

### Colorado River Treaty Is Signed by Seven States

#### Compact to Aid in Development of Lands and Protection of Property Formally Completed.

Santa Fe, N. M., Nov. 25.—In the historic Ben Hur room of the old Palace of the Governors in Santa Fe, and upon the lap board upon which Gen. Lew Wallace wrote most of his manuscript, representatives of seven states, at 6:15 last night, signed a compact to secure the expeditious agricultural and industrial development of the Colorado river basin, the storage of its waters and the protection of life and property from flood.

The states signatory to the compact, the first of its kind in America, are Arizona, California, Colorado, Nevada, New Mexico, Utah and Wyoming. The signers in the order of states given are W. S. Norviel, W. F. McClure, Delph E. Carpenter, J. G. Strickland, Stephen B. Davis, Jr., H. E. Caldwell and Frank C. Emerson.

Herbert Hoover, secretary of commerce, representing the federal government, who has presided at the conferences of the Colorado river commission composed for the foregoing, listed the signers the special gold pen provided by the state of New Mexico for the purpose, and which will be preserved in the state archives. Governor Mechem of New Mexico, and a small group of Santa Fe men and women were present at the signing and photographs were taken of Secretary Hoover and the commissioners in the act of affixing their signatures.

The compact, completed after 15 days of intense application by the commission, is about 2,000 words long and is composed of 11 articles. Its purposes expressed in the first article include the following:

To provide for the equitable division and apportionment of the use of the water of the Colorado river system; to establish the relative importance of different beneficial uses of water, to promote interstate comity and to remove causes of present and future controversies.

The compact divides the river basin into two divisions, the upper including Wyoming, Utah, Colorado and New Mexico; the lower Arizona, Nevada and California. The agreement apportions in perpetuity to each section the "exclusive beneficial use" of 5,500,000 acres feet of water annually, including water necessary for supplying existing rights.

### Movie Folk Say Charlie and Polish Star Engaged

Pola Negri.

Los Angeles, Nov. 25.—A story published today by the Los Angeles Times, that a report of the engagement of Charlie Chaplin, motion picture comedian, to Pola Negri, Polish screen tragedienne, was current among the Hollywood studios, was neither denied nor confirmed by Chaplin, while Miss Negri denied herself to interviewers who sought a statement from her.

The report was said to have "kept the studios excited for three weeks and the remainder of Hollywood talking for several days."

The comedian is said to have met the tragedienne first when he toured Europe more than a year ago and since Miss Negri came to Los Angeles for film work recently, Chaplin is reported to have been in her company as often as the conventions permitted.

"Hit the Ceiling." When the Times reporter sought to reach the actress to ask her about her reported engagement to the comedian, a personal representative said: "She hit the ceiling when the subject of the talk was mentioned."

Chaplin was reached and interrogated with considerable difficulty. After at first declining to discuss personal affairs, he said: "I can't say 'yes' any such announcement must of necessity come from her. She is a gentleman and a foreigner. Don't you see? She Charlie Chaplin."

Does not understand American ways in affairs of this kind. She would resent my making a statement. And if I said 'no'—just look at the position in which that would put her."

Later Chaplin commented: "Marriage is no crime." The comedian is said to have moved recently from a small cottage into a house of many rooms and to be occupying it alone. There have been many reports in the last year that he was to marry. He formerly was the husband of Mildred Harris, screen actress.

### Chiropractic Health Talks

By DR. BURHORN

It is our purpose to become better acquainted with more of the sick men, women and children of this community.

It is also our purpose that these same health-seekers shall know more of chiropractic and its record, which shows that 95% of all cases taken are showing results.

We know Chiropractic and what it will do. We know what we can do if given an opportunity.

We give you our honest, unbiased opinion, and if there is a doubt of our ability to help you—we tell you so.

We are graduate Chiropractors and have a state license to practice our science, and if it were not a science of proven merit in getting the sick people well, the good state of Nebraska would not give us recognition.

We conduct a free clinic for children under 13 years of age, daily, from 7 to 8 p. m. Phone JA 3300 5347 for appointment. Office adjustments are 12 for \$10 or 20 for \$25—House calls made when unable to come to the office.
