

### Randall Stands on His Record in Closing Address

#### Republican Nominee for Governor Declares for Lower Taxes, Rigid Economy and Farmer Aid.

(Continued From Page One.)

roads, capitol and other things as we go. Nebraska, Kansas, Kentucky and Wisconsin are the only four states in the union with no bonded indebtedness. And Nebraska, besides, owns \$11,000,000 worth of bonds as investments.

"Our taxes have been high. We all know it. But we have something to show for them. Your county and city taxes are high because now paving and sewerage have been in construction, new schools have been built and many other things done to make your lives more pleasant. These taxes must also come down. And they already are descending. Regardless of whom you elect your governor, your taxes will descend rapidly, beginning next year.

"There can be no return to really prosperous business conditions until the purchasing power of the farmer has been restored. The farmer, my friends, represents 40 per cent of the purchasing power of the nation. Unless the farmer gets a fair price for what he produces, in other words, unless the farmer makes a profitable living, nobody else can prosper.

**Deflation Catastrophe.**

"It takes a year to raise a crop and a year to consume it. The last legislature passed a bill which really connects the granaries on the farm into warehouses so that the farmer is not compelled to sell his grain when the market is unfavorable."

Senator Randall here reviewed briefly the democratic deflation catastrophe which caused such widespread distress among the farmers and others.

"Two means were devised by the republicans to counteract this," he said. One was the emergency tariff, the other the revival of the War Finance corporation.

"The emergency tariff shut out Canadian wheat, vegetable fats and other things which were flooding this country. Wheat immediately rose in price, so did corn, and the farmers' warehouses which had been crammed with the cheap imported oils were soon cleared out and, instead of a predicted 5-cent pork, pork went to 10 cents.

"The revival of the War Finance corporation loaned money to farmers and tied them over a period last fall when thousands of them could be saved no other way.

#### Farmers Get \$12,000,000.

"I was a member of the Nebraska loan agency of the War Finance corporation. We met in Omaha for four months, working late into the nights, once till 3 in the morning, loaning this money to the farmers in their desperate need. We got not one cent of pay for our work, but we had the consciousness that we were doing something for the state. That agency loaned \$12,000,000 of War Finance corporation funds to the farmers and stockmen of Nebraska. And already about \$2,000,000 of this money has been paid back."

Randall is given to no flights of oratory. He confesses that he has never had the time to cultivate this "gift." He is too honest to try to gain anything by it.

But his speech, plain like himself, has a Lincolnian quality of lucidity. He puts things in words so that everyone can understand. For instance, in explaining the common fallacy that the code law is responsible for high taxes, he says: "If you

### Shopping Is a Joy in Cantilever Shoes

The pleasure of shopping can be spoiled by wearing uncomfortable shoes. But in comfortable Cantilever Shoes shopping is a real delight.

Many of the fresh, happy faces you see in the stores nowadays are due to comfortable shoes. One can be on his feet all day in smart Cantilevers and then feel like dancing "half the night."

The arch of Cantilever Shoes is flexible, like the foot. It is not made rigid by a metal "shank-piece" such as is concealed in the arch of all ordinary shoes. The shape follows the natural lines of the foot. When you walk, your feet feel light and free; the flexible snug-fitting shank supports the foot without restraining its natural action. Good circulation is permitted and the arch muscles exercise, which keeps the feet strong and well. Thus are weak arches benefited.

Cantilever heels of the right height permit correct posture. High French heels tilt the body out of balance, causing harmful pressure on some of the internal organs, which often results in headaches, backaches and other unhappy conditions.

Cantilever Shoes are not only good-looking but they encourage better health and a happier spirit—both of which insure a woman's appearance and add to her natural charm. You will be fitted carefully at our store, which is the exclusive Cantilever agency.

All guesswork eliminated, every shoe is now fitted by X-ray without extra charge to you.

Shoes 2 to 11, Widths AAAA to EE. For Men and Women.

HOSIERY, SPANISH and RUBBERS. Sold in Omaha Only by

CANTILEVER SHOE SHOP.

Monoplane T-2.

abolish the code officials you will save just one cent in every \$23 of taxes you pay. Besides, other states have the code law and declare it the best thing they ever adopted, and 20 governors either have recommended it or will recommend it to incoming legislatures. Don't let yourselves be deceived.

#### Replies to "Whisperers."

He replied to "whisperers" who have been trying to stir prejudice against him by pointing to the fact that, in the state senate, he voted for the law prohibiting public schools from wearing clerical garb; the law placing private and parochial schools under the state department of education, and the law prohibiting teaching any language but English in the schools up to the eighth grade.

"I voted for all these laws," said Randall. "I have not changed my opinions regarding them. But analyze these laws. They are based on fundamental American principles. We believe in keeping all sectarianism out of the public schools. The law referred to does not prohibit wearing clerical garb in private or parochial schools.

"The law placing private and parochial schools under the state department of education is designed merely to put them on a par with the public schools and give the children attending private and parochial schools the same recognition as those attending public schools.

"The language law does not prohibit teaching of foreign languages in grades above the eighth. I want children of foreign born parents to have the full advantage of knowing English. After that, let them learn the language of their fathers. They can learn that anyway at home. It is a fine thing to be able to speak more than one language.

**Appeals to Americans.**

"I appeal as an American to Americans. And let it be remembered that our fellow citizens who were born across the seas and naturalized in this country are just as good Americans as those of us who were born here. I know of no better farmers or more law abiding citizens than our fellow Americans who were born in Germany and Scandinavia. Some of my oldest and staunchest friends are men and

### Chiropractic Free Clinic For Children

Commenting Monday, Nov. 5th, Dr. Burhorn and his associates will conduct a free clinic for children daily between the hours of 7 and 9 p. m.

This service means that we are in Omaha to see that any child suffering with any abnormality will be given the advantage of receiving the benefits of Chiropractic spinal adjustments without any obligation whatsoever.

### Nonstop Aviators Are Forced to Land

(Continued From Page One.)

revealed that during their nearly 20 hours in the air, they were in the midst of a storm and rain for 11 hours and 20 minutes.

In crossing the mountains the wind was so strong that it threatened several times to turn their ship over.

A cracked water jacket is said to have forced the aviators to descend. According to the officers, the radiator sprung a leak shortly after they left San Diego, but it did not become serious until near Indianapolis. Neither of the men was injured in the landing, which took place on the military aviation field.

#### Tanks Drained.

Dayton, O., Nov. 4.—Major T. H. Lane, commandant of McCook field, at 10:35 o'clock today received a telegram from Lieutenant Oakley Kelly, saying the T-2 is down near Indianapolis. Lieutenant Kelly said the tanks in the plane sinking a leak 400 miles out of San Diego and that the tanks were completely drained of water when the forced landing was made.

#### Tearing Through Air.

Chicago, Nov. 4.—The giant monoplane T-2, in which Lieutenants John A. MacReady and Oakley Kelly started a nonstop transcontinental flight from San Diego to New York at dawn yesterday, early today was over southern Illinois and passed on into Indiana. Despite the fact nothing had been heard from the huge craft since it flew over Pratt, Kan., at 10:10 o'clock last night, army officers and others interested in the flight believed all was well and that the craft was continuing to tear eastward through the air at approximately 110 miles an hour.

With good weather indicated for today from here to the eastern seaboard and the hardest part of their trip easily behind them, it was believed that the young aviation officers were in a fair way toward adding to their numerous air records that of first trans-America fliers.

#### Negotiate Temecula Pass.

They did not hesitate over any town on their route up until shortly before midnight last night, and indications were their motor was continuing to function in the same superb manner which permitted them to remain aloft over San Diego more than 25 hours a month ago, when for in Temecula pass caused them to turn back from their transcontinental flight effort and try for a new endurance record instead.

#### Four Killed, Four Injured in Coal Mine Explosion

Scranton, Pa., Nov. 4.—Four men were killed and four others injured in an explosion at the Birdsays slope of the Oliphant mine of the Hudson Coal company at Throop, near here, yesterday afternoon.

#### Request for Injunction Charges Andy Spending Too Much in Campaign

Fort Worth, Tex., Nov. 4.—Earl Mayfield, Ku Klux Klan candidate for the United States senate, and George Kelly, anti-klan candidate, from Texas are sharing their election troubles with Andy Gump, people's candidate for congress.

#### Four Killed, Four Injured in Coal Mine Explosion

The death of a fifth man was expected momentarily tonight, hospital physicians stating that he was internally injured.
