Stockyards Charges Probed by Commission

Over a dozen witnesses appeared before a special commission from the Stockyards-Packer administration at Washington, headed by Judge Bayard T. Hainer and G. M. Dagger, at a hearing held yesterday in the offices of Everett Buckingham, general manager of the local stockyards company, investigating charges that the stockyards company had made excessive charges for quartering livestock.

The complaint of one commission man was withdrawn when he was shown that instead of having been overcharged, he had in reality been charged only half the maximum amount allowed. Other witnesses were called to testify to general conditions at the yards in reference to charges.

Among the witnesses was C. F. Hunsinger, secretary of the Traders' exchange. The hearing will be continued today and the commission will leave this evening for Kansas City, where a hearing will be held, after which the members will go to Denver, Fort Worth and St. Louis before returning to Washington, D. C.

Gates of Buffalo County Tenth Annual Fair Open

Kearney, Neb., Sept. 19.—(Special.)—The gates of the 10th annual Buffalo county fair opened at noon today, to close on Friday night. Entries made in all classes indicate that the race for premium honors will be more closely contested this year than ever before. Secretary Haase and his corps of assistants anticipate an overflow of exhibits in almost every class, but particularly in the livestock branches. Added premiums donated by Kearney business and professional men, of a value exceeding $1,000, make the premium offers exceptionally attractive.

Horse racing will be featured Wednesday, Thursday and Friday, with three harness events, one running race and a free-for-all daily. Entries already listed include many stables racing at the state fair and other points in Nebraska during the past few weeks.

Exhibits in boy and girl club work, together with demonstrations, are shown, also,

Hail Insurance Premiums Are Not Taxes, State Holds

Lincoln, Sept. 19.—(Special.)—Premiums to be collected under the state hail-insurance law are not taxes that may be recovered as liens on a mortgage foreclosure, according to an opinion given by Assistant Attorney General C. L. Dort in reply to a letter from County Treasurer John D. Heintz of Banner county. This holding is the same as that given by the county attorney. The 1919 hail insurance law provided that premiums should be collected in the same manner that other personal taxes are collected. That wording was omitted from the 1921 law. The attorney general's office holds that such premiums are not taxes, that taxes in the usual sense of the word are for the payment of expenses of government.

THE INDEPENDENT WOMAN

is one of the brightest jewels which adorns our modern, economic system. But too often this independence is gained at the cost of health, and the wage-earning woman struggles through her duties, a prey to nervousness, backache and despondency. Does not her independence then become more of a burden than a joy? Lydia E. Pinkham's Vegetable Compound has helped many such women to regain their zest in life, and will help many more.

Stabbed by Neuritis

Many people suffer attacks by this archfiend, commonly called "nerve inflammation." The first warning is usually a sharp, stabbing pain, which may "come and go" or hurt constantly. You may feel it in the shoulder, neck, forearm, small of the back, or down the thigh and leg to the heel. It is sometimes mistaken for sciatica, rheumatism or neuralgia, which often end in neuritis.

No matter where you have nerve pains or what caused them, you can get quick relief without using narcotics or poisons. Just apply Tyxmol over the part that hurts, and in a few minutes the pain will be gone.

Tyxmol is absorbed through the pores of the skin. It has a soothing, healing effect upon the diseased nerves, gradually helping to restore them to healthy condition.

Don't suffer any longer. Price $1 at Sherman & McConnell, or any reliable druggist.

PIGGLY WIGGLY

A Kentucky Race Horse

A Piggly Wiggly licensee from Kentucky a few days ago sized the proposition up as follows:

"I have owned horses and I have raced horses and I know that if two horses of about equal speed are entered in a race and one carries 128 pounds and the other 98 pounds, then the horse with 98 pounds up is sure to win."

In the retail distribution of food products there are certain costs which must be added for which the consumer must pay. None of these costs add to the intrinsic merit of the products.

The system, which can eliminate some of these costs and lessen others, can and does give better values.

The Piggly Wiggly system eliminates certain costs and lessens others, therefore it can and does give the public greatest values. The system whose overhead is less than 6 per cent can give a larger value than the system whose overhead expense is from 15 to 25 per cent.
