

OMAHA'S NEW RIVER DRIVE

A woodland dell photographed from the river drive.

One of the beautiful vistas through the trees along the South Thirteenth street road. The Missouri river in the background.

Photograph from south of Madison avenue, looking south on the new road. The wooded hills along the Missouri river make this an unusually attractive section of road.

Looking across farm lands and woods.

Looking north over the smooth, white ribbon of the South Thirteenth street drive, now paved to the Sarpy county line.

This beautiful panorama is one of the scenic attractions of the newly paved South Thirteenth street river drive. The photograph was taken from "Inspiration Point," Camp Brewster.
