It wins the operator because of its many features which make the day's work swifter and easier.

Prominent among these is the "Natural Touch", that triumph of Remington design, which makes the operation of the machine like second nature—as mechanical as walking and almost as unconscious as breathing itself.

It appeals to the owner because its work is surpassingly good-and consistently good under all circumstances.

In quality as well as quantity, it gives him the results he wants.

And because it is so quiet that its operation never disturbs him, no matter how near him it is used.

14 Noise Eliminating Features make this new Remington a Messenger of Quiet to every business office.

The price of the new No. 12 Remington is \$110-only \$7.50 more than the Standard Remington-a very small premium to pay for office quiet.

We invite you to call and see this new Remington, or phone us for a demonstration.
