## American Women are Careless

Women are too apt to overestimate their strength and overtax it. When feeling well they the unnecessary chances, which in the long un cause much pain and trouble. Wet feet, exposure to cold, lifting heavy burdens and overwork will often develop troubles which cause no end of suffering. Lydia E. Pinkham's Vegetable Compound is the unfailing remedy in such cases. Thousands of American women will testily to this fact who have regained health and strength by its use. If you are suffering it will pay you to give it a fair trial.

# EASTERN -PRIVATE SCHOOLS - WESTERN SOUTHERN

In every section of the United States specialists in education have established schools that are entitled to particular distinction in shaping the characters of their students.

In this issue of THE LITERARY DIGEST there are many advertisements of good schools.

Just which school to select is a matter for the careful consideration of the parent or guardian and we suggest that heads of families and prospective students read our school announcements carefully.

THE LITERARY DIGEST is prepared to make suggestions to parents and the School Advisory Department will be glad to answer letters. The requests must give name and address of parent or guardian; sex and age of child to be placed: approximate price to be expended for board and tuition; locality. and size of school desired.

.41

For years we have suggested early application to the schools. It is difficult to find the ideal school during the last weeks preceding the opening of a new session.
