

Y. M. C. A. Plans to Launch Annual Campaign Feb. 5

Local Association Seeks to Raise \$75,000 in Drive— Budget for Year Placed at \$118,000.

Announcement of the Y. M. C. A.'s annual drive for funds, to be launched February 5, was made Monday night by the directors of the organization.

The local association seeks this year to raise \$75,000, it was explained; \$31,000 for the work of the institution for the year ending December 31, 1923, \$19,000 for payment of current bills past due, \$20,000 for an accumulated deficit of the last few years and \$15,000 for Omaha's share of the state work.

Budget of the association in Omaha for 1923 will be \$118,000 or approximately \$17,000 less than the actual expenses of the association in 1921. Of the amount required, \$88,000 will be realized from the activities of the association.

G. W. Noble, president of the Omaha Young Men's Christian association, will be in charge of the campaign aided by J. Dean Ringer, chairman of the state committee. The association also will have the services of George L. Goodwin, national association finance director.

The campaign will continue until February 12.

Action Filed to Hold Up Interest on Rail Bonds

Denver, Jan. 23.—An order directing the receiver of the Denver & Rio Grande Western railroad not to pay \$801,000 interest on the first consolidated mortgage bonds of the company, due April 1, is asked in a petition filed in the federal district court here.

Attorneys representing the New York Trust company, trustees under the adjustment mortgage of the company, and a joint plaintiff in the suit of the Bankers' Trust company as trustee against the road, filed the petition, which is said to have come as a surprise in connection with the extended litigation involving the company.

A date for hearing arguments on the petition is expected to be set within the next few days by Federal District Judge J. Foster Symes.

Experts of Great Britain Preparing New Air Policy

London, Jan. 23.—As the result of remarkable developments recently in aircraft construction, says the Central News, government experts are preparing an entirely new aviation policy, which is to be submitted to the cabinet soon, so that the increased expenditure involved may be included in the next budget.

The plan contemplates the building of a large number of machines of a new type, which, according to the news agency, will place England ahead of all other nations "for military and naval purposes."

Bill Would Ban Hasty Wedlock

Measure in Congress Also Contemplates Stiffening of Divorce Laws.

Washington, Jan. 23.—A bill designed to "prevent hasty and foolish marriages and to make divorce more difficult," sponsored by the general federation of women's clubs, was introduced today by Senator Capper, republican, Kansas, together with a resolution proposing a constitutional amendment to legalize federal marriage and divorce laws.

Marriage licenses would have to be applied for and posted in courts two weeks ahead of the ceremony under the bill, and applicants would have to present certificates of health and normal mentality.

Girls under 16 and boys under 18 would be prohibited from marriage without parental consent and the marriage of feeble-minded persons or of those closely related or of different races would be barred.

Divorces under the bill could be obtained only for misconduct, physical or mental cruelty, abandonment or nonsupport for one year, incurable insanity or commission of felony. No divorce would be effective for a year.

Submission to states of a constitutional amendment which would give congress the right to enact a marriage-divorce law was proposed in the house also by Representative Fairfield, republican, Indiana, offering a resolution which was sent to the judiciary committee.

Bandit Invited to Dine With \$10,000 Year Advertising Man and His Bride

New York, Jan. 23.—A bandit called on the telephone Monday while Louis Victor Eyttinge, three weeks ago an inmate of the Arizona state prison at Yuma, and now a \$10,000 a year advertising man, was giving an interview on what he considers to be the matter with the prison. Eyttinge invited the bandit to have dinner with him and his bride of three days, and the bandit accepted with alacrity.

Fifteen years ago, when committed to prison for murder, Eyttinge weighed 110 pounds and was tubercular. Yesterday the weight of 200 pounds went behind his fist when he hammered his desk to emphasize his remarks.

"The prisons of this country make criminals," Mr. Eyttinge said. "They do more harm than good. They must either be revolutionized or abolished."

"The way to revolutionize prisons is this. First, take the prisons out of politics and politics out of prisons. Second, give every man a psychological trial before you give him a political trial. Thirty-five per cent of prisoners today are mentally defective and 33 per cent are physically so. Society is the criminal in sending such persons to penitentiaries. Third, let a triumvirate of one business man, one moralist and one psychiatrist govern every prison."

"Full brains, full bellies and active fingers are what prisoners need. They need, too, an amount of study and play equal to that of work."

Then the telephone rang and Eyttinge, smiling, issued an invitation to dinner to the speaker at the other end.

"The per capita giving of our membership last year for centenary purposes was \$3.60; for all church purposes a grand total of \$84,793,582; per capita \$22.40," the report said.

The collision injured a leg of one horse and damaged the radiator of the bus. The Boulevard Transit company sent a bus out from Omaha to bring in the 15 passengers and a new radiator was sent out from Lincoln to replace the damaged one. Nobody was injured.

"Quicksilver" Case Dismissed by Court

El Paso, Tex., Jan. 23.—Charges against three defendants in the railroad strike "quicksilver" case were dismissed by Federal Judge W. R. Smith yesterday on motion of attorneys for the prosecution.

The charges dismissed were against the following:

John M. Morgan, general chairman of striking railway shopmen at San Antonio, Tex.; Val Callaway, shopman with the Gulf, Colorado & Santa Fe Railway company at Cleburne, Tex.; and Charles Poe, traveling organizer for the machinists, with headquarters at Houston, Tex.

A surprise was sprung by the government in the testimony of Callaway that he was a detective employed by the Pinkerton agency at the time he

attended a conference in Houston and that he made this fact known to the government on December 29, 1922.
