Satisfactory to Leaders.

The bill, as passed, is satisfactory to the administration leaders, although they regret the adoption of the requirement for annual appropria tions instead of a permanent appropriation and also believe it would have been preferable to have left the interest rates as low as originally proposed

The bill creates a merchant marine fund by setting aside 10 per cent of the annual customs receipts and all tonnage taxes and provides a graduated scale of direct compensation to American vessels based on speed, tonnage and distance covered.
