the corn which is now making rapid progress giving a new impetus to the crop in general.

Harve Blair finished binding a 30 acre field of sweet corn a few days ago which he expects to make a fine yield.

The principal work going on at the present time are weed cutting and road making.

H. Blair, G. Gass and J. Goudie made good wages in getting over 150 pounds of honey in the Johnston school house one day last week. None of the above ever smoked, at least they say so themselves, but they done some smoking there making it worse indoors in the school room. It seemed kinda nauseous to the bees and did not like it a bit making them intoxicated and mopy the same as imbibed in hootch. I wish to ask some of your readers more competent than your humble servant, is bees a nuisance or are they dangerous or obnoxious to the general public? If so these gentlemen were fully justified in getting the loot and exterminating the bees, if not it was open daylight robbery, unconstitutional and against international law. I admit bees sting but not until molested. Some humans also sting even without being molested, of course the writer should not say much on the subject as he received and ate some of the honey. I presume the superintendent of the schools will smooth the matter over if he gets part of the honey.

A great many in the vicinity are getting their hogs vaccinated. Not many are losing so far, but a little west a good many are dying. It is well to use remedies in any case.

Bennie Mohler and Ralph Barber each purchased a Ford car the latter being a roadster or runabout.

Pattern for Pig Club Members of this County

A pig club girl, Veva Divan, of Wisconsin, won \$521 in prize money at fairs and regained her health with six Poland China pigs during the show season of 1922, and merited the title, "The Pig Club Queen", which former Secretary of Agriculture Meredith gave her.

Severe sickness at six years left her in poor health until thirteen. One of her father's best sows died that spring at farrowing time, and she was given five pigs to raise by hand. She fed them with a teaspoon, and cared for them tenderly washing them many times during the summer, and was rewarded by winning first and second on two of the sow pigs and second on one of the boar pigs at her county fair that fall.

With the proceeds realized on these pigs she bought her a good gilt which farrowed her eight pigs in March, 1922. She fitted two boars and four sows of the litter and showed them at four county fairs and the state fair at Milwaukee.

At county fairs she won seven firsts, six thirds, three fourths, two fifths and one sixth in open classes against old breeders, and at the state fair she won one second and four fifths. In the pig club classes at the state fair she won championship sow, three blue ribbons, two reds and five whites. In
