### British Labor Leader in Commons Says Sovereign Doesn't Understand Tragedy.

London, Nov. 23.—(By A. P.)—Former Prime Minister Lloyd George was unanimously elected leader of the national liberals at the party meeting today.

J. Ramsay MacDonald, laborite, assumed his new position as leader of the opposition in the house of commons this afternoon and in the debate on the speech from the throne declared that the statement in the king's address regarding unemployment was profoundly unsatisfactory to labor. He said it showed that the government had no real appreciation of a terrible tragedy.

London, Nov. 23.—(By A. P.)—The new parliament will be asked to continue and extend the ameliorative measures prepared by the Lloyd George ministry, as regarding trade and employment and also to guarantee a loan for the restoration of Austria, said King George today in his speech from the throne, officially opening the session.

The utterance of the king which attracted most attention was that forecasting the extension of ameliorative measures for trade and employment.

Prosperity and tranquility must be founded on improved trade and decreasing unemployment, Prime Minister Bonar Law said often during the campaign.

While the king was speaking thousands of unemployed were continuing their meeting of yesterday in London asking relief from present conditions. The debate on the king's speech will probably continue into next week.

### Georges Clemenceau Says That Is His Idea of Democratic Free Speech.

New York, Nov. 23.—As Georges Clemenceau left for Boston today in Charles M. Schwab's private car he said he welcomed speeches by members of congress.

Washington, Nov. 23.—The utterance in this country of former Premier Clemenceau of France came under fire on the floor of the senate today in a debate reviving many of the issues of the Versailles treaty fight and covering many recent problems of international relationship.

Discussion of the mission of the French war-time premier to America was begun by Senator Hitchcock of Nebraska, ranking democrat of the foreign relations committee and the Wilson administration leader during the treaty debate, with a speech declaring that Clemenceau's attitude toward Germany had been such as to detract somewhat from the effectiveness of his appeals to the American people.

"While Clemenceau has not been known as an extreme militarist, as compared with Poincare and some other statesmen," said Senator Hitchcock, "he has established a reputation for representing an entirely harmful policy toward Germany."

The Nebraska senator added that his purpose was not so much to criticize Clemenceau, but rather the policy of the French government toward Germany. He said America was honored by the former premier's visit and observed that Clemenceau had invited criticism of his remarks.

### Insurance Companies Seek to Avoid Paying Fire Loss

Grand Island, Neb., Nov. 23.—(Special Telegram)—A warmly contested civil suit in which insurance companies, having policies on the elevator destroyed by fire at Alda during the summer, have declined to pay in the hands of a jury here. The elevator was on leased railroad ground and the companies contend that it is personal property and that the insurance for which they are liable is less than \$4,000. If it is held to be real estate, the liability would run to \$12,000, the full amount insured. The defendant companies are also alleging carelessness in not preventing the fire.
