

Constables Are Ordered to Pay Fees Into Fund

By Earning \$300 Monthly Serving Summons Attaches Make More Than Judges, Is Claim.

Five constables attached to the municipal court are perturbed over an order which requires them to pay into the court fund all 25-cent fees collected for serving copies of summonses to defendants and which money they heretofore have kept.

It has been the custom of the clerk of the court to issue all summonses in duplicate on a typewriter, handing original and duplicate to the constable who returns the original to the court with his notation whether service has been obtained. He hands the duplicate to the defendant. The constable is allowed 50 cents for making the return to the court and also is allowed 15 cents per mile traveled, and up to the first of this month he has been allowed 25 cents for each duplicate served on defendants. The theory is that the constable shall make out the duplicate himself.

Earn More Than Judges.

"Constables have been earning from \$250 to \$300 per month," said Presid-

ing Judge George Holmes. "They have been making more than the judges who are paid only \$3,500 a year. We are going to have a chart here to show the distances from the city hall so that the constables will charge the proper mileage. I am of the opinion that the constables will comply with the new order by paying in the 25-cent fees collected for serving copies of summonses."

The constables collect their fees from the attorneys in most cases and from plaintiffs in cases where there are no attorneys.

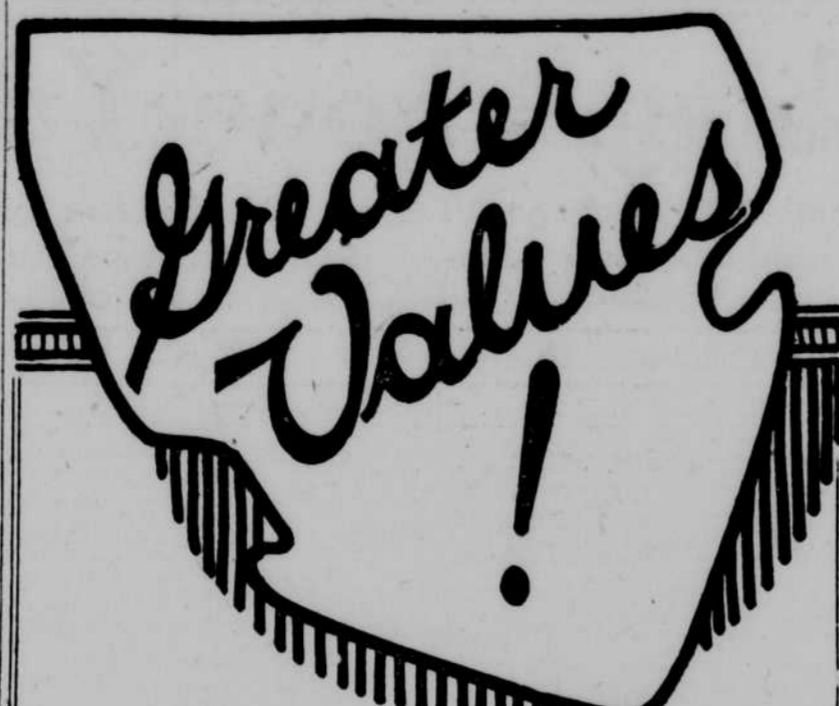

Claim Fees by Law.

"The law gives us the 25-cent fee charged for serving copies on defendants," said one of the constables. "We will make our own copies of summonses hereafter. We have to do the work and it is not fair to pay somebody else 25 cents for slipping in a carbon sheet when making out the original summonses."

The municipal court constables are F. W. McGinnis, George Seay, William Fleming, Pat Welch and Henry Morrison. The new bailiff is M. F. Singleton.
