Market, Financial and Industrial News of the Day

Omaha Grain

Omaha, Aug. 26.

Grain markets were a shade higher at the start today in sympathy with Liverpool and, although trade was light and sentiment rather bearish, values held up well, the only easiness being noted late in the day, but this was not serious and the finish was only slightly lower. Lack of outside interest was also a contribution toward the existence of an easier tone.

The lower temperatures prevailing over the corn belt, it is said, have cooled the ardor of the crop destructionists very materially, and the action of the market would indicate a considerable reduction in buying power. Longs who loaded up on the hot weather have not as yet generally liquidated and left the market in a weak position.

Wheat receipts at Omaha showed an exceedingly large falling off as compared with the corresponding day last year, 57 cars of this grain being received today against 136 cars on the latter occasion. Receipts of corn were 62 cars as against 36 cars, and of oats 10 cars against 15 cars last year. Shipments totaled 144 cars, compared with a 196-car dispersement a year ago.

A moderate demand was apparent for cash grain in the Omaha market. Wheat moved at unchange to a 1c lower figure. Oats changed to a 1c lower figure. Corn was unchanged to1-2c off. Oats were off 1-4@1-2c, with rye unchanged to 1c lower and barley not much changed.

Flaxseed.

Duluth, Aug. 26.—Flax—$2.18¾@2.19¾.

Chicago Grain

By CHARLES D. MICHAELS.
Omaha Bee Leased Wire.

Chicago, Aug. 26.—Grain prices held within comparatively narrow limits, with a majority of the local element disposed to go slow on either side pending new developments in the general situation. Prices averaged slightly higher. Wheat closed unchanged to 3-8c lower, corn unchanged to 1-8c higher, oats 1-2@3-4c lower, and rye 1-8c lower. Lard was 5c higher to 2 1-2c lower and ribs off 7 1-2c.

Wheat sold at a new low for the season this week, but rallied very sharply later on general short covering. There also was good commission house buying. At the last net gains were 2@2 5-8c.

Crop damage was the main influence in the corn market. With a let-up in pressure, prices were 1 3-8c 1 7-8c for the week. Oats were 1-2@1 1-4c higher and rye up 1-4@3-4c. Provisions were unsettled, lard off 2 1-2@10c and ribs 5c at the last.

Higher in Liverpool.

An advance of ⅝ to 1¼d in wheat in Liverpool was responsible for fair buying here early. Houses with seaboard connections took the December on the minor breaks, even though the foreign demand was reported as slow. On the advances pressure increased and values held within a range of about 1c. Local sentiment is decidedly mixed and some of the pit traders sold early on the lack of outside interest, making the decline to the low point.

The foreign situation showed little change. The traders paid no attention to estimates that the Spanish wheat crop this year was around 125,000,000 bushels or 18,500,000 bushels less than in 1921. Country offerings are not large, with the car shortage restricting the movement in the American northwest. Premiums at Winnipeg were slightly firmer, but in American markets were practically unchanged.

Corn Slightly Higher.

A reduction of 27,000,000 bushels in the estimated Kansas corn crop, with a let-up in the closing of spreads between that grain and wheat, made for a slightly higher market. Sentiment, however, was more two sided and prices fluctuated rather rapidly within a range of about ⅝c. Some rains were reported in parts of Kansas, Oklahoma and Texas, but had little effect. Premiums in the sample market were ¼c lower. Country offerings fair.

Oats had a range of ⅝@¾c with the action of corn the dominating influence. The average being slightly higher. Exporters are after heavyweight grain, but find offerings small.

Rye showed a rather firm undertone, with a cash house a fair buyer of September. Northwestern hedging pressure light. The two markets received 294 cars.

Pit Notes.

A great many of the local professionals were bullish on wheat and several of the leading commission houses bearish. The latter are basing their opinion on the weakness in Winnipeg and the prospective increase in the movement of American and Canadian spring wheat.

Corn shipments here, which have been running larger than the receipts, were reversed this week with the receipts 1,100,000 bushels more than the shipments.

A corn specialist says that local traders are mostly longs and that the outside buying in the west is not sufficient to carry prices higher.

"The present indications are for a corn crop of around 2,900,000,000 bushels," says Ichierts & Watson of St. Louis. "Most of the bears are to be found in the camp of the country trader. The largest professionals have covered their short lines and the technical position of the market is not so good."

A decline in rye prices has brought an improved domestic demand for rye flour.

Corn crop is unusually late in parts of Illinois this year. At the Rock Island County fair last week not an ear of new corn was on exhibition. Farmers said there was some damage to the crop as the result of recent weather conditions.

United Kingdom wheat handlers are very cautious buyers, according to Broomhall, owing to the unsettled political conditions and the uncertainty regarding the final outcome on the continent. Milling trade is poor and the demand from this source very limited.

Primary receipts of wheat for the season to date aggregate 91,554,000 bushels, compared with 122,471,000 bushels last year. Corn receipts since November 1 are 317,404,000 bushels against 215,491,000 bushels last season, and oats since August 1 are 22,737,000 bushels, against 28,330,000 bushels last year.

Financial

By ALEXANDER DANA NOYES.
Omaha Bee Leased Wire.

New York, Aug. 26.—The disquieting overnight dispatches regarding the German situation and our own government's attitude in the coal and railroad controversy were received with equanimity by today's markets. On the stock exchange the day's movement of prices was narrow and, as a whole, pretty evenly divided between advances and declines. In the foreign exchange rates, which had been falling during the week, there was a slight recovery, even the German mark regaining a considerable fraction of the week's decline.

It was recognized that there are new possibilities of a disturbing sort in the administration's attitude regarding possible seizure of the hard coal mines or individual railways. It is difficult, however, to accept this intimation at the moment as anything more than warning by the government as to the consequences of absolute failure to resume production of anthracite or to distribute the coal that is mined.

German Crisis Bewildering.

The German crisis has brought the financial mind into more bewilderment than the home labor complications, because of the difficulty of discovering any way out of the dilemma. The decline of the mark to .0020 is not in itself any matter of great surprise, in view of Germany's currency situation; but the most experienced bankers find it hard to imagine that what is to stop the endless chain of depreciation, as the last opportunity for applying each of a series of possible remedial expedients seems to be reached and passed. The only certainty, as the markets see it, is that the whole question of German relations will of necessity have to be taken up again by an international council.

As a rule, railway shares sold down fractionally, but with few noteworthy changes and with two or three advances. Comparison of the week's closing prices with those of a week ago shows that the prevalent movement in those shares had been upward and that the market, as a whole, had gained ground substantially. In the bond market, also, the week's result was a general rise in price, altogether a highly interesting contrast to the state of the public mind toward the week's occurrences.

New York Bonds

New York, Aug. 26.—Continued weakness of French securities in sympathy with the lower exchange rate featured the early dealings in bonds today on the New York Stock exchange. City of Lyons 6s and Marseilles 6s each receded a point while losses of substantial fractions were registered by Paris Lyons-Mediterranean 6s and Solesons 6s.

Railroad mortgages, especially the speculative issues, were inclined to heaviness. Declines of ⅛ to ⅝ took place in Baltimore & Ohio 4s, Seaboard Air Line refunding 6s, Western Maryland 4s, Chesapeake & Ohio convertible 5s, Norfolk & Western convertible 6s and Erie convertible 4s, series A; Rock Island, Arkansas & Louisville 4½s moved up ⅝.

Public utilities were in good demand. American Telephone convertible 4s moved up a point and moderate gains were made by Southern Bell Telephone 5s and American Telephone 5s. Little activity was noted in the industrial list.

Liberty issues held steady.

New York, Aug. 26.—Following are today's high, low and closing prices of bonds on the New York stock exchange, and the total sales of each bond:

U. S. Bonds.

Sales (in $1,000)	High.	Low.	Close.
46 Liberty 3½s	100.74	100.66	100.66
19 Liberty 2d 4s	100.22	100.22	100.22
12 Liberty 1st 4½s	100.10	100.10	100.10
139 Liberty 2d 4½
