TAXATION LYING.
Let the public be warned that a last desperate effort is being made to confuse the tax situation in Nebraska.

One of the flagrant misrepresentations that is used by Charles W. Bryan in his campaign talks and which was printed in an editorial in the World-Herald, concerns the taxes of Lake L. Jergensen, a farmer of Merrick county.

It is a fact incapable of disproof that out of each dollar collected as taxes the state government of Nebraska receives only 19 cents.

Table with 2 columns: Category (State, County, School, Township, City and Village) and Amount (\$10,930,547.82, etc.)

These figures are accurate. They have never been disputed directly. Those who are carrying on the campaign of deception carefully avoid discussing them and rely entirely on innuendo and fiction.

Let us test out this dodge in the great agricultural county of Buffalo. Official statistics show that the state receives only 18 cents out of each tax dollar there.

Designed as a political trick to antagonize voters against the republican state administration, this corresponds with the idea that anything is justified if it wins votes.

KEMAL AND CONSTANTINOPLE.
Mustapha Kemal Pasha, victorious leader of the Turk nationalists, supports his demands in connection with Constantinople on logical reasoning.

What Kemal avails in presenting his case is the fact that the Turk is not far from being a trustworthy member of the family of nations.

Move this up to modern times, and we find Russia three times at Adrianople, looking down into Constantinople, and thrice turned back by England, France, and Germany.

On Second Thought
Liberty is not done as we please, but pleasing to do right.

Denationalization of the Dardanelles and the waters to which the strait leads is the surest way out of a situation that has vexed the western world for a thousand years or longer.

SUGAR FOR THE SORORITIES.
The first bag of Nebraska sugar made in the 1922 campaign has been sent to Lincoln, where it will be transformed into fudge, pincho, and other dainty forms by the sorority girls who are beneficiaries of the donation.

Time was, back in the dark ages, when draughts at the fountain of knowledge were unfavored by sugar or anything of the sort.

DISCOURAGING TO BANDITS.
A hard working, capable bank robber stands very little show of getting ahead in his business at Eureka Springs, Ark.

WHAT OMAHA MAKES.
Whatever helps your neighbor helps you. Cities are built on the prosperity of their citizens.

Automobile Club Activities.
Omaha's Automobile club is conducting a drive for additional membership. Its appeal can not be made to the public, although the public is greatly concerned in what it does through its various committees.

Concerning Million-Dollar Pictures.
Rembrandt's "Descent From the Cross," believed by many to be the finest work of that marvelous painter, has come to the famous Widener collection in America.

NET AVERAGE CIRCULATION.
Daily 72,378
Sunday 76,519

These are busy days and nights for the stamps, all right.

Turkey is showing all symptoms of being a jobber.

On Second Thought
Liberty is not done as we please, but pleasing to do right.

PROBABLY INTENDED TO MAKE 'EM FIGHTIN' MAD

"From State and Nation" - Editorials from other newspapers

Return in Taxation.
From the St. Louis Globe-Democrat.
The constitutional convention of Illinois, which completed its labors not long ago, after more than a year of deliberation, has issued an address to the voters of the state, who will pass upon its work at an election to be held in December.

Ohio's Dry-Law Referendum.
From the New York World.
The supreme court of Ohio has ordered the secretary of state to place on the November ballot a proposal, legally framed and presented, so to amend the state constitution as to permit the manufacture and sale of light wine and beer.

Concerning Million-Dollar Pictures.
From the Chicago Journal.
Rembrandt's "Descent From the Cross," believed by many to be the finest work of that marvelous painter, has come to the famous Widener collection in America.
