Fall and Winter Styles

Mme. Binner Corsets

Why go on buying just a "corset" when we will help you to select a Mme. Binner corset that will make you look so much better and feel so much better, and one in which you are sure that you have the corset designed for your figure. You say that your figure problem is so different. You are right, it is. It is an individual need that has been anticipated by Mme. Binner, who has created models for you alone.

There are models designed for the tall, slender woman who, when she is properly fitted in a Mme. Binner has a willowy charm, but wrongly corseted, becomes angular and stiffly thin.

Models for the tall, slender figure, \$5 to \$25.

The stout woman corseted in a Mme. Binner model need not endure the discomfort of stiff, heavily boned telltale corsets. She need but realize that there is unbelievably more comfort in the dignified and becoming kind of natural corseting to be found in the special models designed by Mme. Binner for her figure.

Models for the stout figure, \$5 to

The short average woman corseted as she ought to be in a Mme. Binner mode will subtract pounds from her apparent weight and will appear slim by proportion.

Models for the short, stout figure. \$5 to \$17.50.

Mme. Binnar ceracts made of silk, batiste, broche, could, tree and elastic, in white, orchid, flesh-\$2. \$7.5c, \$8.50, \$9.50, \$10, \$12.50, \$17.50, \$25.
