Helpless Baby Gasps for Life These Hot Days

The Bee's Free Milk and Ice Fund Only Means Help Pitiful Infants.

A baby, innocent and helpless, gasps through these hot days and nights, gasps for its very life. Its mother, desperately poor, seeks with all the slender means in her wretched home, to keep it alive.

There are scores of such cases in Omaha today, right now.

Stope Pain Instantly

The simplest way to end a corn is Blue-jay. A touch stops the pain instantly. Then the corn loosens and comes out. Made in two forms—a colorless, clear liquid (one drop does it!) and in extra thin plasters. Use whichever form you prefer, plasters or the liquid—the action is the same. Safe, gentle. Made in a world-famed laboratory. Sold by all druggists. oratory. Sold by all druggists. Write Bouer & Black, Chicago, Dept. 112 chable book, "Correct Care of the Feet."

these pitiful infants.

Visiting nurses, when they find such cases as the above, order pure milk and cooling ice and charge it to The Bee's fund. Thus, without "overhead" charge, every cent you give actually goes to relieve the suffering of some poor little babe.

Oh, don't forget them.

Give a little of your comparative plenty to bring these helpless little ones through the hot summer.

Send or bring it to The Bee office.

Medical examinations by physicians all over the country show that an amazing number of people lack 100% iron in their blood. At a recent conference, Dr. James Francis Sullivan, formerly physician of Bellevue Hospital (Out Door Department), New York, and the Westchester County Hospital, said, "Without iron, the blood becomes weak, thin, pale and watery. In many people this so seriously weakens their vital organs as to lead them to believe that they have heart or stomach trouble, kidney disease, nerve force exhaustion or some other serious ailment. I have had people come to me thinking they had heart trouble, because they often had pains and palpitation of the heart, sudden dizziness, faintness or spots before the eyes. In a great many of these cases, the moment iron was supplied, all of these symptoms disthese cases, the moment iron was supplied, all of these symptoms disappeared."
