homes everywhere

THE unusual convenience that the ENGLANDER Couch Bed affords is but one of the reasons for their use in so many homes throughout the country. Besides the case with which it can be changed automatically, with one motion, from a Couch to a Bed, or vice versa—the ENGLANDER Couch Bed is the last word in sanitation and sturdy construction.

Continuous use finds it rendering noiseless, comfortable service due to the scientific and exacting care taken in its making. Covered in various cretonnes to harmonize with your living room or den-the ENGLANDER Couch Bed is an indispensable part of the small or large home.

Musical magazines announce that Dr. Lee de Forest has recently made an invention which achieves comlete synchronization of sound and action, an invention which will have far reaching effects. "I began my work in the hope of producing a super-phonograph." he says. He says, "I reached the conclusion that photography was the proper soution. I convert the sound vibraons into rays of light which I can photograph, then I simply reverse the process and reproduce the or.gial wave lengths of sound, and hence he exact sounds themselves."

Take It In Time

D^O you know that by tar the larger number of the common ailments of women are not surgical ones; that is they are not caused by any serious displacement, tumor, growth, or other marked change?

D^O you know that these common ailments produce symptoms that are very much like those caused by the more serious surgical conditions?

D^O you know that many women and young girls suffer need-lessly from such ailments? More than that, they endanger their health by allowing their ailments to continue and develop into something serious.

If treated early, that is, within a reasonable time after the first warning symptoms appear, serious conditions may often be averted. Therefore, at the first appearance of such symptoms as periodic pains, irregularities, irritability and nervousness, Lydia E. Pinkham's Vegetable Compound should be taken. It is prepared with accuracy and cleanliness from medicinal plants. It contains no narcotics nor poisonous drugs, and can be taken with perfect safety.

The Vegetable Compound acts on the conditions which bring about these symptoms in a gentle and efficient manner. The persistent use of it shows itself in the disappearance, one after another, of the disagreeable symptoms. in a word, Lydia E. Pinkham's Vegetable Compound acts as a natural restora. tive, relieving the present distress and preventing more serious trouble.
