My Marriage Problems

Adele Garrison's New Phase of "REVELATIONS OF A WIFE"

The "Few Words" Dicky Had to Say to Midge.

"Turn down the wood road." Dicky's phrasing was a request, his tone a command, and I obeyed both as I swung the car into the "wood road" a thoroughfare beloved by all of us for its winding curves, each displaying a new vista of forest beauty to our woodland-loving eyes. In midsummer one frequently met motors upon it, but in the late autumn it was almost deserted, the "natives" preferring the straighter roads as the shortest distance between their start and their destination.

I knew without Dicky telling me where he wanted me to stop the car. A half mile down the road there is an opening in the woods always reminding me irresistibly of a cove in a stream, where one can draw a car out of the narrow road and avoid danger of some other motorist ramming one's car.

It is an ideal spot for a confidential talk, and during the summer months I have seen many a car parked there with its occupants, almost always young couples, absorbed in each other's society. And when, as had often happened since we came to the east end of the island, Dicky and I found ourselves a bit crowded out by the number of the people in our home, and we had escaped to this delightful spot and sat there talking until we had straightened out whatever domestic tangle needed our attention.

"One hundred per cent intelligent," Dicky commented, as I turned the car into the little glade and stopped. "Now shut off your engine, for you and I are in for a 'conference' with the office boy instructed to admit nobody less than the president of the United States."

"Why all the high tragedy?" I asked saucily, as I stooped obediently to the switch key. Dicky grinned reluctantly.

"You'll think it's a bit, murder and sudden death before I get through," he said in pretended burlesque, but I thought I detected more than a trace of seriousness beneath his raillery, and I was correspondingly uneasy and warily silent.

"In the first place," Dicky began didactically, just get one thing through your brain, I'm not asking any questions about this performance with Katherine, but don't you and Lil think for one little fraction of a second that you're putting anything over on me! I probably rank in your lists of male intelligentsia as seventh or eighth rank, but the high places being pre-empted by dear Majah Grantland and sweet Allen Drake, the boy with the long eyelashes. But limited as my intelligence is, I'm still able able to put two and two together without making a howl over a one-eight!"

"What Do You Mean?" He paused for breath, and I drew a long one of decided apprehension as to what his reaction when he should learn that Lillian had sent for Allen Drake, whom he had so contemptuously characterized, a nod whom I knew detested wickedly heartily. That Dicky was determined to keep me from aiding Lillian I feared and I began to search wildly in my mind for some expedient by which I could compromise Lillian's need of me and Dicky's prejudices.

"I'll admit you did fool me for a few hours," he went on more slowly. "I really did think Katherine was coming on for a rest and visit while Jack was gone to South America. And when you said that she would like to do some nursing while here I was tickled to death on account of mother."

"But the mater informs me a little while ago," Dicky continued, "that she doesn't need or want a nurse, and that Mrs. Bickett is going over to the hospital on an important case. Of course, I can't guess what she's going on, can't co-ordinate Katie's brain storms, Jim's abrupt leave-taking, and the confabs you and Lil and fossilized old Pettit have been having. But that's neither here nor there. Keep your little secrets if you want to, but just remember this—no detecting, plain or fancy, or any other stunts this time for you. The season is closed for you, old top, and you'll just get back nicely into your little cave, for nothing—did-ing—absolutely!"

I spared no time. "What—what do you mean?" I quavered. "I haven't been—"

"No, you can bet your sweet life you haven't been doing anything worth mentioning, or I'd have been on your trail before this. I'm just telling you this now, so you can make up your mind to keep out of the mess. It's a joke, anyway—your getting mixed up in these secret services!" Of course, old Lil is different. She really belongs to the game, and she's valuable. And I can see how, on account of Katherine's profession, she could be useful to Lil. But you—outside of giving Lil moral support, which the Lord knows, she doesn't need, and giving Allen Drake a chance to tell you what a wonderful white-haired boy of the powers that be his lordship is, I don't see where you come in. And it's a risky business, I don't choose that my wife get mixed up in it. So if you have any little plans laid with Lil, you'd better get busy and squish 'em."
