"EVERYBODY'S STORE"

The Burgess-Nash Company joins other firms in wishing success to the Orpheum circuit on this, its thirty-third anniversary.

It is our wish that it will continue in its prosperity; that it will remain in Omaha as a place of enjoyment, where it is possible to forget the cares of life, and to laugh with the actors through song and dance.

Although younger, this great institution puts forth the same effort to make living a little easier, and a little more pleasant.

It Is Ever Our Inspiration

to provide superior merchandise, the unflinching quality, of which meets the requirements of a clientele that includes those who appreciate and demand the best that can be produced.

Pleased audiences who enjoy the program, its actors, its settings, and its music, assure the theater of its success; patrons who are satisfied—satisfied with the pricing, and with the service, insure continuance for the department store.
