

Omaha Chosen Headquarters of Synod District

Convention of Both North and South Divisions of Lutherans Adjourns at Noon.

Omaha was chosen yesterday as headquarters of the North Nebraska district of the Missouri synod of the Lutheran church. The convention of both the North and South Nebraska districts, which started last Wednesday, adjourned at noon. The districts met in joint sessions yesterday morning in Hotel Castle auditorium.

Prof. August Schuelke of Seward, treasurer, reported receipts of the Nebraska district for the year ending July 1 were \$12,000.

This is \$10,000 more than the receipts of the preceding year, he said. "The synod's work has gone forward in spite of the price of corn and hogs which affects so many of our members on the farms."

Recommendations Adopted. The equalization committee, appointed to adjust the finances of the two newly-created districts, recommended that endowments, beginning August 19, be divided equally between the two districts, that the present treasurer serve both districts till December 31 and that cash on hand at that date be divided according to the number of communicant members in each district and that the church extension fund be divided geographically. The convention adopted these recommendations.

To Hold Joint Sessions. Rev. C. H. Jockler, Rev. J. Holstein and the two treasurers were appointed the committee to make final adjustment of finances.

It was voted to have Rev. Paul Matuschka of Lincoln continue as director of missions for both districts, and Prof. H. Hillmann of Seward inspector of church schools for both districts.

The two districts will have some joint sessions in future conventions or will interchange delegates, so as to keep in friendly touch.

Prominent Lincoln Man Is Killed by Automobile

Lincoln, Aug. 22.—Elmer Wilmet, 27, member of a prominent Lincoln family, was struck by an automobile late this afternoon and died an hour later in a hospital conducted by his father, Dr. F. L. Wilmet. Wilmet was superintending a sewer-laying project on an outlying boulevard and was crossing the street when struck by the car, which was traveling rapidly. Wilmet was H. Hillmann of Seward inspector of church schools for both districts.

Benkleman Men Are Held on Charge of Burning Store. Lincoln, Aug. 22.—Inspector Butcher of the state fire marshal's office returned yesterday from Benkleman, where he conducted an investigation which resulted in the arrest of W. M. Stogsdill and Thomas Bisgard on the charge of setting fire to a stock of goods. The two men were bound over to the district court in the sum of \$1,500 each. The fire they are accused of starting destroyed a building and stock of groceries on the night of July 14.

All That He Needs Are Lace Ruffles, Ribbons and Nice Powder Puff. Long Beach, Cal., Aug. 22.—Corduroy trousers with flaring bottoms inserted with gaudy gussets and garnished with long tassels, were scored by Police Judge Carl V. Haskins, when the wearer, Carlton B. Gilbert, an oil worker, appeared for sentence on a charge of improper dancing in a public dance hall.

"All that is lacking to complete the picture before me," said the court, "is lace ruffles about your cuffs, a few ribbons in your hair and a powder puff in your pocket. Fads are fads, but there is a limit."

RADIO

Radio-Frequency for Long Waves

Loop Antenna Is Great Aid for Short Distances.

A vacuum tube set with a loop antenna will receive well over short distances, but for best results a Radio-frequency amplifier should be used to build up the energy of the intercepted waves. The loop antenna is a directional receiver, and reception is best when the loop is pointed with its end toward the sending station. The loop intercepts only a small amount of the energy usually received by a good antenna, but it is safe from lightning since it can be used indoors. It does not pick up static like the regular antenna because it does not make use of a ground connection.

Metallic Lining. The use of the regenerative arrangement complicates the operation of a set quite a little, but at the same time louder signals will be heard than would be obtained from a simple receiving circuit. The regenerative effect gives rise to all kinds of noises in the telephone receivers. Oftentimes in tuning there will be a "fading" of the signals when the hand is brought near the dial. To overcome this "capacity effect" of the body it is found necessary to line the inside of the panel with a metallic shield. Inasmuch as the capacity of the body materially affects the delicate adjustments of the regenerative set, the dials of some instru-

Health Course to Be Given by Public Schools

First to Eighth Grade Pupils to Get Comprehensive Instruction Starting This Year.

A comprehensive course of study in health education will be included in the public school curriculum at the opening of the new school year September 5.

Considerable has been done here in health and hygiene instruction, but it is the first time that this kind of instruction has been definitely outlined through a course of study in the Omaha schools.

The course will run through the grades, from first to eighth, being adapted to the capacities of the children in the various classes.

J. H. Beveridge, superintendent of schools, stated that he believes education should prepare the rising generation for the responsibilities of life. It is his opinion that instruction in health is surpassed in importance only by moral instruction.

The second grade children will be taught to sing the following lines to the tune of "Yankee Doodle": "The six best doctors anywhere, And no one can deny it, Are Sunshine, Water, Rest and Air Exercise and Diet."

U. S. Steel Corporation Boosts Pay of Laborers. New York, Aug. 22.—(By A. P.)—The United States Steel corporation today announced that the wage rate of day labor at all its manufacturing plants would be increased 20 per cent September 1, and that other rates would be equitably adjusted.

At the offices of the corporation it was said that about 150,000 would be affected by the new scale and that they would receive 30 cents an hour under the advanced wages. The corporation has about 220,000 men on its payroll, but 64,000 are in the mining and transportation departments, it was said.

Man Plunges Into 'Devil's Tea Kettle' and Dies of Burns

Loses Footing and Slips Into Hot Springs at Klamath Falls, Ore.—Unable to Climb Walls.

Klamath Falls, Ore., Aug. 22.—Frank Albert, 50, died from burns received when he fell into "The Devil's Tea Kettle," a hot spring here. He lost his footing while filling a barrel for household use and plunged into the spring, the temperature of which is about 197 degrees. Unable to climb the slippery bank Albert was in the hot water several minutes before his screams brought assistance.

Brother and Sister Suicides. Des Moines, Ia., Aug. 22.—After his sister, Emma, 30, had ended her life by taking poison, Paul Bartel, 25, hung himself from a rafter in his barn. Brooding over the loss of \$15,000 invested in oil stock was thought to have been the cause of both suicides.

Three Hunters Shot Dead. Portland, Ore., Aug. 22.—Mistaken for deer, three hunters have been shot since the deer season opened Sunday, according to reports which reached here from southwestern Oregon today. Royal Ostrander of Porterford was shot by George Hurst near Marshfield and is believed to be fatally injured. Two victims, whose names are not known, were wounded by one shot, fired by a hunter near Grant's Pass. One is said to be in a serious condition.

Southern Kansas Corn Crop Threatened by Heat. Topeka, Kan., Aug. 22.—Southern Kansas and northern Oklahoma near Coffeaville, are experiencing the first hot winds of the summer. The mercury is near the 100 mark and corn is being badly damaged by the parching wind from the southwest. Farmers say unless relief comes in the form of rain and lower temperature, the corn yield will be cut in half by the end of this week. Corn, until yesterday, gave promise of a record breaking yield in that section.

At Wichita, the season's heat record was broken yesterday afternoon when the official temperature was 102 degrees. Hot winds added to the discomfort. Salina reported 105 degrees.

Tchitcherin Refused Permit to Cross Belgium. Herbesthal, Belgium, Aug. 22.—M. Tchitcherin, Russian foreign minister, and several soviet colleagues proceeding to London on the Cologne-Ostend express were refused access to Belgian territory today. They were forced to return to Cologne as they had failed to obtain the visa of the Belgian consul in Cologne.

The soviet minister argued that his party was only passing through Belgium with no intention of stopping, but the frontier officers were obdurate and the Russians had to leave the train.

Two Killed in Blast. Houston, Tex., Aug. 22.—Two men were killed and a third injured at Goose Creek, 25 miles from here, when a charge of dynamite exploded today in a blacksmith shop.

Patrick Kelly, 110, Noted for War Record, Dies at Merna, Neb. Merna, Neb., Aug. 22.—(Special.)—Survivor of two wars of the Victorian period and noted as one of the oldest men in the United States, Patrick Kelly, 110, died here yesterday.

His first warfare, after having received a good education in the schools of Dublin, in which city he was born March 5, 1912, was with the armies of the Italian liberator, Garibaldi. He lost three fingers under Garibaldi's banners when one of his hands was shattered.

He enjoyed the Crimean war next and later saw military service in many foreign lands. In 1870 he came to the United States and became a coal miner in Illinois.

In 1884 Patrick Kelly came to Nebraska and acquired a homestead near New Helena, where he lived until retiring a few years ago to take up his residence in town.

Two Killed in Blast. Houston, Tex., Aug. 22.—Two men were killed and a third injured at Goose Creek, 25 miles from here, when a charge of dynamite exploded today in a blacksmith shop.

False Claims. WE hope there is no Mother who thinks she can treat her sick baby without calling in a Physician, or with remedies that she uses for herself.

Most Mothers know that Baby requires remedies especially prepared for babies, yet there are some who think that what is good enough for them is good enough for Baby, and it is to these Mothers we appeal to give nothing to their babies that is not specially prepared for babies or recommended by their Physician.

False claims may kill, but false claims can never restore your child. For over thirty years Fletcher's Castoria has been aiding in the reduction of the deaths among infants as Mothers have become more and more acquainted with it. Always keep it in the house.

Children Cry For Fletcher's CASTORIA

Mothers Must Use Care.

Why do we so often call your attention to imitations of Fletcher's Castoria? Because it is a baby's medicine and imitations are always dangerous, particularly imitations of a remedy for infants.

Your druggist may not keep an imitation but they are to be found on drug-store shelves. Reliable druggists think only of the welfare of their customers. The other kind only of the greater profit to be made on imitations.

Your own judgment tells you that Fletcher's Castoria having for over thirty years at great expense held up its reputation, must jealously guard it. Then, it follows that this company must use the very best of material. Must employ experts in the selection of the herbs. Must retain skilled chemists in its manufacture.

Your same good judgment must tell you that these irresponsible imitators are trading on your credulity and the reputation built up by Mr. Fletcher, during all these years, for his Castoria.

United States Probes 'Life Institute'

Government Takes Hand in Investigation of "Healer of Broken Homes"—Head of Cult Facing Charge of Operating Confidence Game.

Chicago, Aug. 22.—The federal government has taken a hand in the investigation of the conduct of "Dr. Albert J. Moore," "healer of broken homes" and head of the "Life Institute." The government wants to find whether Moore conducted correspondence courses in "home healing."

Dr. Moore will be in court today to face a charge of operating a confidence game. Subpoenas have been issued for Mr. and Mrs. W. W. Talcott and Mrs. James H. Cartwright of Oregon, Ill., wife of an associate justice of the state supreme court, who is expected to be chief witness against Moore. Mrs. Talcott is alleged to have paid Moore \$2,000. She is still "faithful" to the "doctor," it is said.

"Nonresistance," based on the doctrine of "Resist Not Evil," was revealed by investigators as the underlying tenet of the cult. On this same doctrine the three famous cults conducted by Jacob Beilhart, "Dr." Otoman Hansch, and Evelyn Arthur See were established.

Moore defied his accusers and declared he would hear them if they appeared in court. Mr. Talcott and Alvin Frohne caused Moore's arrest. Frohne's wife defends Moore and probably will testify in his behalf. Both Mrs. Frohne and Mrs. Talcott were busy at Moore's "institute" today.

Dog Hill Paragrafts. By George Bingham. We Close at Noon on Safety.

Sim Flinders has a dog that follows him wherever he goes. The dog thinks Sim is a fine man.

Tobe Moseley says every town has three classes of people: One that dresses nice and has some money; another that hasn't any money and dresses well on a credit, in trying to keep up with the first class; and one that works hard all the time, and never has anything but a milk cow and a lot of children.

Slip Pickens says jaybirds look so much alike it is hard to tell whether they are the same ones or not.

Senator Asks Removal of Federal Dry Chief

Washington, Aug. 22.—Representative Hill, republican, Maryland, today addressed a letter to Secretary Mellon requesting the immediate removal of Federal Prohibition Commissioner Haynes, who Mr. Hill charged, "engaged in defrauding the United States government in that he is using and causing to be used the official mail franchises of the Treasury department for the sending out of personal political propaganda in the interest of himself and his associates, the Anti-Saloon league."

"I love all that has come, comes, and can come to me, I appreciate my every experience."

This was written once every hour and during the intermissions Mrs. Frohne mediated on the "nonresistance" doctrines which it set forth. This kept up for 8 to 10 hours a day, Frohne says.

Man Killed in Train Crash. Kingman, Ariz., Aug. 22.—D. V. Kinney was instantly killed and six others seriously but not fatally injured last night when two work trains on the Santa Fe collided at a point seven miles east of Kingman.

PIGGLY WIGGLY

The Old Carriage Maker Had an Important Truth

"To make each part as strong as the rest," was his way of "building a wonderful, one-horse chaise that wouldn't wear out till judgment day."

This illustrates a fact that is keeping many doctors busy these days—human bodies, like chaises, break down because some part isn't as strong as the others.

Very often it's because of ill-balanced food, lacking in some important element of nutrition. This is especially true of ills developed in childhood, and carried on through life.

Grape-Nuts, that world-famous, ready-to-eat cereal, brings the plan of building each part as strong as the rest—to serve human need. Grape-Nuts contains all the nutriment of those best of the field grains, wheat and barley, including the vital mineral elements, and it is a wonderful food for building and sustaining health and strength.

The delicious flavor and crispness of Grape-Nuts make it a welcome dish whenever you're hungry.
