

Methodists Seek to Fill Foreign Mission Deficit

Pledge Fund \$2,000,000 Short—Few Changes Made in Appointments in Omaha District.

A plea for cash funds to make up a deficit of \$2,000,000 for foreign mission work, enthusiastic pledges to further the labors of the Methodist centenary organization and the appointment of ministers in Nebraska featured the closing session of the Nebraska Methodist conference at First Methodist church, Tuesday, Bishop Homer C. Stuntz presided.

In appointment of pastors in the Omaha district, few changes were made. Rev. E. L. Geisinger is transferred from First Memorial church to the McCabe; Rev. W. B. Bliss of Laurel, Neb., succeeds Rev. Geisinger. Rev. L. G. Rowley goes to the Asbury Methodist church from Macedonia, Ia. Other appointments remain unchanged.

In his plea for Methodist foreign missions, Dr. C. C. Cissell, director of the Centenary area office in this district, stated that the national board of foreign missions is short \$2,000,000 of pledges made last November to carry on the work in Bolivia, China, India and Mexico. The quota to be raised by this district he stated, is \$42,500.

"Have Faith in God," was Bishop Homer C. Stuntz' theme, Sunday morning before a crowd that filled every nook and corner of the First M. E. church.

So large was the crowd that many were forced to stand near the outer doors of the edifice. Among the large audience were about 400 ministers attending the annual Methodist conference.

Conference to Lincoln.

From all indications, according to several members, Lincoln is slated to get next year's meeting. The annual conference, that has been in session for the past week, closed yesterday noon. Bishop Stuntz stated that he was going to leave Omaha this afternoon for Duhov, Penn., where he is to attend the annual Erie Methodist conference.

"Have faith in God," said the bishop, "in spite of the industrial upheaval and other unsettled conditions of the various countries, because God will take care of us."

He told his congregation not to believe in Conn Doyle or other seances and that parents should discipline their children.

The Rev. Titus Lowe, former pastor of the church, Sunday night spoke on "Some Modern Triumphs in Humanity."

RADIO

Progress Noted in Radio Abroad

Japan Plans to Link Islands of Empire—No Argentine Radio Law.

By International News Service. Washington, Sept. 11.—Reports to the Commerce department from its agents abroad indicate that radio development is generally proceeding rapidly.

The Japanese government has mapped out a plan for linking up the various islands of the empire by wireless telephone and telegraph. American Vice Consul Corell, at Nagasaki, reported. The first step will be taken this month, Corell said, when telephone communication by radio will be opened across the Chosen receiving sets. The stations at Kuroko and Fusan contain the necessary equipment, and it is expected that the shipping along the coasts of Kishu and Chosen will take advantage of this service, Corell stated.

No laws have yet been passed to govern wireless telephony in Argentina, according to Commercial Attaché Feely, but a bill is being drafted for presentation to the next congress to regulate the use of radio sets. No regulations at the present time in effect prevent the sale of broadcasting and receiving sets, Feely reports. The latter, he said, are being sold to some extent locally, but of very inferior quality, and sell at from 200 to 700 pesos.

The establishment of telephonic communication between England and the Netherlands, the department has been advised, is expected shortly as the result of the completion of an ocean telephone cable extending from Aldeboro, England, to Domburg, on the Dutch coast. From Domburg the trunk lines will form a connection with the Middleburg exchange with the long distance lines of Holland.

This cable, owned jointly by the two countries, was planned in the early part of 1914, but the outbreak of the war prevented its completion until the present time. Up to now there never has been any telephonic communication between England and Holland.

Questions

G. N. K., Fremont, Neb.—Q. Can I use a 500 M. F. condenser on a crystal set? (2) Is enamelled wire No. 24 good to use on a one-slide tuning coil? (3) Is an aerial 20 feet high and 100 feet long, clear of all surrounding objects, sufficient for reception of broadcasting?

A. (1) Yes. (2) Yes. (3) Yes.

WAAW Tonight

Local musical celebrities will feature The Omaha Bee's radio concert tonight from station WDW from 7 to 8 o'clock. Mrs. B. M. Anderson, an assistant leader in the music department of the Omaha Woman's club, will be director of the program.

The concert will be the second arranged by the Women's club musical group under the leadership of Mary Adele Abbott.

These artists will perform tonight: Miss Winifred Toyner, pianist; Miss Clara Schneider, violinist; Mrs. Nell Atkinson Kelly, soprano; Mrs. Dora Drexler, contralto; Miss Marie Hoyle, organist.

The musical numbers will be announced from station WDW.

Condition of Girl Shot by Suitor Is "Unchanged"

"Unchanged" was the report on the condition of Miss Mary Keel, teacher in a rural school five miles south of Curtis, Neb., who was shot twice by a rejected suitor Friday.

Miss Keel was brought to Omaha by Mr. and Mrs. J. T. Holmes, at whose home she lived, early Saturday morning. An operation was performed to remove a shot from her brain shortly after her arrival. She is now conscious, according to Clarkson hospital authorities.

Runaway Girl Sought.

J. H. Johnson of Broken Bow has appealed to The Omaha Bee to find his daughter Gertrude, 17, who, he says, ran away from home last Monday with a man. "Tell her to come home or her mother will go insane," he says. She is five feet tall and has blond hair.

Road Conditions

Furnished by the Omaha Automobile Club. Lincoln Highway, East—Road fair.

How to Keep Well

By DR. W. A. EVANS
Questions concerning hygiene, sanitation and prevention of disease, submitted to Dr. Evans by readers of The Bee, will be answered personally, subject to proper limitation, where a stamped addressed envelope is enclosed. Dr. Evans will not make a diagnosis nor prescribe for individual diseases. Address letters in care of The Bee.

AUTUMN RESOLUTIONS.

"So far as health is concerned, September 1 is a better date for good resolutions than January 1. September 1, or thereabouts, marks the end of continued warm weather and the beginning of the season leading to cold weather.

"From this time on we face a rise in pneumonia from two to five times the summer rate, a rise in diphtheria and scarlet fever to twice the summer rate. This is the annual experience.

"Is this inevitable or is there anything that human ingenuity can devise to stop it? "The increase in these diseases is unquestionably due to lowered resistance of the body. The average indoor worker gets less physical exercise, is exposed to less sunshine, and to less stimulation or outdoor cold and breeze.

"The skin deteriorates and becomes sensitive to fluctuations in temperature. With skin functioning below par, it is not strange that people more readily get 'under the weather.'

"Indoor heat produces more sickness than outdoor cold. Furthermore, the opportunities for transmission of infection are greater with the greater huddling together in winter.

"Facing these facts, the wiser person will begin in the fall to harden his body to meet the oncoming cold. It is better to begin now than in midwinter. The person under 50, unless there is medical advice to the contrary, can resolve upon daily exercise after rising in the morning, followed by a hot and then cold shower and a good rubdown before breakfast.

"If this is too disconcerting, he can at least walk a mile or two at noon while out for lunch. Instead of making a bee line for the lunch counter, try the long way round.

"The wiser person will wear light underclothing and a heavy overcoat. "He will live indoors in an atmosphere between 65 and 70 instead of 75 and 80. He will get at least eight hours' sleep in a cool, airy bedroom.

"He will use discretion in diet, curbing his desire for the meats and sweets that appeal to his eye and

giving more consideration for the simple, substantial vegetables and dairy products which are best for him.

"If he will do these things, he will feel great. He has a time chance of going through the winter without a single cold.

The above is copied from the Detroit Weekly Health Review.

If the advice is followed, those who follow it will have fewer colds. But there is an even greater danger that they will escape. The pneumonias of the late winter and early spring are the aftermath of colds.

If everybody will adjust his habits so that there would be no coryzas in the fall and early winter, there would be far less pneumonia later on. An attack of coryza is a training sprint for the pneumonia germs. It is through such early season training that these germs build up the power to bowl us over with pneumonia when the pneumonia season opens.

Tuberculosis of Knee.
S. P. F. writes: A friend of mine has tuberculosis of the knee joint. Is there any cure for it?

REPLY.
Proper treatment frequently cures this trouble.

Treatment by heliotherapy or sunlight, by other forms of light or by tuberculin or by some of these combined is effective.

Injection of the joint with iodoforn in oil or water solution is used. Many cases require surgery. The joint may heal up stiff or deformed, but it should heal.

now one of tuberculosis? That point should be definitely determined.

Weekly Purge is Bad.
F. A. M. writes: "What effect will

sciditis powder have on the system, if taken once a week?"

REPLY.
Sciditis powder is a form of saline purge.

To take a saline purge once a week is a very bad practice, and should not be indulged in.

Twisting Her Nose.
D. S. writes: "I went to a doctor

either on one side, or can the nose be made as it originally was?"

REPLY.
You can have the paraffin cut out.

Do you know how to prevent icing from running? Sprinkle a little flour over the top of the cake before you ice it.

BURGESS-NASH COMPANY.

"EVERYBODY'S STORE" Tuesday—In the Downstairs Store

Women's and Misses' New Fall Dresses

In Two Selected Groups \$12⁷⁵ and \$16⁷⁵

Whether one has in mind a lovely silk frock that is clinging and drapery or a wool frock that is trimly tailored, these groups will offer easy selection at this exceptional pricing.

Canton Crepe **Tricotine**
Wool Canton **Satin Back Crepe** **Poirot Twill**

Many of the woolen dresses are elaborately trimmed with silk embroidery or braid, while the silk dresses keep to the more simple trimming of softly falling draperies and panels.

Women's and Misses' Sizes 16 to 44.
Burgess-Nash Downstairs Store.

CORNS

Stop their pain in one minute

—by removing the cause!

Just put on one of Dr. Scholl's protective, soothing Zino-pads. So easy, yet so effective, that you can get relief in one minute, before the pain begins to return. The only treatment of its kind.

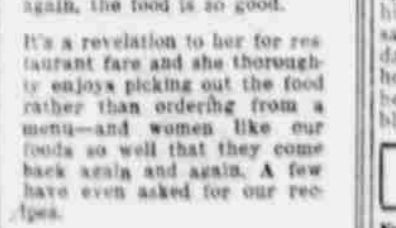

Zino-pads are thin, antiseptic, waterproof and absorbent. Get one today. At your druggist's or shoe dealer's. Sizes for corns, callouses, bunions.

Dr. Scholl's Zino-pads

Made in the laboratories of The Scholl Mfg. Co., makers of Dr. Scholl's Foot Comforter, Arch Supporter, etc.

Put one on—the pain is gone!

Welch's Talk No. 7

Have you noticed the many "Honey-moaners" who enjoy their meals at Welch's?

They may have been married for twenty years, but when they eat at Welch's it's like being sweethearts all over again. The food is so good.

It's a revelation to her for restaurant fare and she thoroughly enjoys picking out the food rather than ordering from a menu—and women like our foods so well that they come back again and again. A few have even asked for our recipes.

Bring your wife in next time you are going to be late for supper or lunch. Have her eat with you at Welch's instead of having her wait dinner at home for you.

The variety of delicious foods is such that even the pickiest eaters will find something to their liking. So come with you to Welch's and you will find it all at Welch's.

When in Need of Help Try Bee Want Ads

MRS. LULA VANN FULTON, ARK.

Suggests to Suffering Women the Road to Health

Fulton, Arkansas.—"I used Lydia E. Pinkham's Vegetable Compound for a soreness in my side. I would suffer so badly every month from my waist down that I could not be on my feet half the time. I was not able to do my work without help. I saw your Vegetable Compound advertised in a newspaper and gave it a fair trial. Now I am able to do my work and don't even have a headache every month. I cannot praise your Vegetable Compound enough and highly recommend it to those who have troubles like mine. I am willing for these facts to be used as a testimonial to lead all who suffer with female troubles, as I did, to the right road to health."—Mrs. LULA VANN, Box 21, Fulton, Arkansas.

It is this sort of praise of Lydia E. Pinkham's Vegetable Compound, given by word of mouth and by letters, one woman to another, that should cause you to consider taking this well-known medicine, if you are troubled with such symptoms as painful periods, weak, nervous feelings, miserable pains in your back, and cannot work at certain times.
