

Democrats Attack Farm Tariff Rates

Walsh Opposes Giving Agricultural Districts Protection, Alleging "Raid on Consumers."

Agrarians Defend Plan

Washington, June 27.—The agricultural schedule in the administration tariff bill was attacked today in the senate by Senator Walsh of Massachusetts, a democratic member of the finance committee, and defended by Chairman McCumber of that committee and Senator Gooding, republican, Idaho, chairman of the republican agricultural tariff bloc.

Charge Raid on Consumers

Asserting that the bill was "an attempt to make a raid on the consumers of the country that none of us has ever before been dreamed," Senator Walsh declared that if effective the duties proposed on meats, cereals, potatoes and apples alone would increase the cost to the consumers by \$1,316,000,000 annually, or about \$81 for the average family of six.

McCumber Defends Plan

Senator Walsh said he did not know of any schedule in the bill that was more "indefensible" than the agricultural schedules that would result in "such serious consequences" to the American people and to the economic situation of the farmer.

Ask "Square Deal"

As to the effect of tariff duties on prices, Senator McCumber expressed the opinion that not all of the proposed increases in tariffs on farm products would be passed on to the consumer, but asserted that even if they were the city man with a wage range from \$5 to \$7 a day should be willing to pay out a "few cents extra" each day for foodstuffs so as to "enable the farmer to earn a living."

Herrin, Ill., June 27.—(By A. P.)—Removal to safety out of "Bloody" Williamson county and the southern Illinois coal fields of wounded non-union men now in the hospital, is one of the problems coming in wake of last Thursday's mine massacres.

Angered at Blame

Angered because their town has been blamed for the atrocities, Herrin citizens say Johnson City, Ziegler and other mining towns should bear part of the responsibility because many of the rioters came from other towns to join the riot mob which stormed the Lester mine.

Coal Shortage in Iowa

Washington, June 27.—Indications were given at the White House today that the government soon would be able to make an announcement in the coal strike situation and that the step contemplated was a move to bring the leaders of the union miners and representative operators together for a discussion of wage differences.

Realizing that the deadlock existing between mine operators and union mine workers will not be voluntarily ended by either party to the coal strike, the administration was prepared today, responsible officials intimated, to offer a compromise plan for negotiating the differences which, it was believed, could not be rejected by either party to the strike.
