

Fast U. P. Train Jumps Rails at Fremont Switch

Thirty Passengers in Two Day
Coaches Unhurt—Baggage
Car Overtaken—Cause
Is Mystery.

Fremont, Neb., Aug. 23.—(Special)—No. 18 Oregon-Washington eastbound limited train was derailed on the western end of the passing track switch about five blocks west of the Union depot at 10:30 last night causing the tender, the baggage car, the diner and two passenger cars to leave the track. The engine remained on the rails.

The baggage car turned over on the side and tore up the ground several feet deep while it being dragged a distance of 250 feet before the train came to a stop. Thirty passengers in the two day coaches were unhurt and raised no commotion when the accident happened.

The train was in charge of Conductor Stephen Clague of Omaha and Engineer Elmer Fair of Council Bluffs.

The passengers in the two stranded cars were put on the three passenger cars which remained on the track and taken to Omaha. The cause of the derailment remained undetermined last night. C. L. Highsmith, Union Pacific trainmaster of Omaha, arrived here shortly after the accident and after a thorough investigation was unable to locate any trouble with the track. Deputy United States Marshal Fulham arrived on the scene 10 minutes after the wreck. He said he found no spikes had been removed or that the track had been tampered with in any way.

Hyers Will Probe Auburn Complaint

Anonymous Resolution Sent to
Governor Demands Discharge
of State Deputy.

Lincoln, Aug. 23.—(Special)—Governor McKelvie today directed State Sheriff Gus Hyers to go to Auburn to make a dual investigation of the charge made by Luther Griz, a garage man, that he was maltreated by Karl Schmitt, jr., a state deputy, when the latter stopped Griz to search his car and to investigate charges made by state officials that the garage man was defrauding the county road fund by using a dealer's license on a car employed in private business.

"I have received an anonymous copy of a resolution alleged to have been passed by a body of citizens at Auburn calling for discharge of Schmitt," the governor said. "It didn't have the name of a single citizen signed to it."

The governor declined to discuss the reported plan of Lieut. Gov. P. A. Barrows to sue him instead of the state for salary during the time Barrows acted as governor.

U. P. Employee Hurt As "Go-Devil" Jumps Track

Kearney, Neb., Aug. 23.—(Special)—Fred Long, Union Pacific signalman, had a narrow escape from death when his "go-devil" jumped the tracks near Alalfa Center. Long was thrown a considerable distance and suffered a broken shoulder, the fracture of several ribs and bad contusions on the head. He was unconscious for several hours.

Parents' Problems

How can children be best taught to be accurate in making statements? If you teach a child under 7 to be accurate and exact, you are in danger of spoiling one of the most delightful and characteristic things about him, namely the flowering of his imagination and the artless expression of it. I should not teach accuracy at all! I should have it in the air children breathe, the very substance of their relation with older people.

Dog Hill Paragrads

Cricket Hicks is working on the farm this week. He loves to hear the birds sing, and the bees buzz, and the crickets chirp, all of which,

together with the sweet chiming of the dinner bell, makes rural life one of harmony.

Columbus Allyn's wife has set the weeds, the front yard and now Columbus can sit on the front porch and see everybody that passes along the road.

Sis Kidney sat next to Pops Easley at preaching last Sunday, but could not hear much of the sermon, as Pops's watch ticked so loud.

ALLEN'S FOOT-EASE DOES IT

Omaha Rabbi Called to \$8,000 Texas Post

Rabbi Morris N. Taxon, for four years connected with local orthodox Jewish synagogues, has been called to Dallas, Tex., where, it is reported, he is to receive \$8,000 per year.

Rabbi Taxon announced his plans to leave Omaha January 1 at a gathering of representatives of his congregation Tuesday night at his home.

Call Goes Out for Small Sum as Milk Fund Nears Close

Only \$62.50 Is Needed to
Bring Total to \$1,500
—Drive Will End
Sunday.

Only \$62.50 is needed to bring The Omaha Bee's Free Milk and Ice Fund total up to \$1,500, the amount needed to cover expenses incurred by the Visiting Nurses' association in its fight for the relief of scores of babies during the hot summer months.

The fund reached the \$1,437.50 mark yesterday. Those who have been intending to contribute can get their names in the honor roll by forwarding contributions immediately. The final total will be announced Sunday morning.

Among recent contributors is the Campfire Girls' organization of Primrose, Neb. These girls raised \$863 by having a food sale and asking friends to donate food.

Here are recent contributors:

Previously acknowledged	\$1,406.87
S. S. Trimble club, Lexington, Neb.	2.00
Jack Walker	1.00
P. J. I.	1.00
Theresa B. Vaughan	2.00
Nebraska Oldsmobile company	30.00
M. H. S.	1.00
Campfire Girls, Primrose, Neb.	8.43
P. J. Matigan, Fremont, Neb.	1.00
Total	\$1,437.50

Omaha Priests Are Transferred to Other Points

Father Julius Hettwer and
Father John Kelly De-
part on Leaves of
Absence.

Rev. Julius Hettwer, former superintendent of St. James Orphanage, Benson, and Rev. John Kelly, pastor of Holy Cross church, Fifty-fifth and Center streets, have left Omaha on extended leaves of absence.

Rev. F. C. Healy of South Sioux City has been appointed successor to Father Kelly. Father John Palubicki is now superintendent of St. James Orphanage.

No information has been given out by Archbishop J. J. Haury as to the transfer of either Father Hettwer or Father Kelly. The former priest was relieved of his duties at St. James Orphanage following the suicide on June 14 of Mabel Bessler, his cousin, who had been suffering under a mental strain.

Rev. August Ziesel, director of Bishop O'Connor hall, Twenty-fifth and Cass streets, has taken over the secretaryship of the Clergy Casualty company, an insurance organization promoted by Father Hettwer.

Father Kelly announced he was going to Florida. He and his sister, who was his housekeeper, left Omaha last week.

Large numbers from Fremont, Columbus, Seward, Garrison and other towns were present. Some of them brought bands.

At 2 a parade four blocks in length was formed, after which prizes being given for the 15-entry events. A \$50 prize was given each to Lincoln and Garrison for having the best exhibition in the parade. A Ford car was won by Miss Etta Jones of Ullyses.

Criminal trials will begin in district court Monday. Lee Morton, Roy Secret and Thomas Sullivan, charged with assault, and Fred Go-var, charged with motor theft, will be tried first.

RADIO Bugs' Interest Split on Circuit

Experimenters Give Up Arm-
strong to Return to Radio-
frequency.

Attention at present in Radio reception around New England is divided between the radio frequency amplifier using a coil antenna and the new Armstrong super-regenerative arrangement. Several have tried the new circuit with more or less success, and some have gone back to radio frequency as their standby while still experimenting with the super-regenerator.

One of the first experimenters to try out the Armstrong hook-up was G. W. Nichols of 29 Whitney street, Cliftondale, Mass., and he reports very satisfactory results, omitting the filter and the third tube, which functioned as an amplifier. Without even the use of a loop or coil antenna he has succeeded in bringing in far distant stations. These results are remarkable when it is considered that the energy was intercepted solely by the coils in the circuit.

Mr. Nichols reports very good quality of signals, which, however, were not very QSA at the longer distances. Circuit noises on 360 meters were noticeable, and persistent. However, on longer wave lengths, around 475 meters and above, these circuit noises were reduced. Experimenters using the new hook-up claim that the circuit is more dependable in its results over any given period of time than the usual circuit. If UV201 tubes are used, the grid bias on each tube should be approximately three volts negative, while for VT2 or Western Electric "E" tubes, a 9-volt grid bias is required.

In Canada the amateur is taxed \$1 for each experimental radio set. More than 400 licenses have been granted by the government.

A broadcasting station erected and maintained by popular subscription is planned by the University of South Carolina. It is expected to raise \$12,000 in \$1 donations.

The radio is greatly stimulating recruiting in the national guard throughout the country. Under the new table of organization attractive openings are afforded to young men interested in wireless and a high grade of men is being obtained for these openings.
