Wray, Colo., Gets Ak-Sar-Ben Idea

Organization, Similar Even to Sound of Name, Formed in City.

The Ak-Sar-Ben idea is spreading. The people of Wray, Colo., have just organized the "Knights of Wraymen," which is founded, even to the sound of its name, upon the great Omaha success.

The band of that city, with the cooperation of the Chamber of Commerce, will give a show monthly this summer for the farmers of the county. Personal invitations will be sent to the farmers of each community in turn so they may all be accommodated and the Chamber of Commerce will provide a big "feed" for the visitors.

"This is a move," says the visitor, "with no other purpose than to repay in a sense the farmer friends for their many kindnesses which they have extended to the Wray public."

"While the show that the Wray boys give will, of course, not be as extravagant as the Omaha attractions, it will be very much worth while and the farmers will enjoy it to the fullest extent."

The Gazette then quotes an account from The Omaha Bee telling of

the departure of Charles Gardner for Oakland, Cal., last month at the request of Oakland business men to show some of the methods which have made Ak-Sar-Ben successful.

Oakland now being busy making plans for a similar festival.

"I'm glad to hear it," said Oscar Lieben, Ak-Sar-Ben booster and worker. "The more the merrier. Omaha is not stingy with its success. We are glad to see other cities profiting by what has been done here."

Feature Transactions of Livestock Exchange. A shipment of 97 head of ewes averaging 125 pounds and 105 lambs averaging 69 pounds was brought to the local market yesterday by Nels Hong of Soldier, Ia. For the ewes he received \$7.25 a hundred and for the lambs \$14.50 a hundred.

"I am about the only farmer in my section that had any sheep this year," said Mr. Hong, "but a great many of them have cattle and hogs on feed. I bought the ewes that I brought in on the local market last October, when they averaged 104 pounds and cost me \$4.10 a hundred and the lambs were bought a week later, when they averaged 51 pounds and cost me \$12.25 a hundred, so I figure I made a fair margin of profit."

"Corn is quite plentiful around Madison, but there has been a scarcity of hay," said D. K. Robertson of that place, who was on the market yesterday with a shipment of livestock.

Mr. Robertson, who makes a specialty of raising Polled Angus cattle and Hampshire hogs, brought in a shipment of nine pure bred Polled Angus cows that averaged 1,200 pounds and sold for \$6.25 a hundred. He said he had some high-grade Herefords and two loads of calves that he is finishing for market in the summer.

Further Temperature Drop, Snow All Day, Is Weather Forecast

The only thing which has the mercury in Meteorologist Robins' thermometer faded for meteoric rises and sudden drops is the elevator in the Federal building.

After climbing from 8 below zero last Saturday to 54 above at 4 Monday afternoon, the mercury dropped to 15 above at 8 yesterday morning. It was still falling. The reading at 5 a. m., was 29 degrees and Mr. Robins predicted slowly falling temperature, accompanied by flurries of snow, throughout the day.

Rising temperature is predicted for today. Shippers are being warned to protect against temperature of 10 below on shipments going north, zero east and west and 10 above, south.

Children Cry For Fletcher's CASTORIA

The False and the True. Advertising by the use of large space, the expenditure of huge sums of money have placed on the market, have put in your home, perhaps, many articles that today have been discarded, as you will readily admit.

Do you recall anything that has more modestly appealed to the public than Fletcher's Castoria: modest in all its claims, pleading at all times—and truthfully—for our babies?

The big splurge, the misleading claims may win for a time, but the honest truth-telling advertiser is like the old story of the tortoise that beats the hare.

Mothers everywhere, and their daughters, now mothers, speak frankly, glowingly, enthusiastically in praise of Fletcher's Castoria. Speak of it lovingly as a friend that has brought comfort, cheer and smiles to their little one.

To them: to these true mothers no argument can induce them to set aside their bottle of Castoria, their old friend, that they might try even another and unknown remedy for babies. Then, would YOU think of going to YOUR OWN medicine chest to find relief for Baby's troubles? Can you not separate the false from the true?

MOTHERS SHOULD READ BOOKLET THAT IS AROUND EVERY BOTTLE OF FLETCHER'S CASTORIA

CHILDLESS HOMES MADE HAPPY Presence of Little Ones a Great Blessing

Four Interesting Letters

Cortland, N. Y.—"I took Lydia E. Pinkham's Vegetable Compound because I was weak and wanted to become strong and have a child. My husband read about it in the 'Cortland Standard' and thought it might help me. It certainly did for I now have a lovely boy fifteen months old who weighs forty pounds. I recommend Lydia E. Pinkham's Vegetable Compound to my friends and you can certainly use my testimonial in your little books and in the newspapers, as it might help to make some other childless home happy by the presence of little ones as it has done mine."—Mrs. CLAUDE P. CASFIELD, 10 Salisbury St., Cortland, N. Y.

A Message to Mothers Hamilton, Ohio.—"I have known about Lydia E. Pinkham's Vegetable Compound since girlhood, having taken it when I was younger and suffering from a weakness and backache. Lately I have taken it again to strengthen me before the birth of my child, as I was troubled with pains in my back and a lifeless, weak feeling. I think if mothers would only take your wonderful medicine they would not dread childbirth as they do. I recommend the Vegetable Compound to every woman."—Mrs. JOE FALCON, JR., 552 S. 11th Street, Hamilton, Ohio.

St. Louis, Mo.—"I want to tell you what Lydia E. Pinkham's Vegetable Compound did for me seven years ago. I was run down and had a weakness such as women often have. I took Lydia E. Pinkham's Vegetable Compound and after being married sixteen years became the mother of a sweet little girl. I now have four lovely children—three fine boys and the little girl six years old. I had longed for children all the while and wept many a day and envied every woman with a child. I was 36 years old when my first baby was born. I recommend Lydia E. Pinkham's Vegetable Compound to any woman who is ailing with female weakness."—Mrs. J. NAUMANN, 1517 Benton St., St. Louis, Mo.

Was Weak and Run Down St. Louis, Mo.—"My mother took Lydia E. Pinkham's Vegetable Compound when I was a girl, and when I was troubled with cramps I took it, and later when I married I again took it, to make me strong as the doctor said. I was weak and run down and could not have children. I took it and got along fine and now I have three girls. So you know why I keep the Compound in the house. I am a well woman and do my work and sewing too."—Mrs. JULIUS HARTMAN, 2501 W. Dodder St., St. Louis, Mo.

Remove the Film If you wish pearly teeth

You see prettier teeth now wherever you look. They glisten, they look clean. The reason lies in a new cleaning method. Millions now fight film.

You want the attraction, the added protection that it brings. Then won't you make this simple test to prove that you can get them?

You must fight film. It is film that makes teeth dirty. It is film that ruins teeth. If you want prettier teeth and safer teeth you must fight that film.

Film is that viscous coat you feel. It clings to teeth, enters crevices and stays. It becomes discolored, then forms dingy coats. Tartar is based on film.

Film also holds food substance which ferments and forms acids. It holds the acids in contact with the teeth to cause decay. Germs breed by millions in it. They, with tartar, are the chief cause of pyorrhea. Under old methods, few escaped those troubles. And beautiful teeth were seen less often than now.

A new situation. Now there's a new situation. Dental science has found two ways to fight film. One acts to curdle film, one to remove it, and without any harmful scouring.

Avoid Harmful Grit. Pepsodent curdles the film and removes it without harmful scouring. Its polishing agent is far softer than enamel. Never use a firm comb which contains harsh grit.

See what it does. In fairness to yourself, see and feel these Pepsodent effects. Send the coupon for a 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the viscous film. See how teeth whiten as the film-coats disappear.

You will be amazed and delighted. And you will want those benefits continued to the people in your home. Cut out the coupon now.
