Enjoyment for All.

THE GUMPS--SEE IT IN COLORS IN THE SUNDAY BEE

AFTER THE BATTLE

Drawn for The Omaha Bee by Sidney Smith

How to Keep Well

By DR. W. A. EVANS  
Questions concerning hygiene, sanitation and prevention of disease, submitted to Dr. Evans by readers of The Bee, will be answered personally, subject to proper limitation, where a stamped addressed envelope is enclosed. Dr. Evans will not make a diagnosis nor prescribe for individual diseases. Address letters in care of The Bee.

**WINTER HEALTH ADVICE.**  
This article was prepared in November. By that time we will be well on toward the winter rise in the sickness rate.  
Time was when the summer was the season of sickness, and in comparison, winter was healthful. Before me lies a graph showing the distribution of sickness by month during the last three years. This curve shows June, July and August as about the most healthy months in the year. It is the report for September of this year. It shows the beginning of the winter rise. However, there will not be much rise shown by the October report when it becomes available. Nor will November show a great increase over October. Nevertheless, somewhere about November 15 the winter rise will be definitely in evidence; in December it will be very marked, and in January the flood will be on.  
While winter is not much more unhealthy than it was 50 years ago, our health at other seasons has become so much better that our winter health requires our cultivation. Some day we will become dissatisfied with it. In fact, some day we may get mad about it and change it.  
This winter or when sickness comes soon after we put the windows down and turn on the heat. It generally starts with waves of colds, usually called "the common cold." Physicians do not agree as to what causes colds. Some of them think colds are due to bacteria; some think colds are due to viruses; some think colds are due to a combination of the two. The man infects himself; some hold that a man can infect himself or be infected by others. Whichever is right, they all agree that bacteria are responsible and that the responsible bacteria are a part of the mass of bacteria any one of which can cause pneumonia.  
Just now, in November, there are certain procedures we can carry out which will help us in the fight against the pneumonia virus in the January.

Stay out of doors as much as possible.  
Keep the house well ventilated.  
Keep out of crowds.  
Avoid dusty, dirty air.  
Keep down street dust.  
Avoid chills which precipitate colds.  
Keep the children with acute coryza out of school.  
Keep the people with acute coryza out of crowds.  
Avoid all people suffering from acute coryza.  
Take care of acute sore throats.  
Tend every acute sore throat as a source of contagion.  
Keep the children with acute sore throat out of school.  
If you are old or, for any reason, fear pneumonia, be vaccinated against that infection. Extended experience in the army and in South Africa shows that this vaccination has considerable value, and that it protects long enough to carry a person well beyond the pneumonia virus.

**Maybe the Toe Must Go.**  
A. R. G. writes: "Kindly let me know what to do for a shoe that chafes or raises up at the second joint, so that the point is much higher than the other toe, causing it to rub on the shoe, which is very painful."  
It is the second toe, and it feels as if the nerve had contracted. The

VICTIM DIES

Don't treat little pains and aches lightly. Some day you may find that the little pain is a big disease. Be warned in time.  
In most cases these aches and pains are warning signals that the kidneys are slowing up. They are not throwing off

**LATHROP'S GOLD MEDAL**  
HAARLEM OIL  
Look for the same Gold Medal on the box and label. Accepted by the American Medical Association. Sold in all drug stores.  
**Piles Fistula--Pay When Cured**  
A sure cure for hemorrhoids, piles, fistula, and other rectal troubles. No surgery, no pain, no expense. Pay only when cured.  
DR. E. S. TERRY, 1000 Broadway, New York, N.Y.

Jailed on Vagrancy Charge.

William Nelson, 3410 Ruggles street, was jailed for 10 days by Judge Wapach in central police court yesterday on charges of vagrancy when he attempted to explain away a hint of suspicion cast against him when a door was found open at a store at 322 North Sixteenth street Sunday night and \$45 was discovered gone from a secret hiding place shortly after he had been in the store.

**End the pain of CORNS quickly, safely!**  
This way--rid yourself of misery from corns. In one minute Dr. Scholl's Zino-pads will do it--safely! They remove the cause--friction-pressure. Your risk of infection from cutting, no danger from corrosive acids. Zino-pads protect while they heal. They are antiseptic, waterproof. Sizes for corns, callouses, bunions. Get a box today at your druggist's or shoe dealer's.  
**Dr. Scholl's Zino-pads**  
Put one on--the pain is gone!

**SUCCEEDS WHERE DOCTORS FAIL**  
Lydia E. Pinkham's Vegetable Compound Often Does That.  
Read Mrs. Miner's Testimony  
Churubusco, N. Y.--"I was under the doctor's care for over five years for backache and had no relief from his medicine. One day a neighbor told me about your Vegetable Compound and I took it. It helped me so much that I wish to advise all women to try Lydia E. Pinkham's Vegetable Compound. It is a great help in carrying a child, as I have noticed a difference when I didn't take it. I thank you for this medicine and if I ever come to this point again I do not want to be without your Vegetable Compound. I give you permission to publish this letter so that all women can take my advice."--Mrs. F. M. Miner, Box 10, Churubusco, N. Y.  
It's the same story over again. Women suffer from ailments for years. They try doctors and different medicines, but find no better. Finally they take Lydia E. Pinkham's Vegetable Compound and you can see its value in the case of Mrs. Miner. All ailing women ought to try the medicine. It can be taken in safety by young or old, as it contains no harmful drugs.
