Card Removed.

In a statement given out when the warrant was issued, Mr. White delared he was removing the offend-"g sign, not in "acknowledgement of the right of the state to suppress free utterance, published in a decent and orderly manner," but because he be-lieved a protesting party should "obey the order or law while the case is pending.

For "Henry Only." "Henry and Me day" scheduled to take place when Mr. White and Govcrnor Henry J. Allen are on the pro-gram to address the Kansas State Normal school, will be a day for 'Henry only," the editor declared, in stating that he will not appear on

the platform. "No, I will not be on the platform hardly. "Your uncle prefers my room to my company." with the governor," he said. "I do not want to embarras Henry. I had not agreed to speak at the normal and this idea of 'Henry and Me' day probably was hatched to make a newspaper story.

The yellow placard started a con-troversy between Mr. White and Governor Allen, life long friends, all these years. It's for him to say line and changed color a little. both publicly and privately, over the interpretation of the industrial court act. At the outset of the railroad strike, Governor Allen issued an order declaring that posting signs expressing sympathy for the strikers was in violation of the anti-picketing provisions of the law.

### Puts Sign in Window.

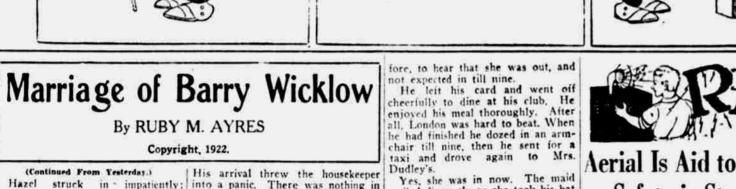

The editor last week placed the sign in his window and published an ditorial in his paper, saying that the governor's interpretation of the law interfered with free speech and courting arrest for posting the placard. The fact that Mr. White has been an ardent supporter of the industrial court law and that he and Governor Allen have been friends has caused much publicity to be given the con-

troversy. Mr. White said he would not again post the placard in his window. "I will have it framed and keep it as a souvenir," he said.

THE only question is which one will you buy? Good hop flavored malt sugar syrup is made out of choice No. 1 malt barley and imported Bohemian hops. It is filled with sugar, rich with malt, full hop flavored, and almost free from muisture.

A cheap hop flavored malt extract, on the other hand, is low in sugar content, flat in malt value, and weak in hop flavor, because it is filled with moisture, adulterated with cheap corn, and flavored with low grade loose hops.

Such a hop flavored malt extract is of no earthly value even after you have bought it.
