Stunt Aviator, Once Here, Cut to Bits by Propeller

Louis James, Star Performer at Ak-Sar-Ben Festival, Killed in Chicago Exhibition.

Swinging on a rope ladder dangling from an airplane 800 feet in the air, Louis James, stunt aviator who appeared in Omaha last fall with Ruth Law, aviator, at the Ak-Sar-Ben exhibition ground, was cut to pieces Sunday afternoon at Homewood, near Chicago, by the propeller of another airplane.

His mangled body was dropped into the midst of 5,000 persons who had turned out to see aviator stunt at a celebration of the Homewood post of the American Legion. James was scheduled to change from one plane to another while in midair. When showing at the Ak-Sar-Ben exhibition ground last fall he swung from an automobile racing around the track to a rope ladder swung from a plane piloted by La Verne Treat. He did this stunt successfully here every day for a week.

Forced Down. The two planes in the fatal stunt Sunday were piloted by James Curran of Illinois field, Chicago, and William Thompson of Milwaukee. Curran was in the latter's International Aero congress in Omaha last November 8, but was forced down after four or five laps in the Pulitzer trophy contest.

As Curran and Thompson jockeyed their planes Sunday back and forth in midair the pilot of the upper ship was seen to bring his plane within a few inches of James' outstretched hands twice, but on both occasions the stunt man was unable to make contact.

Thrown Into Propeller. Finally James was seen to grasp the ladder, then the planes seemed to sheer together and the ladder was thrown squarely into the whirling propeller of the lower plane. James' body was seen to crumple and a moment later his hands still clutching a bit of the ladder, he plunged into the crowd of spectators below.

James was dead before his body hit the ground. Surgeons sought to give him aid. It was too late. The two pilots, nerve shaken, made rough but successful landings.

McGraw Company of Omaha Takes Over St. Louis Firm

A. J. Cole, vice president and general sales manager of the McGraw company, electrical, steam, telephone and mill supplies, 1208-1212 Harney street announces a consolidation by which the Central Telephone & Electric company of St. Louis becomes a part of the McGraw company, which now is said to be the largest concern of its kind in the central west.

The McGraw company originated in a small retail business in Sioux City. At the death of Joseph R. Lehmer, 10 years ago, the McGraw company bought the Lehmer business through the efforts of Mr. Cole. No changes in the personnel at either the Omaha or Sioux City house is contemplated as a result of the St. Louis consolidation.

Alliance Land Office Saved by Congressional Action

Alliance, Neb., July 3.—Contrary to expectations the United States land office here will remain open indefinitely, according to a telegram received by the Chamber of Commerce from Congressman M. P. Kinkaid in Washington. The congressman stated that a bill providing for the continuance of the office had passed both houses of congress.

Dog Hill Paragrafs

By George Bingham. A fire occurred at Bounding Billows early Wednesday morning of this week. Before it was put out

everybody was present except a bedridden person and the Blind Man. Cab Hancock reports that it is much cooler in his front yard since the children tore all the palings off of the fence. Little Fidelity Flinders has got so he can tell which shoe goes on what foot, as his right one has a hole in it.

RADIO Suggestions for Ground Plate

Charcoal Packed About Copper Sheet Makes Good Ground, Expert Says.

This department has had several requests for the construction of a good radio ground for use in the country where there is no water pipe with which to make a connection. As the ground is fully as important as the aerial system, care should be taken in making one. A good sized piece of sheet copper is needed first. This should be at least 18 inches square.

Look around the yard and choose a spot where the ground is most apt to remain damp, and dig a hole there. This hole should be from three to four feet deep, in order to have the ground retain its dampness during a dry season. In order to make the ground hold its moisture better, it is a good plan to dump a bag of charcoal into the hole so that it is packed about the copper plate. Charcoal has the property of holding moisture very well, and after it is in place pour a couple of buckets of water over it.

Tight Connections. Fill in the ground again, and pack it down tight. Be sure that you have a good heavy copper wire soldered to the plate before it is buried; or, better yet, solder a length of copper tubing, such as is used for the gasoline lines of an automobile. This will enable the amateur to use the ground for both the set and lightning protector.

Be sure to have all connections tight and the ground plate buried where the soil is wet or damp; usually the north side of a house is the best for this, as the sun does not get in there to dry up the ground. If the plate can be buried in a position to get the water that runs off the roof, it will be just that much better.

The Grid Leak. When your set howls like a hound on a moonlight night and you have tried without success to locate the cause, just look over your grid leak. A good type of grid condenser is that which is made with a pencil line. This type is easy to vary in that part of the lines may be erased or more added to it, as is found necessary. If the set howls do a little erasing. If it does not work at all, add a few lines.

Plans are under way for a nationwide broadcasting station to use radio in combination with the wired telephone systems. Programs for broadcasting are to be sent by means of the wired lines to the broadcasting stations. The phonograph record or the telegraph record will some day furnish the missing link. A well known authority on accounting and federal taxation recent-ly gave a talk over KDKA at Chicago, and not thinking of the range of that powerful station, offered to answer any questions by mail. Within the next few days he received 2,500 requests for information.

Questions

H. J. M., Fremont, Neb. Q. Would you advise me adding a variable condenser to my twin variometer set? How many plates and where shall I put them? A. I would advise you to incorporate a variable condenser in your variometer set. It can be either a 23 or a 43 plate variable. It should be connected across the B battery and the phone if the hook-up is direct; the other way is to connect the condenser across the phone.

G. L. B., Hastings, Neb. Q. What is the difference between the A and B batteries of a vacuum tube set? A. The A battery is the strange battery that is used to light the filament of a vacuum tube and is called an A battery because it is the first battery in the circuit and because current in the plate battery circuit will not flow till the A battery has been turned on. The B battery is the plate battery used to furnish current to operate the plate circuit of the vacuum tube. The B battery is also the second battery to be incorporated in a vacuum tube set and so gets the name B battery.

German Mark at .0023. New York, July 3.—The German mark fell to yet another low level here today, being quoted before the opening of business at .0023 or the equivalent of 100 for 23 cents. Before the war the value of the mark in this country was 238-10 cents.

STOP ITCHING ECZEMA

Penetrating, Antiseptic Zemo Will Help You

Never mind how often you have tried and failed, you can stop burning, itching Eczema quickly by applying Zemo furnished by any drug-gist for 35c. Extra large bottle, \$1.00. Healing begins the moment Zemo is applied. In a short time usually every trace of Eczema, Tetter, Pimples, Rash, Blackheads and similar skin diseases will be removed. For clearing the skin and making it vigorously healthy, always use Zemo, the penetrating, antiseptic liquid. When others fail it is the one dependable treatment for skin troubles of all kinds.

American Experts Plan Huge Airplane

New York, July 3.—The American Eagle, a 100-passenger hydro-plane, with which it is planned to circumnavigate the globe has been designed by a group of American experts and plans are being made to begin work on the monster ship at an early date. Announcement to this effect was made by the American Eagle company, recently formed by a group of engineers and airmen to back the building and operation of the plane.

To prove their faith in the proposed "King of the Air," the engineers cabled a challenge for an international race around the world in

How glorious you will feel, mother, when your rheumatism is all gone. Let S. S. S. do it. It will build you up, too!

Resinol does wonders for sick skins

A skin that is rough, reddened, blotched or disfigured by eczema, sore spots, or other eruptions, needs attention. Let Resinol Ointment help you to get rid of these annoying, unsightly affections of the skin.

Resinol Ointment contains medicinal agents that act directly upon the skin, heal its hurts and help it to keep healthy and attractive. Resinol Soap aids and quickens the action of Resinol Ointment. At all dealers.

A Remarkable Clearaway of Summer Millinery

WEDNESDAY \$1.00 Your choice of our entire stock of Summer Hats

This lot includes some stunning banded sailors as well as straws and cloth hats, beautifully trimmed—Many priced to sell regularly as high as \$10.00

Marriage to Teacher Is Announced by Graduate

Welch, Okl., July 3.—The announcement of Cupid's veiled activities between Arnold Speaker and a popular teacher, Miss Mabel Jennings, has shocked the board of education here.

Speaker, who was valedictorian of the 1922 senior class in high school, concluded his remarks by introducing the school teacher as his wife.

The high school youth and Miss Jennings were married May 21, 1921, at Columbus, Kan. They decided to keep the affair secret until Speaker completed his high school education. The board countered by purchasing the couple a silver set.

Livestock Insurance Men of Five States Meet Here

The American Livestock Insurance company held an enthusiastic meeting of district agents Saturday in their offices, 1817 Douglas street. About 30 district men from the five states in which the company operates, attended the meeting. The meeting was held in celebrating a 300 per cent increase of business for the first six months of 1922 over 1921, showing that hog insurance is being accepted in larger volume.

Rheumatism at 60

S. S. S. Thoroughly Rids the Body of Rheumatism Impurities.

Somebody's mother is suffering tonight. The scourge of rheumatism has wracked her body; limping and suffering, bent forward, she sees but the common ground, but her aged heart still belongs to the stars! Does anybody care? S. S. S. is one of the greatest blood-purifiers known, and it helps build more blood cells. Its medicinal ingredients are purely vegetable. It never disarranges the stomach. It is, in fact, a splendid tonic, a blood maker, a blood enricher. It banishes rheumatism from joints, muscles and the entire body. It builds firm flesh. It is what somebody's mother needs tonight! Mother, if you can not get out to get a bottle of S. S. S. yourself, surely somebody in your family will. Somebody, get a bottle of S. S. S. now! Let somebody's mother begin to feel joyful again tonight. Maybe, maybe it's your mother! S. S. S. is sold at all drug stores, in two sizes. The larger size is the more economical.

Do You Know

how Omaha impresses a newcomer? HEAR Evangelist R. R. Brown at the Tent Tabernacle, Douglas street, west of 20th, every night this week except Monday, at 7:45 P. M. Start with Fourth of July night. CHRISTIAN AND MISSIONARY ALLIANCE (Interdenominational) Watch!

The Omaha National Bank

Farnam at 17th Street Capital and Surplus \$2,000,000

Lowest Fares in Years to MINNESOTA'S 10,000 LAKES

COME, spend your vacation in this superb summer land—where you can fish for gamy bass and muskallonge—swim, canoe, golf or just loaf under clear, sunny skies—hike in the Big Pine Woods. Greatly reduced fares enable you to enjoy this complete change for but little more than it would cost you to remain at home. Tickets are good returning until October 31st. Call, write or phone for detailed information.
