## If You Don't Like Your Disposition Change It

By BEATRICE FAIRFAX.

"I've an unfortunate disposition," sighed Lorraine, sadly. "I simply can't make friends. It isn't that I don't like folks, but I don't know how to approach them. So I go into my shell and I have the reputation for being a snob."

Again she sighed, but this time there was an unmistakable note of smugness in her voice.

Somehow, I couldn't help thinking of two little Pomeranian dogs I know. The little white doggie runs up to folks with a friendly wag of a plumed tail. The little brown one holds aloof and gives never a sign of friendliness to anyone. Probably the little dogs can't do much about changing their natures. But why should a thinking human being yield to an unfortunate habit of mind—and continue a manner which her common sense tells her puts her at a disadvantage in this world?

Some of us are naturally friendly—"good mixers"—some of us have to struggle for a gracious manner and a friendly way of meeting the world. But any one can conquer himself and teach himself to be agreeable to folks by simply forcing the issue with himself.

Everyone longs for friendship. All normal human beings have the desire to be liked. And most of us are pretty lonely.

If you are one of those unfortunate who don't know how to meet people, convince yourself that you are not in a class by yourself. There are any number of folks who are longing to have friends and who are too shy and too self-conscious to do anything about it. Recognize this, for it is true. Then determine to be one of those who are clever enough to conquer disposition and to acquire the manner you like.

Graciousness and poise are largely due to thinking about others instead of yourself.

A manner can be cultivated. Ease and poise can be learned as surely as dancing and singing and school lessons can be mastered. No special talent is required. But the gift can be cultivated.

If you are dealing with some one as shy as you, you may be "snubbed," but just remember that folks have called you a snob and that you know it comes from not knowing how to meet folks. So smile to yourself and assure yourself that your subject would like to have a gracious manner if he knew how.

## My Marriage Problems

Adela Garrison's New Phase of "Revelations of a Wife."

### The Way Katie Solved the Picture Problem.

If anyone had told me that the sight of my small son running confidently to me would ever be an unwelcome sight I would have laughed scornfully. But when he trotted into the living room where I was parrying the questions of the reporters concerning the Dicky's escapade, carrying in his tiny hands the torn photograph of Claire Foster which I was so anxious to keep from them, I had but one obsessing thought, how most quickly and unobtrusively to get him out of the room again.

"Ma-ma mend piecher for Dooner," he reiterated, and I realized with dismay that he was holding the torn piece face upward, and that I could distinctly see the inscription upon it. But I had read it before, and my only hope lay in the difficulty of Claire Foster's sprawling chirography to one unfamiliar with it. I must get the photograph away from him, unobtrusively with no apparent desire to hide it, but as speedily as possible.

"Yes, Mother will mend it," I said with careless indulgence. "Bring it here." I turned to the reporters with a banal attempt at facetiousness. "I sometimes think my son is destined for the career of a jank man, for he is perpetually bringing me torn things to mend."

A sharp little cry from Junior, and the sound of a fall interrupted me. I turned to find him sprawling on the floor, unhurt, but with the fragments of the photograph strewn upon the ground. And beside him, stooping over him, raising him to his feet with the hateful figure of Mr. H. Edouard Smythe.

### An Unexpected Interruption.

I knew as well as if I had seen him do it, that in some furtive, cunning manner that young man had tripped the little chap, and that in another second or two, under pretense of returning the torn photograph he would have seen it and the bizarre inscription upon it. I knew really to well that in the version of the incident would be in print were he permitted to write it, that he would depict me as having torn the photograph and thrown it away in a rage. He would even bring my baby boy and his finding of the fragments into the story.

If I rushed to the picture instead of going directly to my baby I might as well advertise the fact that it was something I did not wish to be seen. The thing seemed hopeless from either angle, and my feet seemed leaden as they advanced toward my little lad, who was already laughing back his tears in his adorable game fashion.

"That's the brave little boy," said Mr. Smythe's wife, somewhat as he set Junior on his feet, and then hastily escorted toward the picture fragments. "And here are—"

He never finished the sentence. Something which must have seemed to him as nothing eyes, flying by him and whirring around him, which I recognized as Katie, pushed him to one side so efficiently that he sat down hard upon the polished floor.

"Please Pardon—"

"You old bunch of soup greens," she shrieked, "you trip our baby, I took you. Come here, come to Katie. She has your picture."

With incredible swiftness and deft some she grabbed up the pieces of photograph with her left hand, lifted Junior with her strong right arm, and

## PEEPY-TIME TALES

### TOMMY FOX, ADVENTURER

BY ARTHUR SCOTT BAILEY

CHAPTER I  
Mr. Fox and the Hen's Feather.

"Save some for me!" That was what Tommy Fox's father was always saying when any other member of the family had a treat. And if Mr. Fox ever came home and learned that his household had enjoyed some specially toothsome dainty during his absence without keeping a share of it for him he was sure to be displeased.

So Mrs. Fox fell into the habit of warning her son Tommy: "Save some of that for your father!"

Ending some eggs one day in the meadow, where one of Farmer Green's hens had laid them in a wisp of hay, Mrs. Fox gathered them up and took them home.

"See what I've brought you!" she called to Tommy. "You may eat a few now; but be sure to save some of the treat for your father."

Now, Tommy Fox liked eggs. He ate two then and there. And then he went out of doors to frisk about the pasture for a while.

In a short time he crept into the house again and ate another egg. "That leaves three for father," he said to himself.

Forty couples attended the L. O. E. card party and dance Thursday at the 21st club rooms. Prizes were won by Mrs. John L. Niderst and Leslie Crowder. Mrs. Irving Sorenson had charge of arrangements.

See what I've brought you!" she called to Tommy.

Tommy Fox couldn't get his thoughts off those eggs. At last he murmured softly, "Father won't want three eggs. I'll eat one more."

And he did. Then there were two left for Mr. Fox. A little while later there was only one egg left for Tommy Fox's father. And soon after that there was none. Tommy Fox had eaten them all.

"I've left father the eggshells, anyhow," he thought. "I hope he'll like them."

But Mr. Fox didn't like them at all. When he came home, later, and learned that there had been six eggs in the house, and only the shells were left for him, he made a great fuss.

When he chose to be, Mr. Fox could be very disagreeable. And now he was not only disagreeable. He was quarrelsome. Not only did he blame Tommy for not saving some eggs for
