### **Bumper Crops** Are Forecast on Nebraska Farms

Corn Has Chance to Outdo Other Products-Present Condition Better Than Last Year.

The present August condition of Nebraska corn compares favorably with the high conditions of the last two years and forecasts another large The average yield of winter wheat is slightly better than ex-pected. Oats and other small grain are very poor. Other crops made more or less improvement. This is the summary of the August report of A. E. Anderson of the bureau of agricultural economics and Leo Stuhr of the Nebraska department of

Corn has a chance to outdo other Nebraska crops this year. The present high condition of 93 per cent last year and 90 per cent two years ago. This condition forecasts a crop of 217,340:000 bushels, as compared to 207,732,000 bushels last year. The condition has generally been favorable throughout the sea-son with few exceptions. The June drouth gave an opportunity to kill weeds and cultivate properly. Ade quate moisture came in July to sup-ply the increasing demands of the rapidly growing crop, which will soon pass the critical period of growth under favorable conditions and which, if continued throughout August, should produce a crop that will exceed last year's yield. Winter wheat yields are exceeding

the expectations of a month ago over nost of the eastern third of the state The crop in the balance of the state is yielding about the same as the uly condition indicated. The preiminary estimate of yield is 15 hushels per acre, as compared to the indicated yield of 15.5 bushels a mouth ago and 15.3 bushels the final estimate last year. The preliminary production is placed at 52,200,000 bushels, as compared to 57,559,000 bushels last year.

Oats Showing Poor. Spring wheat improved slightly in northern counties and the present condition of 73 per cent indicates a half of the state, which includes the crop of 3,666,000 bushels. The total late commercial sections. The earliproduction of all wheat is now est plantings in the southern counplaced at 55,866,000 bushels.

ties were damaged by the Oats are doomed to make a very drouth and heat wave, but the later poor showing this year. There was a plantings have improved somewhat, slight improvement in some of the Potatoes in the northern part of northern counties, but the crop is the state escaped injury and the pres-considerably below the average. The ent conditions indicate one of the considerably below the average. The conditions indicate one of the condition of 64 per cent at the time largest crops on record. The acreoi harvest forecasts a crop of 60.970. age of the early commercial crop has 600 bushels, as compared to the final estimate of 70.054,000 bushels last acreage was increased almost 50 per conditions of 87 per conditions indicate one of the conditions ind vear. The quality is poor and there has been some injury to the grain in the shock from rains. The stocks of bushels as compared to the final esold oats on farms is estimated to be timate of 8,160,000 bushels last year.
7,005,000 bushels, or 10 per cent of Shipments of potatoes exceeded 5,000 last year's crop. Last year's crop cars last year and if present conditions continue until harvest and martings discouraged sales. prices discouraged sales,

of rye is 12.5 bushels per acre and the year's crop. production 1,738,000 bushels as comcent, which indicaes a crop of toes, 85 per cent; flax, 98; buck-5,560,000 bushels, as compared to wheat, 90; apples, 84; all hay, 80; 4.915,000 bushels last year. The June timothy, 79; clover hay, 1.4 tons per drouth and heat injured barley se-

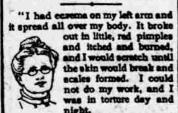

## S, S. S. Fills Out Hollow Cheeks, **Thin Limbs!**

Men and women,—whether you will ever build yourself up to your normal, just-right weight depends on the number of blood-cells in your blood. That's all there is to it. It's a scientific fact. If your blood will be in disorder, and perhaps your face will be broken out with pimples, blackheads and eruptions. S. S. S. keeps your blood-cell factory working full time. It helps build new blood-cells. That's why B. S. S. builds up thin, run-down people, it puts firm flesh on your bones, it rounds out your face, arms neck, limbs, the whole bedy. It puts the "pink" in your cheeks. It takes the hollowness from the eyes, and it fools Father Time by smoothing out wrintles in men and women by "plumping" them up. S. S. S. is a remarkable blood-purifier. While you are getting plump, your skin eruptions, pimples, blackheads, acne, rheumatism, rash, tetter, blotches are being removed. The medicinal ingredients of S. S. S. are guaranteed purely vegetable. S. S. is soid at all drug stores, in twe sizes. The larger size is the more economical.

No Chop Suey in China,

Never Has Been, Says

San Francisco Aug. 11.—There is no chop suey in China, according to Walter C. Whiffen, Associ-

ated Press bureau chief at Pekin,

an American whose official busi-ness has taken him to many nooks

and corners of that country dur-

ing the past few years, and who has prosecuted and unofficial-and

what was supposed to be its native land.

What's more, and worse, from the standpoint of those in the United States who are devotees of

the concoction that bulks so large

on the culinary map of Bohemia,

there never has been any chop suey

in China, at least not so that it could be noticed, says Mr. Whiffn.

To carry the sad story still further, he says he had tried chop

suey as served in America and thinks so much of it that he is seri-

ously considering introducing it to official circles of the Chinese cap-

ital when he returns to his post
