Lecturer Speaks on Revelation of Spiritual Cure

Human Mind Has Fixed Conviction It Is Legitimate to Be Healthy, Says Chris-tian Scientist.

There is within the so-called human mind a fixed and abiding conviction that it is legitimate to be healthy and happy," declared Judge Frederick C. Hill, C. S., member the Board of Lectureship of The Mother Church, the First Church of Christ, Scientist, in Boston, Mass, in a lecture on Christian Science given at Engles' hall, Council Bluffs, Fri-

The subject of his lecture was "Christian Science, God's Revelation of Spiritual Healing."

Judge Hill mid: "I come before you at this time to discuss Christian Science: God's Revelation of Spirttual Healing. It is not my purpose to force my conclusions upon you be in the slightest degree to disturb the thought of those holding opposite views. I do pro-

This desirable end can be accomplished only through right, scientific thinking, hence it must be perfectly clear that Christian Scientists, looking toward he idealistic or spiritual, are con-erned about the meatal rather than the outward or material.

Christian Science, as a great religious movement must be based upon a revelation of the teachings and practical truths presented in the Bible. Lest there be confused in the thought of those who have never investigated this subject. I amore you at the outset the Christian Scientists use for their study and in all their church services one concluded that since disease has no and in all their church services one concluded that since disease has no Bible authority, that of the King more authority than sin it could be Bible authority, that of the King more authority than sin it could be cured and health restored to the body in exactly the same manner and with religious denominations and bodies, each claiming to teach and practice could be destroyed. As a natural consequence confusion follows, as that which is untrue can never be made the foundation for that which is enduring and true. At this point it is well to understand that there is one absolute truth about everything, and regardless of one's sincerity in believing otherwise, that truth remains infallible and undisturbed for nething in human belief can ever change that which is absolutely true.

and Love, and named my discovery Christian Science." She had discovered the absolute, fixed and eternal laws of God and had proved that they are present and operative and can be relied upon to heal the sick as they did in the time of Jesus. She found these laws "compassionate, helpful and spiritual," and named them "Christian"; and because they constitute the absolute laws of God, are available and can be demonstrated, she named then "Science". Hence Mrs. Eddy discovered and proved the divine laws of Spirit, the laws of Life,

outely true.

"Unistian Science is presenting to human consciousness the truth about health and happiness the truth about health and happiness. Health and happiness repose in divine Mind and not in human body. No belief to the contrary can ever change this essential fact. The individual who rejects heir operation or who, disputes their authority through ignorance or other-wise, pays the penalty for such infraction in proportion to the magni-tude of the offense. The laws of gravitation, mathematics, and the laws regulating individuals in society operate uniformly and effectively regardless of the beliefs of those who are uninstructed or who for some reason refuse to recognize and accept their supreme authority. For example, a score of individuals selected from the ordinary rank and file of humanity will agree that a ball forced into the air will return to the earth, or that any object projected forward over Niagara Falls will descend to the bottom of Niagara River. When asked why these results are manifest a very large proportion of these individuals can give no explanation whatever of the law involved. Some may have a very vague and uncertain belief not based upon any scientific fact that the result is due to some force from above. Quite to some force from above, likely one alone can explain the theory of the operation of gravitation. During all this time gravitation is operating uniformly undisturbed by ignorance or false belief and the earth and the planets respond to its force just the same. False belief, lack of any belief in or knowledge of gravitation has not affected its operation. In the so-called material universe the law of gravitation is basic, funda-mental, and is there to be understood

Through this worship healing is experienced It will be apparent that all true wor ship must rest for an enduring foun-dation upon the right concept of God. The wrong concept of God lays the foundation for the superstructure of false belief and idolatry. Mere human belief about God can never be substituted for nor urged in support of His real nature. To the carnal mind, essentially material, God apnears as a magnified human beinga superhuman man. This fact accounts for his ability to think. Even though mortals have a very faulty and imperfect knowledge of the operation of Mind and believe that thoughts have their origin in the human hrain, yet thought existed before and independently of brain tissue and emanates from the one Mind, God. This conclusion is further supported by the fact that all mortals as infants are fully equipped with brain tissue. No one, however, will scriously contend that an infant exercises the functions of rational think ing. In our more advanced experi ence as thinkers the material ele ments of the brain remain the same. Thought, however, unfolds, expands and develops, eliciting the conclusion that the brain-as matter-has no in and is not the herent intelligence

How thousands are regaining the splendid vigor of health

When a man "slows up"-begins to feel his strength and vigor slipping away-gets run down, nervous, irritable-

so-called human mind believes itself and by repeating in human experience

One of two things is wrong.

His body is either failing to nourish properly the living cells which compose it, or it is failing to throw off the poisonous waste that gathers in the system.

Check either of these processes, even temporarily, and health is threatened. And yet the bodies of millions are either halfstarved or clogged up!

The fresh, living cells of Fleischmann's Yeast contain a natural food-with the very elements which help the body perform these two vital functions.

Like any other plant or vegetable, yeast produces the best results when fresh and "green"-not dried or "killed." Fleischmann's Yeast is the highest grade living yeast-always fresh. It is not a medicine, it is a natural food. Results cannot be expected unless it is eaten regularly.

Everywhere physicians and hospitals are prescribing Fleischmann's Yeast to correct constipation, skin disorders and to restore appetite and digestion.

"Assured perfect regularity and added 25 lbs. of weight"

A recent letter tells of an unusually bad case of a common ailment-a New Yorker who suffered from chronic constipation. Since he was eleven years old. he had used "everything that could be suggested"without a cure. Three operations had been necessary. And then three cakes of Fleischmann's Yeast a day for a period of one month not only assured perfect regularity, but by adding 25 lbs. restored him to his normal weight.

Eat two or three cakes a day regularly-plain, or spread on crackers, or mixed with water or milk. If you prefer, get six cakes at a time. They will keep in a cool, dry place for two or three days. Begin at once to know what real health means! Be sure you get Fleischmann's Yeast. All grocers have it.
