

Rail Trackmen's Union Threatens to Go on Strike

Protest Attempts of Roads to Organize Unions to Take Place of Present Organizations.

Detroit, Mich., July 26.—(By A. P.)—A threat that the 400,000 maintenance men employed on the nation's railroads will go on strike because of alleged action of certain eastern roads in attempting to form company organizations to take the place of international railroad brotherhoods, and because of the action of guards employed by the railroads, was made here today at headquarters of the International Brotherhood of Maintenance of Way Employees and Railway Shop Laborers.

E. F. Grable, president of the union, who is in Chicago, conferred with the United States railroad labor board and is prepared to demand, it was said authoritatively here today, that certain practices be discontinued and that the union be reorganized. Unless grievances of the maintenance men are settled, it was stated at union headquarters here a strike is inevitable.

The brotherhood officials here charge the Lehigh Valley and Delaware and Hudson Western and Eastern railroads are attempting to organize company unions to take the place of the present labor organizations. The maintenance men also protest against use of guards by the railroads. They assert lives of all railroad employees who remain at work are imperiled by promiscuous shooting on the part of the guards charged with protecting railroad property during the shopmen's strike.

Women Attack Workmen.

Toledo, O., July 26.—Forty women, wives and relatives of striking railway employees, attacked a party of nonunion railroad shopmen on their way to work in the Fearing street shops of the New York Central railroad here early today. Police responding to a call for help were met with a shower of bricks and stones which resulted in call for police reserves.

Chicago, July 26.—(By A. P.)—With the government assuming control of freight traffic last night, the eastern railroads continuing their efforts to form new unions of shopmen, and indications from Montreal that a walkout of 40,000 Canadian shopmen had been authorized, peace in the railway strike today seemed remote.

On the other hand, good will was apparent in the meetings held at Baltimore between officials of the Baltimore & Ohio railroad and representatives of the shopmen, which have been regarded as a possible precursor to other individual settlements if successful.

No further spread of the strike was looked for, although 50 maintenance of way men at Shawnee, Okl., and a number at Moberly, Mo., quit work yesterday because armed guards are patrolling railroad property in those cities. A resolution adopted by representatives of nearly 300 general chairmen of the clerks and freight handlers' union, after their meeting here yesterday, declared they would resort to their economic power if their grievances are not adjusted, but it was believed that they would take no further strike action pending negotiations.

Plans have been perfected for delivering mail by motor truck at least once a day to every community in upper Michigan, North and South Dakota and Minnesota, comprising the tenth railway mail district. Motor trucks are already being used in portions of Wisconsin, Michigan and North Dakota to carry mail and freight.

of refrigerator cars for transporting fruits.

Two big western trunk lines, the Santa Fe and the Southern Pacific, reporting today to the United States railroad labor board in support of the roads' contention that the seniority question is the big issue at stake in the shopmen's strike, declared they had 16,020 men at work who would be affected by it.

Mckelvie Talks to Absent Spouse by Radiophone

Tells Wife Spending Vacation in South Dakota That He Can't Find Broom or Duster.

Lincoln, July 26.—(Special.)—Governor Samuel R. McKelvie did something last night he admitted he never did before. He talked to Mrs. McKelvie and she couldn't talk back.

This was done through a radiophone installed by a publishing company here and a monologue by the governor to his wife marked the first program on the regular twice-a-week program. Mrs. McKelvie is at her summer cottage in South Dakota. A radio receiving set had been installed at her home for the occasion.

"Get off the line you other girls," were the governor's first words. Then he said: "Hello! Hello! Listen, dear."

"Others who have spoken on the wonders of the radiophone have confined their observations to the commercial aspects of the questions. I approach it from the viewpoint of suffering humanity."

"What, for instance, could be more humane than a husband to be able to talk to his wife with the assurance that she could not talk back? For fear that I may lead, indefinitely, the life of an abandoned husband, I have some remarks to make. 'For the life of me I have not been able to find either the broom or the duster.'

"Moreover, I have a lurking suspicion that my bed needs making. 'They had a primary election here the other day and you probably know the results.'"

"Many declared it wasn't a regular election because my name wasn't on the ballot."

"It remains now for us to get out in the weeks to come and tell the folks how to vote and what to do."

Alliance Rancher Wins Battle to Quash Judgment

Herman J. Krause Gets Permanent Injunction to Prevent Omahans Collecting \$75,000 on Potash.

Alliance, Neb., July 26.—After more than four years of litigation, during which the case was carried through two district courts and twice to the state supreme court, Herman J. Krause, prominent western Nebraska rancher, through his attorneys, has won a permanent victory over Peter and Anna Long of Omaha, ending one of the most bitterly contested civil cases ever heard in the Sixteenth judicial district.

The case had become familiarly known as the "Million dollar" case and attracted the interest of attorneys and the public throughout this part of the state.

The first chapter was written in the spring of 1918, when the Longs started suit against Herman J. and John H. Krause, brothers, in the district court of Douglas county for approximately \$1,000,000, alleging that the Krause brothers had defrauded them by concealing the value of large potash deposits on lands and lake waters sold to them by Long in Sheridan county. Service was obtained on Herman Krause while he was on a business trip to Omaha.

Long Gets Judgment.

The case was tried there before a jury and Long was awarded a judgment of \$75,000 in June, 1919. Krause's attorneys appealed to the supreme court and the day after the judgment was entered in Long's favor Krause died in Alliance. Long's attorneys then moved to dismiss the appeal to the supreme court on the ground that it had not been filed prior to John Krause's death. The motion was overruled and the case was later argued before the supreme court, resulting in the affirming of the judgment awarded by the Douglas county district court.

Restraint Order Granted.

Krause's attorneys then started action in the district court of Sheridan county, at Rushville, to enjoin the Longs or their attorneys from collecting the \$75,000 judgment and a temporary restraining order was granted by Judge W. H. Westover last December. The case then came up at the regular term of court in Sheridan county and a permanent injunction was applied for by Krause's attorneys. Fifteen witnesses testified that Long had talked about his potash deposits on the land he later sold to the Krause brothers, at least a year before the sale and that he knew of potash tests being made at the lake prior to selling his property.

Judge Westover took the case under advisement and in his final decision holds that the \$75,000 judgment obtained by the Longs was secured by perjured testimony and other forms of fraud. He has granted a perpetual injunction, forever enjoining the Longs or their attorneys or agents from taking any action whatsoever to collect the judgment. The judgment, with accumulated interest, would now amount to approximately \$100,000.

President Appoints Coal Control Board.

Company Formed to Promote Irrigation

Gothenburg, Neb., July 26.—(Special.)—The Dawson County Service company has been organized by citizens of this county in the interest of irrigation.

The company, according to the articles of incorporation, has been organized "to promote irrigation, the growing of sugar beets and the manufacture of sugar, syrups, molasses and other products therefrom." Another function of the organization is "to make, execute and own contracts with farmers and sugar beet growers to grow beets for the season of 1923 and 1924 within said county and adjoining counties."

Engineer Smith states the field work on the survey of the lower Platte project started October 20, last year, is now completed. The entire project embraces 310,000 acres and has 15 reservoir sites, with a capacity of 1,334,084 acre feet of water.

Randall Is Given Slight Increase.

Additional Returns Swell Lead of Randolph Man for G. O. P. Governor Nomination.

Additional official returns from the recent primary as telegraphed to The Associated Press from counties which completed their official canvass, gave Charles H. Randall of Randolph a slight increase over the vote given his closest contestant, Adam McMullen of Beatrice, in the republican gubernatorial nomination race.

These returns, which represented official returns by telegraph from all but eight counties of the state, gave Mr. Randall 49,043 compared to 48,493 for Mr. McMullen. Two of the counties not represented in this official count, but whose unofficial votes are included, are Lancaster (including the city of Lincoln) and Douglas (Omaha). Official returns from the latter county probably will not be available before next Saturday night. The unofficial vote of six other counties is also included.

W. J. Bryan Will Lecture at Bloomfield Sunday.

Bloomfield, Neb., July 26.—(Special.)—The Bloomfield chautauqua opened Tuesday, Hans' jubilee singers in a full program being the opening number. W. J. Bryan will deliver a lecture Sunday afternoon at the fair grounds. (Vast crowds are expected. "Conquests of Peace," a pageant, will be put on by children of the junior chautauqua.)

Chautauqua at Dubois.

Pawnee City, Neb., July 26.—(Special.)—The chautauqua at Dubois, 11 miles east of here, will start July 31 and last five days.

Alliance Police Refuse to Guard Strikebreakers

Night Marshal, Father of Two Strikers, Resigns—Officers Are Discharged—Sheriff Takes Job.

Alliance, Neb., July 26.—(Special.)—Eugene Stilwell, night marshal at Alliance for the last year and a half, and eight special officers have retired from the city's police force following differences which arose between them and Chief of Police Jeffrey and City Manager N. A. Kemish, in connection with the railroad strike.

Chief Jeffrey ordered the squad of men, headed by Marshal Stilwell, to do police duty on the Burlington's property when it was reported that a carload of men were being shipped in to take the strikers' places. Marshal Stilwell, who has two sons who are out on the strike, held a conference with the eight special officers and reported to Chief Jeffrey that none of the men was inclined to obey orders and that he did not care to carry out the chief's instructions himself. This, the chief said, constituted disobedience of orders and subjected the men to immediate discharge. Marshal Stilwell was given an opportunity to resign, which he did. Several of the special officers voluntarily surrendered their stars and the rest did so by request. The special officers had been on duty only a few days.

Cal Cox, formerly sheriff of Box Butte county for several terms, and who was deleted at the recent primary election for the democratic nomination for sheriff, has been appointed night marshal to succeed Stilwell. A new force of special officers has been engaged.

USE BEE WANT ADS—THEY BRING PROFITS

The new Goodyear Cross-Rib Tread Cord

Discounting the "Discount" in Advance

You don't have to be a shrewd bargainer to get the bottom price on the new Goodyear Cross-Rib Tread Cord. Instead of listing it at a high price, to enable the dealer to attract you with a so-called "long discount," we list it as low as we profitably can. You can see from the figures below that its advertised price is lower than the net price you are asked to pay for many "long discount" tires of unknown value.

We believe the average man would rather buy tires on this frank and open basis, and assure himself a product of recognized worth.

The new Goodyear Cross-Rib Tread Cord is made of high-grade long-staple cotton, and it embodies the patented Goodyear method of group-ply construction.

In design, materials and manufacture it is a representative Goodyear product, built to safeguard the world-wide Goodyear reputation.

It has a different tread from the famous All-Weather Tread Cord—a new tread with a deep, clean-cut, cog-like pattern—and it sells for from 20% to 25% less.

You can get the new Goodyear Cross-Rib Tread Cord now, as well as the famous All-Weather Tread Cord, from any of the Goodyear Service Station Dealers listed here.

Compare these prices with NET prices you are asked to pay for "long discount" tires
