

### Victim of "Drys" Wages Fight for Beers and Wines

Los Angeles Cafe Owner Put Out of Business by Prohibition Circulates Countywide Petition.

Prohibition put Al Blake, Los Angeles cafe owner, out of business. Now he is retaliating by waging a single-handed fight from ocean to ocean for legalizing light wines and beers.

"I have 10,000 signatures already," he said after "littering" into Omaha yesterday morning. "I'll dump thousands of names before congress when I reach Washington three months from now."

Blake said he was received most enthusiastically at Salt Lake City, where he obtained 1,800 signatures in two days.

### Duel on Between House and Senate Tariff Leaders

Smoot and Fordney Battle Over Valuation Plans—May Delay Passage of Bill.

By GEORGE F. AUTHIER, Correspondent of The Omaha Bee. Washington, Aug. 30.—(Special.)—There is a real duel on between Senator Reed Smoot of Utah and Representative Fordney of Michigan over the final disposition of the tariff. Probably no two more stubborn men ever sat in congress.

Senator Smoot, now that Senator McCumber is about to be retired, has taken active charge of the senate tariff bill while Representative Fordney, as chairman of the house ways and means committee, is head of the house organization in the conference.

Both men are determined their respective plans shall prevail and the snow may fly, even as Mr. Fordney predicted, before the conference committee reaches an agreement. There are many men in both senate and house who would like to see the tariff bill put over until after election anyhow, and it is possible that some of them will support the contention between Senator Smoot and Representative Fordney in the hope that no bill may be passed until the next session, after the election is over.

### "Why, My Goodness," Said Mary to John:

"Why, my goodness, all you have to do is twist that little valve! I thought all burners were complicated. Why, John, all you'll have to do is to turn up the fire in the morning and I won't need to fuss with it at all."

"Yes, and what ticks me, Mary, there won't be any fire to build on cold mornings, or any ashes to carry out."

"And see, John, there isn't any smoke. My curtains and tapestry won't get all sooty like they do with coal. But, Mr. Demonstrator, don't the Lillibridge ever get out of order?"

"No madam, this burner is practically trouble-proof. We adjust it exactly right when we install it, and you can see there is nothing to get out of order."

### LILLIBRIDGE OIL VAPOR BURNER

This is typical of conversations in our demonstrating room. Folks come with lots of funny notions about oil burners and are surprised to find how simple and efficient the Lillibridge really is.

Why not visit our office and see it demonstrated! It will give you a more complete knowledge of oil burning than you can get in any other way. Now is the time to prepare for this winter's comfort. Install a Lillibridge and forget the coal shortage, high prices, ashes, dirt and trouble. The Lillibridge gives constant heat with practically no attention. It is SAFE, CLEAN, QUICK, EFFICIENT and ECONOMICAL. Get a copy of the illustrated folder. Don't fail to see the burner demonstrated.
