Music for Harvest Hands Is Planned by Kansas County

2,000 "Crop Savers" Needed for Work Scheduled to Start June 26 Near

### Larned.

Larned, Kan, June 18 -- Pawnee county will begin harvesting 250,000 acres of wheat lune 20 and needs. raise more wheat than last year, when | age projects, the yield was 3,000,000 bushels. This year the yield will be from 10 to 25 bushels per acre, an average of 15 bushels, and the county expects to 2.7500000 in the point of th harvest 3,750,000 bushels of wheat,

cents an hour for pitchers and header county barge men and higher wages for stackers.

### Farmers Are Americans.

A feature which many harvest hands will appreciate is the fact that the farmers of l'awnee county are

98 per cent American horn. Another feature which they will appreciate is the harvest welfare work which is established here. The county last year built a harvest wel-fare building, constructed of cement and equipped with sleeping quarters for harvest hands, who may be tem-porarily out of employment. This is believed to be the first building devoted to this purpose ever crected in the United States. It is an adjunct of the harvest welfare work, originated here by P. L. Mawdsley, a Methodist circuit preacher, and which he is now organizing throughout the wheat belt under the joint di-

### rection of the Kansas State Agricultural college and the Methodist Board of Home Missions.

Programs at Night.

Evening programs in the county agent's room at the court house are provided for harvesters when not actually engaged in the fields, as a feature of the harvest welfare work. There is a piano, phonograph, reading and writting tables, and each evening a musical program provided by the men and girls of the town. Larned invites harvest hands to come to Pawnee county this year, and see for themselves that this is "a good community," and that the people of the community are "friendly folk." the slogan on the stationery of the harvest welfare room declares.

To show Poulity Pictures. Weeping Water, Neb.—Three reels on poulity farms will be shown in moving pictures this week in various school-bouses in the county. The pictures will be shown under the auspices of the Cass

county farm bureau. Fig (rop Sub-Normal. At a conference of county agents in southeastern Nebraska it was learned that the pig crop of Nebraska is below normal.

Many Clubs Formed. Crete, Neb.-A report issued for May by the Salins county extension agent shows a remarkable amount of work done by his department. Ten clubs were formed in the county in this period. These con-sisted of four sewing clubs, three pig-clubs, one cost accounting club, one can-ning club and one garden club. There were many meetings attended, demon-strations had, serum depots organized and were many meetings attended, demon-strations had, serum depots organized and much other work done. Une of the fea-tures of the month's work was the estab-lishment of four seed corn plats in the four corners of the county for the pur-ase of comparing varieties, and to check the different yields per acre. D. L. Gross, agromeny specialist of the extension de-partment of the college of agriculture, aided in inspecting all of the four corn plats and in the selection of the seed for each plat. To Keep Cost Accounts. Twenty-four men have been obtained in Saline county who will keep cost account records on corn, wheat and oats. E. L. Taylor, rural economics specialized of the extension service, college of agriculture, and aiding the crop raters in start-ing their records. All of these records will be kept in the office of the county extension agent.

carrying her weight in lice won't lay many eggs."

When all the garden seeds are in, And you settle back and wait. If curworm damage should begin Mix up some poisoned bait. At least \$10,000 was saved the

# harvest 3,750,000 bushels of wheat. The wheat in Pawnee county is much better than the wheat in surrounding counties. Farmers are expecting to pay 400 cents an hour for pitchers and header

**Purchards Increase.** Red Cloud—The purchard breeders of Red Willow county have increased the per cent during the past five years. The livestock improvement survey is based on the number of purchard sizes at the heads of herds. Much credit is given to the calf and pig clubs for this showing.

lege, which frequently spread rust to nearby grain fields as early as May 20. Once the rust gets a start in a field it spreads directly, plant to plant, and field to held. "With thousands of barberries dis-

Farm Labor Scarre. Wahuo-The Saunders county farm bur-eau is having a hard time supplying steady farm hands as most of such labor has left for the harvest fields. Saunders younty farmers expect to pay \$3 per day for harvest help. tributed throughout the country districts to give the rust an early start in the spring, it is not difficult to ac count for the great losses to cereals cach year." the statement continues.

Community Meetings Planned. Lesington—A series of community meet-ings will be held in Dawson county June 20. 21 and 23. N. W. Gaines of the ex-tension department of the state agricul-ture college will lecture at all these meet-ings and general farm topics will be dis-cussed by local speakers. "Every barberry bush is a source of stem rust infection and should be eradicated. The state may have some stem rust after the barberry is en-

cussed by local speakers.
Hold Judging Contest.
Red Cloud-M. B. Posson of the state surjectural college conducted a stock-judging contest among 20 members of the boys and girls' clubs in Red Willow county. Eugene White scored high with 727 points out of a possible 800. Other scores were: Cecil Means. 690; Oscar Lea, 706; Albert Vance, 632; Lorgan Ohmsteds, 631; Spener Vance, 632; Lorgan Ohmsteds, 631; Spener Vance, 632; Lorgan Ohmsteds, 631; Spener Vance, 632; Lorgan Ohmsteds, 633; Bobert Overing, 820; Harold Korti-Means, 605; Earl Woodward, 576; Gilbert Means, 605; Earl Woodward, 576; Gilbert Means, 605; Charles McMahon, 583; Oscar Ramey, 536; Gilbert Lundstede, 515; Allien Vaughan, 513; James Simpson, 283. barberry to get its start in/the spring. 283.

The southwest in liberal volume. Harvesting of new wheat is under way and a movement is at hand which is ex-pected to increase hedging pressure in all markets, necessitating a greatly in-creased buying power to sustain values around the present level. Unless the latter is greatly enlarged and confidence revived, it will take a great deal of sup-port to hold wheat at \$1 to the farmer and he may have to take less. Export buying of wheat last week ab-sorbed more than 5.000,000 bushels at the lowest premium of the season for hard winters. Large previous sales of new wheat for export are expected to take a good percentage of the receipts during July and August. Most of the cash wheat taken in last month has been sold by the leading holders and a good decrease in stocks is predicted for the next few weeks.

Hatchery Burned St. Paul, Neb., June 18 .- The Loup Valley hatchery, one of the largest in the state, was completely destroyed by fire. This hatchery was located near Cushing and consisted of four incubators, two of them being of 10,000 capacity and the other two bringing the total capacity up to 26,000,000.
