

### Law Is Quoted on Eligibility of Hostetler

#### Friends Assert State Act Pertaining to Officeholders Does Not Disqualify Congressional Candidate.

Kearney, Neb., July 7.—(Special.)—A statement relative to the qualification of Judge B. O. Hostetler as a candidate for congress has been issued by M. A. Brown, editor, and N. P. McDonald, attorney of Kearney, answering charges that Hostetler is disqualified by the Nebraska constitution from seeking another office during his term as judge.

In part the statement says: "The constitution of the United States fixes the qualifications of a member of congress. All the authorities hold that it is not competent for any state to add to or in any manner change the qualifications for a federal office as prescribed by the constitution or laws of the United States. Furthermore, the federal constitution declares that 'each house shall be the judge of the elections, returns and qualifications of its own members.' No state court has the power to decide these questions.

"Every court of last resort, which has ever passed upon the question, has held to the same effect, among them the supreme courts of New York, New Hampshire, Minnesota and Washington. The supreme court of Washington had before it a statute exactly like that of Nebraska and an attempt was made to keep the name of a judge of the supreme court off the primary ballot for congress. The court held him eligible.

"The suggestion that Judge Hostetler is not qualified to be a candidate for this office arises out of the ambition of the friends of his opponents to defeat him for the nomination. No one ought to be misled by this false alarm. The fact that the opponents of Judge Hostetler are obliged to resort to such tactics to support their own candidate ought to stimulate his friends to still greater activity in his behalf."
