Personal Revolt of Mexican Ends in Grant of Amnesty

General Who Lead Rebels in Retaliation for Unpunished Slaying of Sons Surrenders.

Durango, Mexico, Nov. 14.—Gen. Rosalvo Hernandez, whose status as a rebel general had more of a personal than political significance, according to Mexican military authorities here, has surrendered and has been granted amnesty by the federal government. He has returned to private life at Santa Rosalia, Chihuahua. Gen. Hernandez revolted with a few followers last spring and later when the late Francisco Murguía entered the field, affiliated with the new leader of the revolution. Murguía was accompanied by Hernandez before Murguía's recent capture and execution. Early one morning last spring, two sons of Hernandez were returning from a dance and were so boisterous that inhabitants of Santa Rosalia were awakened and complained to the police, according to friends of Hernandez. The Hernandez boys objected to interference in their revels and a fight ensued in which both were killed, their mother was wounded, the fight being carried to the Hernandez home, it is reported. The general complained to Governor Ignacio Enriquez and President Obregon that his family was threatened with extermination by personal enemies. The slayers of his son not being punished, Hernandez entered the revolutionary lists. His following was never large, but he was active in many small uprisings. He fought only one battle and that was in Chihuahua, when Gen. J. Gonzalo Escobar routed his band, killing several officers and men. The deaths of General Murguía and Juan Carrasco left Hernandez as the probable leader of the rebels in the north. Murguía is said to have appointed Hernandez "commander in Chihuahua."

The plans call for a speed of 150 kilometers an hour. The machine is to be put through a series of tests by the engineers of the air ministry.

RADIO Omaha Picks Up Chicago Opera

Concert by Rosa Raisa Clearly Heard by Radio Fans Here.

The opera season has opened. Although Omaha has no warblers and trilliers of its own, possessors of high powered radio outfits can hear the Chicago grand opera, which began its season Monday night with "Aida." Any radio fan possessing a vacuum tube receiving set should be able to pick up the Chicago music, according to local dealers. Among the Omahans who heard the great Rosa Raisa Monday evening were Frank Selby, Ray Low, Frank Morseman and Gould Dietz. "We got every note of it," declared Mr. Selby. "It was as clear as if we had been in the opera house. And we could hear waves of applause after each song." Mrs. Selby listened with only one receiver, as both made it unpleasantly loud. Mr. Low had the same experience and got the music very clearly. "It was fine, I'm going to listen to Carmen tonight," he said. Mr. Morseman had some difficulty in getting Chicago and only heard the last hour of the performance. He had trouble between numbers and found he had to re-adjust his dials after each change of voice or as the singers moved about the stage. This evening Edith Mason, soprano, who is to appear before the Tuesday Musical society in Omaha this winter, will sing "La Boheme" for a Chicago audience, and incidentally a radio audience. The music is broadcast from KYW station of the Westinghouse company at 400-meter wave length.

Third Party Plans Campaign of 1924

Progressive Leaders Hold Conference Here—Candidate for Senator Satisfied.

Progressive party leaders held a conference yesterday in headquarters, Lyric building, to arrange for a statewide meeting to prepare for the campaign of 1924. "We have done what we intended to do," said Rev. J. L. Beebe, candidate of the party for United States senator at the recent election. "Though I am the active pastor of a church and kept right on with my preaching throughout the campaign, I feel that I rendered the party service by making the race. "We elected the sheriff at Plattsmouth and all the county officers except two in Lincoln county. That was pretty good considering we had been organized only a few months. I have no political ambitions now." A Progressive Economic League is to be organized to have headquarters in the Lyric building and keep track of political and economic movements. Anson H. Bigelow, A. L. Tidd of Plattsmouth, recent candidate for congress; C. A. McDonald, state president of the Federation of Labor; and Ben Ballard were among those at the conference.

New Beauty Came

A story that millions know

Millions of people have gained new beauty through a new teeth cleaning method. You see them everywhere. Their teeth now glisten, and they show them when they smile. If you don't know that method, make this test.

Combats the film

It is film that makes teeth dingy—that viscous film you feel. It clings to teeth, enters crevices and stays. Food stains, etc., discolor it, then it forms cloudy coats. Tartar is based on film. Film also holds food substance which ferments and forms acids. It holds the acids in contact with the teeth to cause decay. Germs breed by millions in it. They, with tartar, are the chief cause of pyorrhea. Thus most tooth troubles are now traced to film. Under old methods, very few escaped them. Beautiful teeth were less often seen than today.

Old ways failed

No ordinary tooth paste effectively combats film. So much film remained to night and day threaten serious damage.

But dental science has now found two ways to fight that film. One acts to curdle film, one to remove it, and without any harmful scouring. Able authorities proved these methods effective. Then dentists everywhere began to advise their use. A new-type tooth paste was created, based on modern research. The name is Pepsodent. These two great film combatants were embodied in it.

Fights acid, too

Pepsodent brings other much-desired effects. It multiplies the alkalinity of the saliva. That is there to neutralize mouth acids, the cause of tooth decay. It multiplies the starch digestant in the saliva. That is there to digest starch deposits on teeth before they ferment and form acids. These are Nature's great tooth-protecting agents. Each use of Pepsodent gives them manifold power. These combined effects mean a new era in dental hygiene. Careful people of some fifty nations now share it, largely by dental advice.

You'll be amazed

The effects of Pepsodent are quick and apparent. They will amaze and delight you. A short test will convince you that this method is essential, both to you and yours. Send the coupon for a 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the viscous film. See how teeth whiten as the film-coats disappear. Then judge by what you see and feel. Cut out the coupon now.

May Eat Up Farm Bloc

Since most of the possible progressive leaders are potential candidates for the presidency, they will seek to represent a national rather than a sectional or occupational movement. Accordingly there are indications that in the coming two years the farm bloc which has served an extremely useful purpose will be eaten up by the progressive bloc which will seek to amalgamate the liberal elements in all walks of life with special efforts along the line of combining the agriculturists and the labor elements. While La Follette has the greater power in his state, Senator Johnson of California comes to the bat with the prestige of a tremendous majority in his recent election and with the prestige that accompanies his try at the nomination two years ago. Borah is acknowledgedly the keenest debater in the senate and a man of great independence of judgment, courage of conviction and resourcefulness as a leader and as a speaker which will make him a strong contender for the progressive leadership. Howell and Norris of Nebraska are regarded as holding a balance of power in the progressive councils because of their known independence and will exert a powerful influence upon the "progressive bloc" when it gets started.

Detroit Jurors Talk Strike.

Detroit, Mich., Nov. 14.—Circuit court jurors here are talking of a strike because of lack of work. Owing to a light docket, the jurors have been placed on a two-day-a-week basis at \$2.50 a day.
