

### Disabled Vets Neglected, Says Agent of Legion

#### Hospital Facilities in Ninth District Declared Inadequate in Statement by James Milota.

Charging that hospital facilities provided by the United States government are inadequate and that federal figures on the care of disabled veterans are inaccurate, the Ninth district rehabilitation committee of the Veterans' bureau, through James Milota, American legion rehabilitation committee publicist, issued a statement on its findings and recommended additional and better facilities.

The committee investigation showed there are 1,000 insane veterans in the district, which includes Missouri, Kansas, Nebraska and Iowa, of whom 492 are in hospitals, 229 in contract hospitals and 283 in leased or government-owned hospitals. Five hundred and eighty remain and should receive attention. Modern facilities for 1,000 insane are recommended.

**6,000 Have Tuberculosis.** Records of the Veterans' bureau show there are 6,000 former soldiers in the district suffering from tuberculosis. The district needs two 300-bed hospitals, the statement declares. "Moreover," says the statement, "there is urgent need for modern hospital facilities for 1,000 medical and surgical cases in order that the suspected insane or tubercular veterans may be provided with observation and diagnosis."

Four hundred and forty such patients already are in hospitals. The statement quotes from a government report showing "government beds, 1,348; unoccupied beds, 544; number of patients in leased institutions, 804; number of patients in contract hospital beds, 319."

**Hospitals Described.** The facts are, according to the committee, that of 1,348 beds reported as available in federal institutions, only 172 are in an institution owned by the government, and it is occupied by insane at Knoxville, Ia.

Federal reports on district hospitalization were taken up by the com-

mittee and each hospital was described, as follows: 67, Kansas City, "no yard, grass nor shade for convalescents"; 35 St. Louis, "formerly old people's home with separate buildings, meaning all food is served cold"; 75, Colfax, Ia., "formerly summer hotel, damp, not fireproof and only walking cases can be sent there"; 57, Knoxville, Ia., "formerly state reformatory institution, unfit"; 18, St. Louis, "discontinued, patients are sent to 35"; Soldiers' home, Leavenworth, Kan., "a home, not a hospital, lacking facilities and personnel";

#### Nebraska Governor Warns Colorado Republicans Against Regulation by Statute Law.

Denver, Colo., Aug. 9.—(By A. P.)—The disposition to "regulate about everything and everybody" by statute law, was blamed for much of the present day increased cost of government by Samuel R. McKelvie, governor of Nebraska, in his keynote address before the republican state assembly here today.

The assembly will designate candidates to be voted upon at a statewide primary to be held September 12. The assembly was called to order by George H. Shaw, state chairman, who introduced Jesse F. McDonald of Leadville as temporary chairman.

### A Popular-Priced Cord Tire Without a Rival

The new Goodyear Cross-Rib Tread Cord Tire is built with genuine high-grade long-staple cotton as a foundation. It is liberally oversize—the 4 1/2-inch tire, for example, measuring nearly 5 inches.

The deep, clean-cut, cog-like pattern of its tread affords excellent traction even in snow and mud, engaging the road like a cogwheel.

The scientific distribution of rubber in this tread—the wide center rib and the semi-flat contour—gives a thick, broad surface that is exceedingly slow to wear.

This new tire is a genuine Goodyear through and through—in design, in material, in construction.

It costs less to buy than the net price you are asked to pay for many "long discount" tires of unknown reputation and value. Why be satisfied with less than this efficient tire can give—why take a chance on an unknown make?

Compare these prices with NET prices you are asked to pay for "long discount" tires
