Bank of Nations Is Laughed Away by Bankers Here

Nebraska Senator's Visionary Record Is Recalled in Discussion of "Newest Platitude."

What do you think of Hitchcock's bank of nations scheme?" a country banker asked during a conference in the president's office of one of the vge Omaha financial institutions. Not one in the group spoke up in favor of the idea. It simply wasn't taken seriously. This indifference

"It is just a dream." a banker from out in the state declared. He had heard Senator Hitchcock explain the bill at a group meeting of bankers out west. "The senator knows little of farming and nothing of finance, and it looks like this was simply an effort to keep people's minds off domestic issues." he said. "Certain public men speak in platitudes. When they have no constructive plan to kelp matters in our own country they begin talking about faroff things.

Last Monday the supreme court issued a writ of error and ordered bond to be fixed by his release pending review of the case. District Judge Leslie after communicating with Assistant Attorney General Dorsey, declined to fix bond and continued the case to Monday. "By discussing international affairs hope to convince the public and perhaps themselves that they are statesmen of big world caliber.
