

British Ask Square Deal on War Debt

British Chancellor of Exchequer Tells U. S. Funding Body England Not Asking Favors.

Intend to Pay Last Cent

Washington, Jan. 8.—Great Britain wants a fair business settlement of her \$5,000,000,000 war debt to the United States on such terms as will produce the least possible disturbance in the trade relations of the two countries.

Mr. Baldwin's address was in reply to one of welcome by Secretary Mellon, chairman of the American commission who expressed particular appreciation of the courtesy of the British government in having designated as its delegates men so distinguished.

The treaty secretary assured the British representatives that the American commissioners were no less sensible than themselves to the virtual necessity of effecting a definite settlement upon a basis entirely just to both.

Committees O. K. Legislature

Threatened Clash on Appointments Averted by the Apparent Fairness of Selecting Body.

Not a Dissenting Vote

By P. C. POWELL. Lincoln, Neb., Jan. 8.—(Special.)—The house and senate today confirmed appointments submitted by committees on committees today without a dissenting vote.

A threatened clash was averted by the apparent fairness in committee appointments, which a parently pleased the democrats as well as some republicans inclined at first to believe an attempt was being made to organize committees unfair to certain legislation.

While the Omaha delegation won heavy representation on the cities and town committees of houses and senate it has very little in the telephone and telegraph committees in which many of the battles may be fought this year.

Heads Judiciary Committee. Cooper of Omaha heads the important senate judiciary committee, while Larkin of Omaha, a new member, heads the manufacturers committee.

Lincoln, Neb., Jan. 8.—(Special.)—The first bill introduced in the state senate this afternoon indicates a determination to retain the civil administration code.

S. F. No. 1, introduced by Perry Reed, one of the veteran leaders of the senate, provides for a salary slash of the department secretaries.

Senator Wiltse of Richardson county introduced an inheritance tax bill which graduates the tax. First degree heirs under the terms of the bill will pay 1 per cent up to \$20,000; 2 per cent up to \$40,000 and 3 per cent up to \$100,000 and 4 per cent over \$100,000.

Wiltse is also sponsoring a county board of health act which would give the board the option, however, of submitting the question either by election or open hearing.

Nine bills in all were introduced in the senate which recessed until 2 o'clock Tuesday afternoon.

Day's Activities in Washington

Federal prohibition authorities began a check of liquor consignments to foreign embassies and legations here to determine whether any part of such supplies is reaching the bootleg market.

The plan, outlined by Secretary Hughes in his New Haven speech, settlement of the reparations controversy, it was learned, has been communicated to the French government but no final reply has been received.

The supreme court held, in a decision in the case of the federal trade commission against the Curtis Publishing company, that publishers of newspapers and magazines lawfully can maintain exclusive wholesale distribution agencies.

Closing by the government of hotels and restaurants, particularly in New York city, for prohibition violations, was predicted by officials who discussed advisability of invoking the padlock provisions of the enforcement laws at a conference.

At the first joint meeting of the British and American debt commission, Stanley Baldwin, chancellor of the exchequer and one of the British commissioners, declared Great Britain intended to repay every cent of her war debt to the United States but desired financing arrangements which would disturb trade relations as little as possible.

Millionaire Who Left S. Last July Returns With Capital of 6 Cents

New York, Jan. 8.—With just 60 cents in his pockets, George Pirococo, 40, who left this country last July a millionaire, arrived today on the Greek liner King Alexander, to make his second fight for a fortune.

Pirococo came here first in 1905 as a stoker. He went into the importing business and when he left last summer, he says, he owned more than \$800,000 worth of property in Smyrna.

Almost as soon as he arrived there, the Turks came. His tobacco warehouses, yacht and all his other property were burned.

Today he landed here, one of 105 Smyrna refugees, and confident he would win his new fight.

He started looking for a job immediately.

Federal Agents Probe Shipments of 'Embassy' Rum

Charges That Bootleggers Obtain Liquor From Foreign Legations Stir Up Rumors in Washington.

Washington, Jan. 8.—(By A. P.)—Charges that much of the illicit liquor bootlegged recently by Washington bootleggers came in to the United States under consignment to the foreign embassies and legations here, have developed a situation which, in the opinion of federal prohibition authorities, embraces many disagreeable possibilities.

While officials of the federal government will not discuss specifically the liquor raids which Washington police officers declare have provided evidence of a leak from the embassy and legation stores to bootleggers, "dry" men in the opinion of federal prohibition authorities, embraces many disagreeable possibilities.

The prohibition officials have started a check on diplomatic shipments to determine whether the representatives of any country have been receiving an apparently abnormal supply. The procedure for obtaining entry necessitates formal application by the embassy to the state department which, it was said today, is sending a copy of each application to the prohibition bureau for its information.

A further check is being made through customs officials at Baltimore, New York and Philadelphia, through which ports the bulk of the diplomatic liquors arrive.

Officials were hesitant to say what action would be taken if it was definitely established that an embassy was receiving supplies of liquors plainly in excess of the requirements of its staff, but it was indicated that this department would be requested, in such a case, to take the matter up with the ambassador or minister in question in the hope of obtaining his voluntary cooperation toward remedying the situation. It was the opinion of officials that if such knowledge should result from their investigation it would be found that a subordinate attaché of the legation or embassy would be proven to have been the culprit without the knowledge of any of his responsible superiors.

Missouri Pacific Road May Acquire Rio Grande Line

New York Bankers Admit Negotiations Under Way for Purchase of Bankrupt Railroad.

New York, Jan. 8.—Negotiations for acquisition by the Missouri Pacific railroad, of the Denver & Rio Grande, Western, now in receivers' hands are under way, it was stated by local bankers tonight.

Joseph H. Young, a former president and now receiver for the Denver & Rio Grande Western, declared he had no knowledge of such a sale and any such negotiations would have to be passed upon by the courts which now control both roads.

From other sources it was learned that negotiations are in progress looking toward a plan of reorganization of the Denver & Rio Grande Western that would be acceptable to the bondholders and others financially interested in the road.

The Western Pacific, which now controls the common stock of the Denver & Rio Grande Western and the Missouri Pacific, which holds a large amount of the road's bonds, would be in joint control of the reorganized Denver & Rio Grande Western. It would, however, be operated as an independent railroad. So far, it is said, the negotiations have progressed smoothly and the plan of reorganization may be announced soon.

What new financing would be required to care for the various bond issues of the Denver & Rio Grande Western and the reorganization of the road was not disclosed.

Flames Destroy Club at Alliance Buildings and Equipment Valued at \$20,000 Razed by Midnight Blaze

Alliance, Neb., Jan. 8.—Fire starting presumably from spontaneous combustion in a coal basement destroyed the Alliance Coffey club house and contents on the shore of Broncho lake, two miles west of here, Sunday night, entailing damage of \$20,000.

The blaze was discovered by Edward Milburn, caretaker, who was alone in the clubhouse. He heard the engine stop in the boiler room and found the basement in flames.

The clubhouse, built two years ago and one of the finest in western Nebraska, was a popular pleasure resort of Alliance business men.

Prairie fire caught from the blaze and burned over several acres. Several hundred persons from town watched the flames which were fanned by a high wind.

Treasury Announces New Issue of Notes

Washington, Jan. 8.—The treasury announced a new offering of 4 1/2 per cent treasury notes, dated January 15 and maturing December 15, 1927. The issue is for about \$300,000,000 with the right reserved by the treasury to allot additional securities of the issue to the extent that victory notes or war savings certificates are tendered in payment or exchange.

About \$200,000,000 of the victory notes which were called for redemption December 15 are still outstanding, according to treasury figures, and something like \$400,000,000 of the 1918 issue of war savings stamps also have not been presented for redemption. Seventy-Five Mile Gale Lifts Roofs in Mile-High City

Denver, Colo., Jan. 8.—Descending upon the eastern slope of the Rocky Mountain region early last night, a severe windstorm, increasing in velocity from a rate of 25 miles an hour to between 65 and 75 miles an hour, left destruction and havoc in its wake in parts of Denver and nearly a score of northern Colorado towns and in farming sections, according to general reports reaching Denver early today.

The damage, however, was expected to run into thousands of dollars, although no official estimate was available early today.

The storm, which came from the western Rocky mountains, swept down upon southern Wyoming and northern Colorado late yesterday, unroofing houses and demolishing numerous frame residences. No loss of life was reported. Farmers lost heavily in damage to farm properties, it was reported.

Four Sentenced for Jail Break

Grand Island, Neb., Jan. 8.—(Special.)—John Wilson, originally arrested on the charge of auto theft; William Wright, charged with forgery, and Paul Knapp and George Cave, sentenced for shooting a patient to wound, were arraigned before District Judge Paine today and each was sentenced in addition to former sentences, to from one to 10 years in the penitentiary on the charge of jail breaking.

These are the four of the five men recaptured after the spectacular delivery Wednesday, January 2, Cave was the only one of the four who voluntarily surrendered and went back to the county jail after an interview with his father. In each case the sentences were fixed to begin when their formerly-imposed sentences had expired.

Each of the four made a statement. Wilson admitted his leadership, stating that it had been he who had pushed the door open against Jailor Schroeder and took from him both his guns. Wilson was more or less defiant declaring to the judge that under similar circumstances he would do it again.

Jailor Schroeder, he declared, had not given him a square deal. He admitted having assaulted Carpenter (a trusty) for having intimidated him as a white mouse—a squealer, and complained that he had been put in solitary that day. Paul Knapp admitted he had broken out of the local jail in 1918.

Cave, who gave himself up voluntarily, had little to say, except that he had only followed the gang out and had not participated in the force used.

Members indicated this report, if adopted by the full committee, would be presented to the house without recommendation.

Troops to Occupy Essen

Paris, Jan. 8.—(By A. P.)—The occupation of Essen by a small French force, accompanying engineers and customs officers, is now slated for Thursday morning, it was stated on good authority today.

Belgian and Italian engineers and technical experts will accompany the French, but only the Belgians, it is understood, will contribute to the force of occupation.

Plan Sent to Paris. Washington, Jan. 8.—The plan for settlement of the reparations controversy between France and England outlined by Secretary Hughes in his New Haven address, has been communicated to the French government through official channels.

No final reply has been made by Paris, although it was learned today that a preliminary answer had been received here from the French foreign office. It was said at the State department that the proposal was regarded as still before the French government for decision.

It was not stated when the American communication was sent, but indications were that it was transmitted through diplomatic channels before Mr. Hughes delivered his address at New Haven.

Plan "Definite." It was said authoritatively that the transmission was "perfectly definite" in character, and it was indicated that it revolved about the suggestion that international financiers be called in to formulate a reparations payments plan.

Official comment as to the nature of the reply already received from Paris was withheld. The statement that the American suggestion still was definitely before the French government, however, was interpreted to mean that the French answer was not an unqualified rejection of the scheme.

To Decide Thursday. Paris, Jan. 8.—(By A. P.)—Premier Poincare will inform parliament on Thursday regarding his policy toward the Ruhr district. This was decided upon at today's council of ministers.

It seemed certain this afternoon that the reparations commission would vote Germany in voluntary default on coal deliveries for last year after the final hearing of the German experts, which was set for 3 o'clock this afternoon.

Labor Board Rejects 'One Big Union' Plea

Chicago, Jan. 8.—(By A. P.)—The "One Big Union" idea among railroad men, as represented by the United Association of Railway Employees of North America, and the successor to the so-called outlaw union which called the switchmen's strike in 1920, has no standing, so far as the United States railroad labor board is concerned, it was announced today.

The board refused to receive a petition presented by R. C. Greenley, general chairman of the union, for a hearing on a dispute between his men and the Michigan Central railroad, on the ground that Greenley's evidence failed to show he represented a majority of the men employed.
