

Market, Financial and Industrial News of the Day

Omaha Grain

Our market showed a steady tone and higher prices around the opening in sympathy with the strength in Liverpool wheat cables and the better export demand for wheat and rye. The drought in Australia was also a factor, as was the continued dry condition in our west and south west. On the advance profit taking, sales appeared and prices declined, somewhat under last night's final figure.

Cash wheat on the Omaha floor was in fair demand with prices unchanged to 1 cent lower. Corn was unchanged to 1/2 cent lower. Oats sold at generally unchanged prices. Rye was unchanged to 1/2 cent lower. Barley nominally was unchanged.

Wheat Receipts: 1 car, \$1.14 (2 1/2 cent); 2 cars, \$1.15 (3 cent); 3 cars, \$1.16 (3 1/2 cent); 4 cars, \$1.17 (4 cent); 5 cars, \$1.18 (4 1/2 cent); 6 cars, \$1.19 (5 cent); 7 cars, \$1.20 (5 1/2 cent); 8 cars, \$1.21 (6 cent); 9 cars, \$1.22 (6 1/2 cent); 10 cars, \$1.23 (7 cent).

Chicago Grain

Chicago, Oct. 28.—Grain markets developed a reactionary tendency, due mainly to the lack of speculative interest than to anything else. There was considerable evening up for over Sunday on the part of local longs, who found support less aggressive than on the previous day. At the last, wheat showed 1/4-3/4 lower; corn off 2-3/4; rye, 1-1/2; while rye was unchanged to 1/2 higher.

Wheat prices fluctuated rapidly within a relatively wide range for the week, being lowest early, highest toward the end and closing at net gains of 5-9/4 to 1-1/2, compared with the previous week, December leading. Corn was 1-3/4 higher to 1-1/2 lower, the latter on July, while oats were 1-3/4-3/4, and rye 2-1/4-3/4 higher. Local closed 10-15 lower for the week, with rye nominally unchanged.

Moderate Response. Liverpool made only moderate response to the strength in North America on Friday. Wheat closed 1/4 to 1/2 higher, while rye was 1/2 higher. Corn was 1/2 higher, while oats were 1/2 higher. Local closed 10-15 lower for the week, with rye nominally unchanged.

Live Stock

Omaha, October 28. Receipts were: Cattle, 1,712; Hogs, 12,424; Sheep, 1,122. Official Tuesday, 1,712; Wednesday, 1,712; Thursday, 1,712; Friday, 1,712; Saturday, 1,712; Sunday, 1,712.

Receipts and disposition of livestock at the Union Stock yards, Omaha, Neb., for 24 hours, ending at 3 p. m., October 28, 1922.

Cattle—Receipts, 1,712 head. With an unusually large number of calves, the market on all sides was dull at the week's end. Receipts were mostly from the west and north, and the quality was generally good. The market was 1/2-3/4 higher for the week, with calves 1-1/2-2 higher.

Financial

New York, Oct. 28.—With the single exception of the cotton market, which rose abruptly to prices exceed of this season only by those of last Wednesday, movement of values on the various markets was hesitant. An atmosphere of uncertainty as to the immediate course of prices surrounded most of them and, although this may be accounted partly to the irregular and not important bidding by recent speculators for the decline to get back their stocks. Both the stock market and the bond market held their ground, but changes were irregular and not important and the same description would apply to the day's foreign exchange market.

In any survey of the week's changes, shown by comparison of closing prices with those of a week ago, it will be evident that the decline in stocks, treasury bonds and European exchange was the impressive part of the week's movement.

Losses in Bonds. The market for bonds of home companies was irregular, for there were numerous exceptions and some recovery. But to the fall in stocks, treasury bonds and European exchange, there was a marked exception, the price of the latter having been more steady than in the case of the former, and the market for the latter was more active than in the case of the former.

New York Bonds

New York, Oct. 28.—Complacence at the opening of the market after the news of today's decline in bonds on the New York Stock Exchange. The chief feature of the market was the steady advance of the price of the 4 1/2% U. S. bonds, which were 1/2-3/4 higher for the week, with the 4% U. S. bonds 1/2-3/4 higher.

At least some extent, this view of the market is unduly correct, but it is not to be taken too literally. It is true that the market for bonds was more active than in the case of the former, and the market for the latter was more steady than in the case of the former.

At least some extent, this view of the market is unduly correct, but it is not to be taken too literally. It is true that the market for bonds was more active than in the case of the former, and the market for the latter was more steady than in the case of the former.
