

Omaha Post of American Legion to Aid Orphans

Portion of Dues of Each Member Will Be Given to Building Fund for National Orphanage.

Announcement that the national department of the American Legion is going to build an orphan's home for the children of former war veterans was received by members of the Omaha post with much enthusiasm. A share of the dues of each member of the Omaha post will be given toward the erection of the proposed home.

"The Omaha post has always been in favor of such a move," said Commander Hird Stryker, "and it is just another step in making the American Legion a greater power for good for the ex-service man, and the country as well. As I understand the plan, the children of ex-service men, regardless of membership in the American Legion, will be taken into the home. It has been the spirit of the legion since its organization to furnish aid for the ex-service man whether he was a member of the legion or not."

"I think it is a wonderful idea," said Sam Reynolds, member of the committee in charge of the local post campaign for membership. "The boys are very happy to hear of the decision of the executive committee, and we will do our part to make the orphan's home a real honest-to-goodness home for children of our buddies in the service."

"I am glad to hear about the plans of the executive committee," said Walter Byrne, past commander of the post. "In the legion's national orphan's home children of war veterans will find a genuine welcome."

Omahans Urged to Back Farmer

Ex-Land Bank Head Says Co-Operative Movement Should Be Encouraged.

Omaha will be promoting its own best interests by encouraging the co-operative movement among farmers of this state, according to George H. Stevenson, former president of the Federal Land bank of Baltimore, addressing the Triangle club yesterday noon in Hotel Fontenelle.

"The co-operative idea among farmers means better prices for their products and that means more business for Omaha," Mr. Stevenson said. "It is important that agriculture shall be considered the fundamental industry of Omaha and of this state. There should be co-operation between Omaha and the agricultural interests. This co-operation should not be limited to the loaning of money, but should assist farmers in obtaining advantageous outlets for their products."

"The total farm mortgage indebtedness in this country in 1910 was estimated at \$2,750,000,000, and in 1920 at \$7,500,000,000. We also must consider that farm conditions in 1910 were not as favorable as in 1920. These figures mean that the farming industry today is carrying the greatest burden of indebtedness that it has ever had."

Mr. Stevenson, who is a native Nebraskan, recently motored through several farming sections of the state to get the viewpoint of the farmer. He notes improved conditions, due to better prices and also to the ability of the banks to liquidate some of their farm loans.

Carrington May Examine Power of 'Wonder Girl'

Omaha Scientist Anxious for Scientific Probe of Psychic Power of Eugene Dennis.

Eugene Dennis, the "wonder girl," is in Omaha to consult with Herward Carrington, scientist, who is anxious to arrange with her for a scientific examination to determine whence she gets her psychic power. Miss Dennis already has had several tests taken, but as yet it has not been determined just what her power may be termed. She recently signed a contract with the Corona Picture company, a new film corporation of New York city, the terms of which call for \$2,000 a year, with all hotel and traveling expenses and incidentals paid by that concern.

Her first picture will embody the initial test taken to determine her genuineness along psychic lines, a report of which was written by David Abbott of Omaha. Fred Jackson, author of several Broadway hits, Jerry Gendron, actor, James McFarland and Eugene O'Brien are the principals of the Corona Picture company.

Interviewed by Tolstoi.

Miss Dennis was interviewed by Count Ilya Tolstoi a few days ago in St. Joseph, Mo., and claims he was astonished at the correctness of her answers to his questions. She was able to tell him, without any knowledge as to his identity, how many children there were in his family, how many dead and how many living, where his wife was at the time, where his cigar case was made, etc.

Miss Dennis says, "The more of this work that I do, the more competent I become, and the more rapid I can answer questions put to me." "Of course, at times," she says, "I become embarrassed, and I hesitate, but not

like I used to. I never like to be told about anyone; the less I know about them, the more I can tell them of the things they want to know."

Plans Test Soon.

Miss Dennis is planning on going to a psychic laboratory in New York

at an early date for another test, and when that test is made she intends to let the world know the outcome. Already she has received several letters from Egypt, Jerusalem and other foreign countries asking her for information.

From Omaha Miss Dennis will go to Joplin, Mo., for a week's engagement at a picture theater and thence to Tulsa and Oklahoma City, and later to New York.

Plans are under way for the proposed new picture of the Omaha test, and it is not unlikely that this picture will be filmed in Omaha.

While in Omaha, Miss Dennis is the guest of Mr. and Mrs. David Abbott, 3316 Center street.

Bishop Shayler Praises Women's Work for Church

Mrs. Wilbur S. Leete Elected President of Nebraska Auxiliary of Episcopal Council.

Mrs. Wilbur S. Leete of Plattsmouth was elected president of the Nebraska branch of the women's auxiliary to the national council of the Episcopal church at the closing session of the 37th annual meeting in Trinity cathedral yesterday afternoon.

Mrs. Clint Miller of Omaha was elected vice president; Mrs. Mary O'Connor of Omaha, secretary, and Mrs. J. D. Fairchild of Lincoln, treasurer.

Mrs. Stanley Clements of Lincoln was elected United Thank offering treasurer; Mrs. W. H. Wheeler, supply secretary, and Miss M. E. Musser librarian.

A reception was held for delegates last night at the home of bishop and Mrs. E. V. Shayler, 5124 Izard street.

Bishop E. V. Shayler, in his annual address at the opening of the meeting, declared this diocese's most important work now is ministering to the poor. He congratulated the women of the organization on what they are accomplishing.

"The Bishop Clarkson Memorial hospital has ministered to thousands of patients in the last year," he said. "And not one person has been turned away from it."

"Brownell hall will soon be established on 11 acres of land in Dundee and ready to give to girls a Christian education and to develop them in true Christian character."

The bishop was assisted by Rev. Stephen McGinley of Trinity cathedral, Rev. W. S. Leete of Plattsmouth and Rev. A. E. Marsh of Blair in administering communion.

Mrs. W. H. Jones of Omaha delivered the president's address and reports were received from the secretary, treasurer and committee chairmen.

Dr. William C. Sturgis of New York, secretary of the national board of education, addressed the convention on the coming campaign for funds for Brownell hall and other subjects connected with the church's educational activities. Luncheon was served to the delegates in the parish house.

Reports were received yesterday afternoon from Mrs. S. W. Townsend, educational secretary; Mrs. W. H. Wheeler, supply secretary; Mrs. Stanley Clements, united thank offering treasurer; Madam Joshua Leete, C. P. C. representative; Miss M. E. Musser, librarian; Miss Grace Lindley, Tonight there will be a reception at the home of Bishop Shayler.

"The Steinway Piano, Whether for the Artist or Student, Is Sure to Assist Him to Realize His Artistic and Pianistic Efforts."

Sophie Nostitz Naimska, for the past eight years director of the Piano Department at Brownell Hall and former assistant to Madame Melville Liszewska at Vienna, is an enthusiast over the merits of the Steinway Piano. Miss Naimska is a pupil of the great Leschetizky and for years has used the Steinway as her medium of expression. A letter of appreciation from her follows:

"I think that it is unnecessary to speak of the artistic value of the well-known instrument, the Steinway Piano. The greatest pianists have already told the world of their enthusiasm for its remarkable qualities.

"What more can be added than to say, give a good tool or instrument to the workman or artisan and he will be assured that his efforts bring the right results.

"I encourage all those who play and are striving for the best in music to assure themselves of faithful co-operation by using 'The Instrument of the Immortals.' A Steinway Piano, whether for the artist or student, is sure to assist him to realize his artistic and pianistic efforts.

"SOPHIE NOSTITZ NAIMSKA"

If you want a Steinway, the standard piano of the world, call at our recital rooms where we have a choice number of instruments for your selection. Remember we are the exclusive representatives for the Steinway in Nebraska and Western Iowa and gladly arrange terms of 10% of the purchase price and the remainder in three years' time. Your old instrument will gladly be accepted as a substantial part payment.

16 Days Below Zero City's Yearly Average

Washington, Jan. 16.—Omaha may expect 122 days with the temperature at freezing, or lower, and 15 days with temperatures as low as zero, or lower, during the average winter, the United States weather bureau announces after a compilation of its records analyzing winter temperatures.

In general, freezing weather occurs more than 100 days of the year north of southern Pennsylvania, the Ohio river and the southern parts of Missouri and Kansas, as well as throughout the mountain and plateau districts of the west. In North Dakota, eastern Montana and Wyoming freezing temperatures may be expected on more than half the days of the year, the annual record of Yellowstone park averaging 211 days. This is in marked contrast with two days at Tampa, Fla., and four days at Galveston, Tex.

As a rule, zero weather does not occur south of the District of Columbia, the western portion of Virginia, the extreme northern parts of Tennessee and Arkansas, and central Oklahoma, although during the cold wave of 1899 the zero line was carried to the east Gulf coast.

Mexico has 12,246 miles of railroads and 56,000 miles of telegraph wires.
