

Rev. Mr. Buckner to Preach Views of New School

Pastor Retired by Methodists Says Many Secretly Believe in Doctrines He Expounded.

Rev. J. D. M. Buckner, Methodist pastor who was retired at the recent conference here because he "expressed disbelief in certain parts of the Bible," issued this statement yesterday morning:

"I am asked what I am going to do? So far as making a living, I do not yet know. I have not hunted a job for 42 years and my personal technique for job-hunting is therefore undeveloped.

"My chief work will be to continue to preach and teach the views of the new school of religious thought.

"I will 20 years ago I was a stand-patter and believed in the verbal inspiration of the Bible and that every word in it was literally true. My evolution of thought has been due to associations with and teachings of prominent officials, pastors, professors and writers of the Methodist church and other denominations.

"Not Typical of Methodism.

"Twelve years ago I wrote a little pamphlet expressing my views called 'Higher Criticism and Christian Life,' which contained the same statements for which I have just been retired by the Nebraska conference. I read this pamphlet to Bishop Edward Hughes and Dr. David Downey who approved of it and Dr. Downey offered to print the pamphlet as regular Methodist literature. I did not feel it was in final shape at the time. I am certain that our Methodist schools almost without exception take the position of the new and modern view of the Bible and the function of religion in 20th century life.

"The action of the Nebraska conference in seeking quietly to retire me without trial is not typical of Methodism. It shows the conference only an edifying back-water in the rushing stream of Christian thought in the Methodist church.

"A member of Bishop Stuntz' cabinet, which recommended my retirement without trial, said to me within recent years: 'I believe just what you do, but there is this difference: You talk about it all the time and I say nothing about it.' I have had pastors and teachers say to me, 'we all believe as you do, but we do not believe it is best for the church or the common folk to say anything about it.' To which I reply, 'what is the use of digging for gold except to enrich the world?'

"Therefore I intend to preach progressive Christianity for the rest of my life."

The Importance of Healthy Kidneys

Many organs take part in assimilation of food, and a number are active in eliminating those portions of the food which are not taken into the blood for the upbuilding of the body. Of the eliminative organs, the kidneys are of major importance, and are most likely to be overworked and become diseased. When such is the case, various troubles of a digestive and eliminative character occur, and such troubles are so frequent and so common that it is absolutely necessary to find some relief. Warner's Safe Kidney and Liver Remedy was compounded 50 years ago to help equalize the work of both kidneys and liver. How successful it has been is evidenced by its wide-spread sale and its value is attested by an immense number of appreciative users who through these many years have put it to the severest tests with the most satisfactory results.

Warner's Safe Kidney and Liver Remedy contains no harmful ingredients and should be used when the kidneys need attention. Sold by Sherman & McConnell and all leading druggists. Sample sent on receipt of 10 cents. Warner's Safe Remedies Co., Dept. 481, Rochester, N. Y.

Hot, Dry Weather Saves Iowa Corn From Frost

Des Moines, Ia., Sept. 13.—Recent hot, dry weather hastened the maturity of Iowa's corn crop so that more than 70 per cent is already safe from frost. Charles D. Reed, director of the state weather and crop service states in his weekly bulletin today. He says, however, that it is believed that the crop has been shortened somewhat by this premature ripening, particularly in the northern and eastern counties.

PURITAN MALT EXTRACT COMPANY CHICAGO

Just What You've Been Looking For

For Baking Purposes

Puritan Malt Extract plain has the Gray Label

Of Course You Will Buy Some Malt Extract

THE only question is which malt extract will you buy? Good malt extract is made out of choice No. 1 malt barley. It is filled with sugar, rich with malt and almost free from moisture.

A cheap malt extract, on the other hand, is low in sugar content and flat in malt value, because it is filled with moisture and adulterated with cheap corn.

Such a malt extract is of no earthly value even after you have bought it.

And with Puritan you can have your choice of two products. You can get the plain Puritan Malt Extract with the separate package of hops that are pressed to keep them fresh; or you can get the Puritan Hop Flavored Malt Sugar Syrup, which is the same rich malt extract already flavored with imported Bohemian Hops.

Buy which ever you are used to, but be sure you ask for Puritan if you want the best results.

There is no reason for experimenting in buying malt extracts because Puritan sets the standard all over the world both as to quality and as to price.

So ask for and demand.
