

Wheat Producers Ask Government Aid in Marketing

Kansas Organization Requests Advances of Not to Exceed \$2,500,000 From Finance Corporation.

Washington, July 28.—Application of the Kansas Wheat Growers association for an advance not to exceed \$2,500,000 to assist in financing the orderly marketing of wheat during the coming season, was announced by the War Finance corporation.

The corporation also announced that representatives of the Washington, Idaho, Montana, and North Dakota Wheat Growers associations would appear before it August 9, in connection with pending applications from those organizations as follows: Washington Wheat Growers association, \$2,000,000; Idaho Wheat Growers association, \$1,000,000; Montana Wheat Growers association, \$3,000,000 and North Dakota Wheat Growers association, \$3,000,000 to \$5,000,000.

Advances to co-operative marketing associations so far for assistance in financing the orderly marketing of agricultural products, the corporation stated, totals \$87,000,000, including the following: Oklahoma Wheat Growers association, \$2,500,000; Texas Wheat Growers association, \$45,000,000; Oklahoma Cotton Growers Co-operative association, \$6,000,000; Arkansas Cotton Growers Co-operative association, \$7,500,000 and Texas Farm Bureau Cotton association, \$9,000,000.

The corporation said it is expected that only a portion of the amounts approved will be actually advanced by the corporation and that, as was the case during the past season, the banks in the interested districts will do the major part of the financial work for the associations.

Furthermore, the large eastern financial centers are showing a decided interest this year in the financing of the co-operative marketing associations and it is probable that considerable amounts will be made available from these centers, in addition to the advances provided by the local banks.

Omaha Firm Loses Suit to Get Paving Contract
Falls City, Neb., July 28.—(Special)—Work on the \$75,000 paving program has been started here as a result of Judge J. B. Raper having thrown out of court the mandamus proceedings instituted by the Bauer-Johnson Construction and Supply company of Omaha against the local city council at a hearing held in district court. The Omaha firm sought to compel the council to let the contract, claiming to have been the lowest bidder.

German Mark at .0017 7-8.
New York, July 28.—Unfavorable cable dispatches concerning Germany's financial situation caused another sharp decline today in marks, which were quoted here at 17 1/2 cents a hundred, the same price as the new low record of July 8. This represented an overnight decline of 1 1/2 cents a hundred.

Stores Find Radio Boom for Business

Eastern Department Houses Install Broadcasting Stations to Stimulate Sales.

From a report prepared by the National Retail Dry Goods association, analyzing radio telephone conditions, we learn that there are at least seven department stores engaged in broadcasting located as follows: Philadelphia, three; New York, one; Newark, one; St. Louis, one; Los Angeles, one. Numerous applications have been filed by other department stores, and the list is bound to be expanded materially by the time this is read. Department stores recognize radio as a merchandising opportunity of the first order, with an estimated annual volume of \$70,000,000.

In many of the larger stores sales of apparatus average \$5,000 to \$6,000 weekly in spite of the shortage of sets and parts. An important field is expected to be the rural general store, because radio telephony will bring metropolitan entertainments to country districts and assist in saving life and property in storms, flood or fire by sending out alarms and warnings.

Motor Bandit's Father Says Son to Plead Guilty

"We Want to Give Boy Another Chance," Parent Asserts, With Tears Streaming Down Cheeks.

George Conklin, 1407 North Seventeenth street, stone mason, father of Roy Conklin, 19, confessed motor bandit, told city detectives yesterday morning his son would plead guilty and go to the penitentiary.

Tears slipped down the furrows of his tanned face as the father talked to detectives. "It's hard, awfully hard," he added, "but we want to get this squared up and give him another chance to be the man we've dreamed he might be."

Shipping Board Survey to Be Made Here Next Week

An office of the United States Shipping board will be opened in Omaha if a survey to be made by Edward C. Plummer, member of the board, proves satisfactory.

Mr. Plummer is expected here this week on his way to California and will stop here for several days on his way back late in August. The Chamber of Commerce Foreign Trade and Commerce committee has already obtained a large amount of freight business from this territory for the United States Shipping board boats. This class of freight was formerly shipped in foreign bottoms.

The shipping board now maintains offices in Kansas City, St. Louis and Minneapolis in the middle west.

Grand Island Industries Feel Coal Shortage Pinch

Grand Island, Neb., July 28.—(Special Telegram.)—The effects of the coal strike are beginning to be felt in industries here. The city operates a large water, electricity and ice utility and has a supply for only a little over 50 days.

The Union Pacific Supply will last less than 50 days.

The American Beet Sugar company's plant usually has from 300 to 2,000 tons stored for its fall campaign by this time, but can get coal only for immediate use. City officials are considering installing an oil burning system, instead of coal.

AT \$10.00

We will close out Saturday morning just 10 cents, eggs, wraps and suits for \$10.00. Come early.
