## Armstrong's Linoleum

### for Every Floor in the House

The thing you spend your life on

YOU spend all your indoor life on a floor. Sitting, standing, or walking, the floor is the part of the house that you touch and see most often.

Because wood is plentiful most floors are of wood. But wood alone is not all that can be desired. Imagine a floor that could be washed with water and soap—that never needed varnish or paint—that had exactly the color and pattern you like—a floor smooth, without splinters, bulges or unsightly cracks, quiet and resilient to the tread.

Such a floor is possible and many homes have just such floors.

You get them by laying Armstrong's Linoleum over your present wood floors.

Armstrong's Linoleum is not just a floor covering, but when cemented down over builder's deadening felt which is in turn glued to the bare boards, the linoleum becomes a permanent part of the floor and gives it all of those qualities which wood alone lacks.

Genuine linoleum is made in many beautiful patterns and designs. Our free booklet, "Decorative Linoleum Floors," contains twenty-four colorplates of Armstrong's Linoleum, showing Jaspes, carpet inlaid, parquetry inlaid, marble tiles, plain colors, and printed designs.

When you buy linoleum, be sure you are buying genuine linoleum. All Armstrong's Linoleum is marked with a Circle "A" trademark on the burlap back. Look for it.

#### Armstrong's Linoleum Rugs

For people who live in apartments or who have houses on short leases and consequently do not wish to install permanent linoleum floors, Armstrong's Linoleum is also made in the form of bordered rugs. Thirty attractive patterns in four sizes from 6 x 9 feet to 9 x 12 feet.
