Poincare Steals Out of Paris to **Elude Assassins**

Goes to Country Home by Auto After Public Announcement He Had Taken Train -German Plotters Feared

Paris, July 29 .- (By A. P.)-Paris was surprised this morning when it became known that Premier Poincare had slipped quietly out of the city by automobile for his country home in the department of Meuse early today. It had been announced last night that the premier had left by train for his week end holiday. Elaborate precautions were taken at the rail-way station when he was supposed to have departed, and it was said an engine had preceded the train to pre-

vent a possible attempt to wreck it. It was learned today, however that a quick change had been made in the plans in order to avert any attempt on the premier's life, which might be made in connection with the announcement yesterday that a German monarchist plot to assassinate him

Discusses Plot.

It is understood the premier is planning to carry out his original intention of participating in the unveil-ing of the war memorial in the Argonne tomorrow near his country

home at Sampigny.

Before leaving Paris last night the premier discussed the alleged plot and precautions considered advisable, with the new prefect of police, M. Naudin and with Minister of the Interior Maunroury. The reported plot is understood to be the work of the monarchist association known

Encouraged by its success in plan-ning the removal of former German Minister of Finance Erzberger and former Foreign Minister Rathenau, the association, according to the re-port made to the French foreign of-fice, decided to extend its scope beyond the German frontier and selected Premier Poincare" as the first

Precautions Taken.

At the time the assassination of Dr. Ratenau a report was current in Berlin that the next victim would be Dr. Joseph Wirth, the German chancellor and the French premier, but no attention was paid to the report here at that time. The alleged plot, knowledge of which came from the Belgian government, had been worked out with such detail, both as to its organization and the means the monarchists intended to employ to accomplish their end, according to the official report that the French government felt it could not safely disregard it. After con-siderable deliberation it was decided the best means of frustrating the at-tempt was to make a public state-ment, which accordingly was issued

Says Noted Churchman

Portland, Ore., July 29.-Good roads have been a boon to many communities and many people, but have proved a boomerang in at least one direction, according to the Rev. E. R. Martin, superintendent of the upper Pacific coast district of the American Sunday school union.

It is the rural church which has suffered, due to the general improve-

ment of the highways in recent years, in Rev. Martin's opinion. Before the inroads of good roads, with their accompanying automobiles, each small community had its church, he pointed out, but of late years those

interested in church work have flocked to the nearest city, leaving the ru-

ral districts without church leader-Thousands of country districts are now unchurched, the Rev. Mar-tin declared, adding that 3,000 rural school districts in the three states of

Oregon, Washington and Idaho are without Sunday schools.

Vandals Multilate Grave of Noted Frontiersman

Deadwood, S. D., July 29.—(Special.)—Residents of the Black Hills have become angered by the ac-tion of vandals who have broken through the wire screen protecting the grave of "Wild Bill" Hickok in Mount Moriah cemetery, near Dead-wood, and are making a practice of chipping off pieces of the monument

An old statue of "Wild Bill," which was carved many years ago and erected over the grave of the noted frontiersman, was multilated beyond recognition by vandals and souvenir hunters, and the present monument seems destined to go the same way unless means can be found to put a stop to the operations of the vandals.

Chicagoan, Charmed by Omaha, Begs C. of C. Here to Give Wife Excuse for His Return

Fascinating Omaha! How it fastened its charms on a Chicagoan so that he is now tortured with a longing to return here, is told in a letter received yesterday by Montagu Tancock, manager of the Chamber of Commerce publicity bureau. "Here is a rather odd request," says the letter. "Chicago is my

home town and we lived here until six years ago when I was sent to Omaha. That many years in Omaha has fostered in me a liking for Omaha, a disliking for Chicago and a yearning to return to the Ne-

reason I cannot prevail upon her to return. Sentimental reasons are not sufficient, so I have concluded to write the Chamber of Commerce and have it besiege my wife with highly colored and sweetly spiced literature about Omaha. Mail this as if it were unsolicited. If a response to this letter is forthcoming, have it so worded that it shall not betray my purpose. I realize that there is an apparent trend of humor through-out this letter, but I am sincere."

Listed Debts Named as Wife's Purchases; Doctor Says He Has No Assets.

Dr. James P. Connolly, jr., dentist, divorced from his wife, Irene, in a decree entered July 10, yesterday filed a debtor's petition in bank-

ruptcy in federal court.

His debts, totaling \$1,500, include \$700 owed to Brandeis, \$300 to Burgess-Nash and like sums to other local stores for "goods purchased by bankrupt's wife during 1921." A. F. Kunel, grocer, with a bill of \$160, and other tradesmen are mentioned.

Judgment for attorney's fees, ob-tained by the wife, in addition to and separate from the alimony and court costs, is included in the schedule of Connolly's debts.

Connolly declares he has no assets.

Wliton, Ia., July 29.—Corncobs are being used to keep the fires in the lighting plant here going as a re-sult of the fuel shortage from which

the town is suffering.

The practice of using cobs was resorted to early in the week when it became necessary to curtail opera-tions of the utilities plant, hours of service being fixed at from 7 p. m. to 11 p. m. The cobs are used in-stead of coal after the load is taken

off the turbines.

Mayor George Bannick has resorted to unusual lengths in an effort to obtain addidtional supplies of coal, but so far has been unable to secure the fuel. Citizens are using wood, cobs and old corn to make fires.
