### Business Activities

Plan Home Building.

Columbus—Definite progress toward development of a campaign of home building in Columbus, to be financed by local capital and carried forward by local labor, was made at a meeting of the central committee comprising the Chamber of Commerce, American Legion, Lions and Rotary club building committees. It was the consensus of opinion that the erection of homes that could be sold at prices from \$5,500 to \$6,000 should be encouraged.

## Women the Greatest Buyers in the World

THERE are 22,000,000 homes in the United States. The women who buy for these homes spend on the average \$500 each, or a total of \$11,000,000,000, each year. That is more than \$36,000,000 every working day. Every year it amounts to half as much as America's Liberty Bond issue.

Each woman is a part of this army of buyers, and each, if she will, may be guided to wise and economical purchases if she will but make up her mind each day to read as many as she can of the advertisements which manufacturers are printing for her benefit.

The advertising in every newspaper and every magazine is a buying guide for this greatest buying force in the world. This advertising makes it safe and easy for every member of this buying army to make her purchases.

It establishes in her mind a buying habit and gives her a preference of one brand of goods to another or an advertised article to one that is unknown.

ard, so that she may easily dodge the wiles of sellers who try to sell something that is not so good. It fixes merit as an everlasting adjunct to certain
