Senator Borah Attacks French Policy as "Ruthless Militarism" and Violation of Versailles Treaty.

Urges U. S. Take Stand

Washington, Jan. 22.—(By A. P.)-French policy in the Ruhr was attacked as "ruthless militarism," a violation of the armistice terms and the treaty of Versailles and an "offense against humanity," in a statement issued by Senator Borah of blabo, a republican member of the senate foreign relations committee. Senator Borah also criticized the State department in what he said was its policy of silence and inactivity and declared the United States should at least declare its attitude by formally protesting against the French
