But I have since pieced together my impressions as conscientiously as I could, and I present them here. If they seem to be a little bit modeled on British impressions of America, I admit at once that the influence is there. We writers all act and react on one another; and when I see a good thing in another man's book I react on it at once.

London, the name of which is al ready known to readers, is beautifully situated on the River Thames. which here sweeps in a wide curve with much the same breadth and majesty as the St. Jo river at South Bend, Ind. "Mother Why Not Try The Newer Form Of Iron

And Be Strong and Well and Have Nice Rosy Cheeks Instead of Being Ner-yous and Irritable all the Time and Looking So Haggard and Old?"

The doctor gave some to Susie Smith's mother and she was worse off than you are and now she looks just fine." There can be no healthy, beautiful rosy cheeked women without iron. Good physicians have strongly emphasized the fact that doctors should prescribe more of the newer form of iron-Nuxated Iron—for their nervous, run-down, weak, haggard-looking patients. When the iron goes from the blood of women the roses go from their cheeks, and strength and vitality from their bodies. This newer form of iron, like the iron in your blood and like the iron in certain in your blood and like the iron in certain green vegetables, is highly recommended to thousands who wish quickly to increase their strength, power and endurance. It is surprising how many people suffer from iron deficiency and do not know it. Iron is absolutely necessary to enable your blood to change food into living tissue. Without it, no matter how much or what you eat, your food merely passes through you without doing you the proper amount of good. You don't get the strength out of it, and as a consequence you become weak, pale, and sickly-looking, just like a plant trying to grow in soil deficient in iron.
