Million Bushels of Wheat Handled by Nebraska Pool

Grain Being Shipped to Markets in Minneapolis and Kansas City—Will Ship Colorado Wheat.

Trenton, Neb., July 25.—Wheat from the pool of the Nebraska Wheat Growers' association is being shipped to markets in Minneapolis and Kansas City, according to the organization's headquarters office which recently was established here. The total pool now amounts to about 1,000,000 bushels, although organizers are still in the field and a considerably larger amount is expected before the end of the present crop movement.

Sales agreements to care for the 1922 season have been made with the Northwest Wheat Growers association at Minneapolis and the Kansas City Jobbing association at Kansas City. The former establishment is the co-operative organization which handles the pools in the Pacific coast states, and recently established a sales office in Minneapolis to dispose of about 15,000,000 bushels from North Dakota.

Tentative arrangements by which the Trenton office of the Nebraska Wheat Growers' association will have charge of a pool of nearly 1,000,000 bushels formed by Colorado wheat growers were reached at a meeting of the board of directors here last week. Representatives of the Colorado association were present to ask for a consolidation of state offices. If the arrangement is ratified by the Colorado members it will result in practically doubling the amount of wheat to be handled through the Trenton office.

Bruce Lampson, formerly with the Washington Wheat Growers' association, has been named as manager of the Nebraska organization and is in charge of the Trenton office. A. P. Heald, president of the Citizens state bank of Trenton, is secretary-treasurer of the co-operative marketing institution. J. L. Hull of Hastings is president of the board of directors.

Fugitive "Drowned Out" of Hole by Detectives

Detectives used buckets of water instead of guns when Wesley McBride, 26, Aetna hotel, crawled into a hole beneath a Turner boulevard home. Detectives Francl and Summitt poured water down the hole until the man crawled out and surrendered.

McBride is held for investigation. He is alleged to have gone to the home of his mother, Mrs. Anna M. McBride, 3002 Dodge street, and to have called Bob Neil, 320 North Nineteenth street, to the house, where he sold a $260 talking machine for $60. Glen H. Bohley, a roomer, called the detectives.

Drug Clerk Arrested on Suspicion of Check Forgery

Harry Taylor, 2428 Decatur street, until two weeks ago a clerk in the Rialto drug store, Fifteenth and Douglas streets, was arrested yesterday by Detectives Francl and Summit and Patrolman Jenkins.

Taylor is alleged to have stolen a pad of blank checks from the store and to have forged the name of Henry G. Lieb, owner, to several checks that he cashed.

AT THE THEATERS

FOR laughter nothing in recent weeks surpasses the act offered at the World theater by Everett's Monkeys. The curtain rises upon a miniature stage. The monkey orchestra strikes up a snappy tune, a simian page appears with cards announcing the various acts and then the monk performers do their various stunts. It took Everett many months to train the animals who do their work without any one being on the stage. One of the most difficult feats was to train one monk to juggle with fireworks. The average monkey is deathly afraid of fire and for this reason it took much patience and time to show the monk that if he did his work properly no harm would come to him. The entire six act bill embraces a wide variety of entertainment.

Market, Financial and Industrial News of the Day

Omaha Grain

Omaha, July 25.

Exporters were said to have been good buyers on the recent break and as receipts were considerably lighter this morning prices of wheat were strong and climbed to higher ranges, but not fully regaining the losses of yesterday. Parts of Canada are needing rain but as a whole conditions are better than last year. The car situation is no better and is hampering the movement of grain.

Receipts of wheat at Omaha were only 107 cars this morning, as compared with 517 cars last year. Receipts of other grains were very light. Total shipments were 139 cars against 306 cars last year.

Cash wheat in the local market was in good demand and prices were quoted 1½@2c higher, being generally 2c higher. Corn sold unchanged to ¾c up. Oats were unchanged to ¾c higher. Rye was unchanged and barley was 2c higher.

London Wool Auctions.

London, July 25.—At the wool auction sales today 12,316 bags were offered, comprising a varied assortment. There was general buying of all fine and medium wools. Last week's values were firmly sustained.

Chicago Grain

By CHARLES D. MICHAELS.
Omaha Bee Leased Wire.

Chicago, July 25.—A better tone developed in the grain market, all grains being oversold on Monday's break and weak holders well liquidated. Selling pressure was lighter and less aggressive. The buying, particularly of wheat, was better. Prices moved irregularly. They closed at intermediate figures. July wheat was up 2c, September 1¾c and December unchanged. Corn closed ⅛@¼c lower, oats unchanged to ⅛c lower, rye ½@1¼c lower, lard 7½@20c lower, the latter on January; short ribs 17½c lower for the day.

Wheat Readily Absorbed.

Wheat was readily absorbed by exporters, who took the liberal hedging sales at the start. Although prices were lowered after a higher opening, the buying by the seaboard continued. Eventually it started a covering movement. Prices were advanced 3¾c for July. That took the lead and sold up to $1.11, while deferred futures moved up 1¾c to 1¾c. Nearly all the big commission houses had buying orders around the top cash houses were sellers of September. July acted tight most of the day, although at the last selling carried prices off 1c from the top. The rally was helped for a time by a stronger close in Liverpool with July 1d higher, though December was 1¾d lower.

The incoming wheat movement continues to be large. The three southwestern markets had 715 cars, against 484 cars a week ago, and 1,073 cars last year. Western Canada complains of drouth, while southern Kansas is getting too much rain.

Corn Sells Heavily.

December corn was sold heavily early in the day by houses with Omaha connections. It broke ¾c. Most of that slump was recovered in the late trading on profit taking by local shorts and buying by commission houses. Buying of September and selling of December at 3¾c to 3¾c difference was a feature of the trading. Liverpool's spot prices were 1d lower. Receipts have fallen off sharply and shipments are large.

Hedging sales were on in oats, with cash houses the buyers against export sales. Spreaders bought September and sold December at 3c difference. The movement is increasing and export clearances were 76,000 bushels. Rye had poor support. Receipts and hedging sales are increasing. July sold down to 79¼c and reacted ⅝c on export buying.

Pit Notes.

European crops generally are progressing well, especially in Germany. There the weather lately has been most favorable. In Poland the wheat and rye crops both show an increase over the 1921 turn. In the Balkans the excessive heat of the last few days has done some damage. In North Africa the wheat shortage will be over 5,000,000 bushels, which will have to be made up from outside sources.

Winnipeg Free Press crop reports says Manitoba wheat crop has improved. Saskatchewan and Alberta need rain badly. The rye crop is good, with 75 per cent harvested. Practically no frost or black rust.

Weather Favorable.

The Illinois Central's crop report covering Illinois, Iowa, Kentucky, Tennessee, Mississippi and Louisiana shows the weather conditions have been favorable for general advancement of crops. Wheat is being threshed with promise of good yield. Corn condition in Illinois, 90 per cent; oats, 80 per cent; Iowa corn, 95 per cent; wheat, 98 per cent; barley, 95 per cent; rye, 98 per cent. Corn condition in Kentucky and Tennessee, 80 per cent; cotton, 75 per cent; tobacco, 92 per cent. Other states, corn, 93 per cent; cotton, 85 per cent; sugarcane, 100 per cent; rye, 75 per cent.

Lake rates from Chicago to Buffalo have advanced to 3 cents for wheat and corn, while to Georgian bay they are 2½c, with a special understanding as regards unloading boats. The big shippers have chartered room freely and are not selling corn or other grains for nearby shipment, unless they have the grain unloaded. As on shipper put it, "We are taking no chances." The lake rate of 3c a bushel on grains materially narrowed the spread between the lake and rail and all rail rate to the seaboard.

E. W. Wagner & Co. are to pay 50 cents cash and 50 cents in notes, running five years, to their 6,500 creditors. The cash is to be paid out within 60 days and it is expected that payments will start September 1. Judge Hand of the United States district court in New York accepted the compromise offer today.

New York Sugar.

New York, July 25.—The raw sugar market was more active today and prices were higher with Cubas quoted at 3¾c, cost and freight, equal to 5.36c for centrifugal and Porto Ricos at the same level. There were sales of fully 200,000 bags of Cubas and 61,000 bags of Porto Ricos for July and August shipment to local and outport refiners at quoted prices.

The strength in the spot market led to renewed buying in raw sugar futures and closing prices showed net advances of 8 to 12 points, the highest levels recorded so far this year. Trade interests were again active buyers while there was also continued buying by outside interests, including the west. September, 3.79c; December, 3.93c; March, 3.69c; May, 3.79c.

The market for refined was firmer with a more active inquiry for both domestic and export account. Prices were unchanged to 10 points higher, with fine granulated now listed at 6.80c to 7c.

There was a little more activity in refined futures and closing prices were unchanged to 25 points higher. Trading was confined to the November position at 7c, August, 7.10c; October, 7c; December, 7c.

New York Cotton.

New York, July 25.—The list was finally steady in a see-saw session in the cotton market today. In forenoon dealings there were both a moderate bulge and a decline, with the general tendency to lower prices toward midsession. After a steady and narrow opening scattered profit taking from shorts and a little trade buying was met, which lifted prices about 5 to 18 points over last year. But in the early afternoon the market turned weak and dropped 25 to 45 points under last night's close, accelerated by the uncovering of scattered stop loss orders. The last half hour saw another reversal of trend which carried prices back almost on a level with the early high. There was active short covering at the close, with prices 4 to 15 points net higher.

Spot cotton was quiet, 20 points advance, 21.45c for middling upland.

Southern spot markets: Galveston, 22c, unchanged; New Orleans, 21.50c, unchanged; Savannah, 21.40c, 2 points advance; Augusta, 21.38c, 25 points decline; Memphis, 22.50c, unchanged; Houston, 21.80, unchanged; Little Rock, 21.75, unchanged.

Cattle—Receipts, 5,000 head. While receipts were more moderate today, undertone of the fat cattle market continued dull on most grades. A few choice corn fed steers and cows sold steady to strong, but short feds, yearlings and grass she stock were again in poor demand and moved slowly at barely steady to 10@15c lower prices. A fair supply of feeders was on hand and prices again broke sharply, loses of at least 25c being noted from yesterday.

Omaha Bee Leased Wire.

New York, July 25.—On the stock exchange, prices recovered substantially from their weakness of the day before; doubtless reflecting by that change of attitude the shifting of impressions and expectations regarding the labor situation. The negotiations have plainly enough now reached a stage at which the railway shopmen's strike may be settled with some suddenness and in which the administration will be compelled to take a position in the coal strike controversy which will at least bring matters to a head. It is quite true that a situation is also coming definitely into sight in which depletion of fuel supply would seriously handicap industrial production and in which continued embargo on their mechanical facilities would seriously embarrass the railways. But, on the other hand, experience teaches that it is precisely this approach of gravely troublesome consequences of labor disputes which is likely to force a settlement. That is one reason for the proverbial unwillingness of the stock exchange to "sell
