

# Opening Sale in Our New Furniture Department

As a Patron of Burgess-Nash Company You Are No Doubt Familiar With Its Policy of

**Service-- Quality-- Price--**

—not only at the moment when making the sale, but until you have deliberated upon each piece, ordered it delivered to your home and put into place entirely to your satisfaction.

—never to be sacrificed at the expense of price. Every piece must measure up to the standard at which it is represented. There is no cheapening of detail, no omission of essentials to achieve a lower figure.

To sell you the best furniture at the lowest possible price is made possible by our connections with the largest wholesale furniture houses in the country. Our initial costs are minimum and our selling prices correspondingly low.

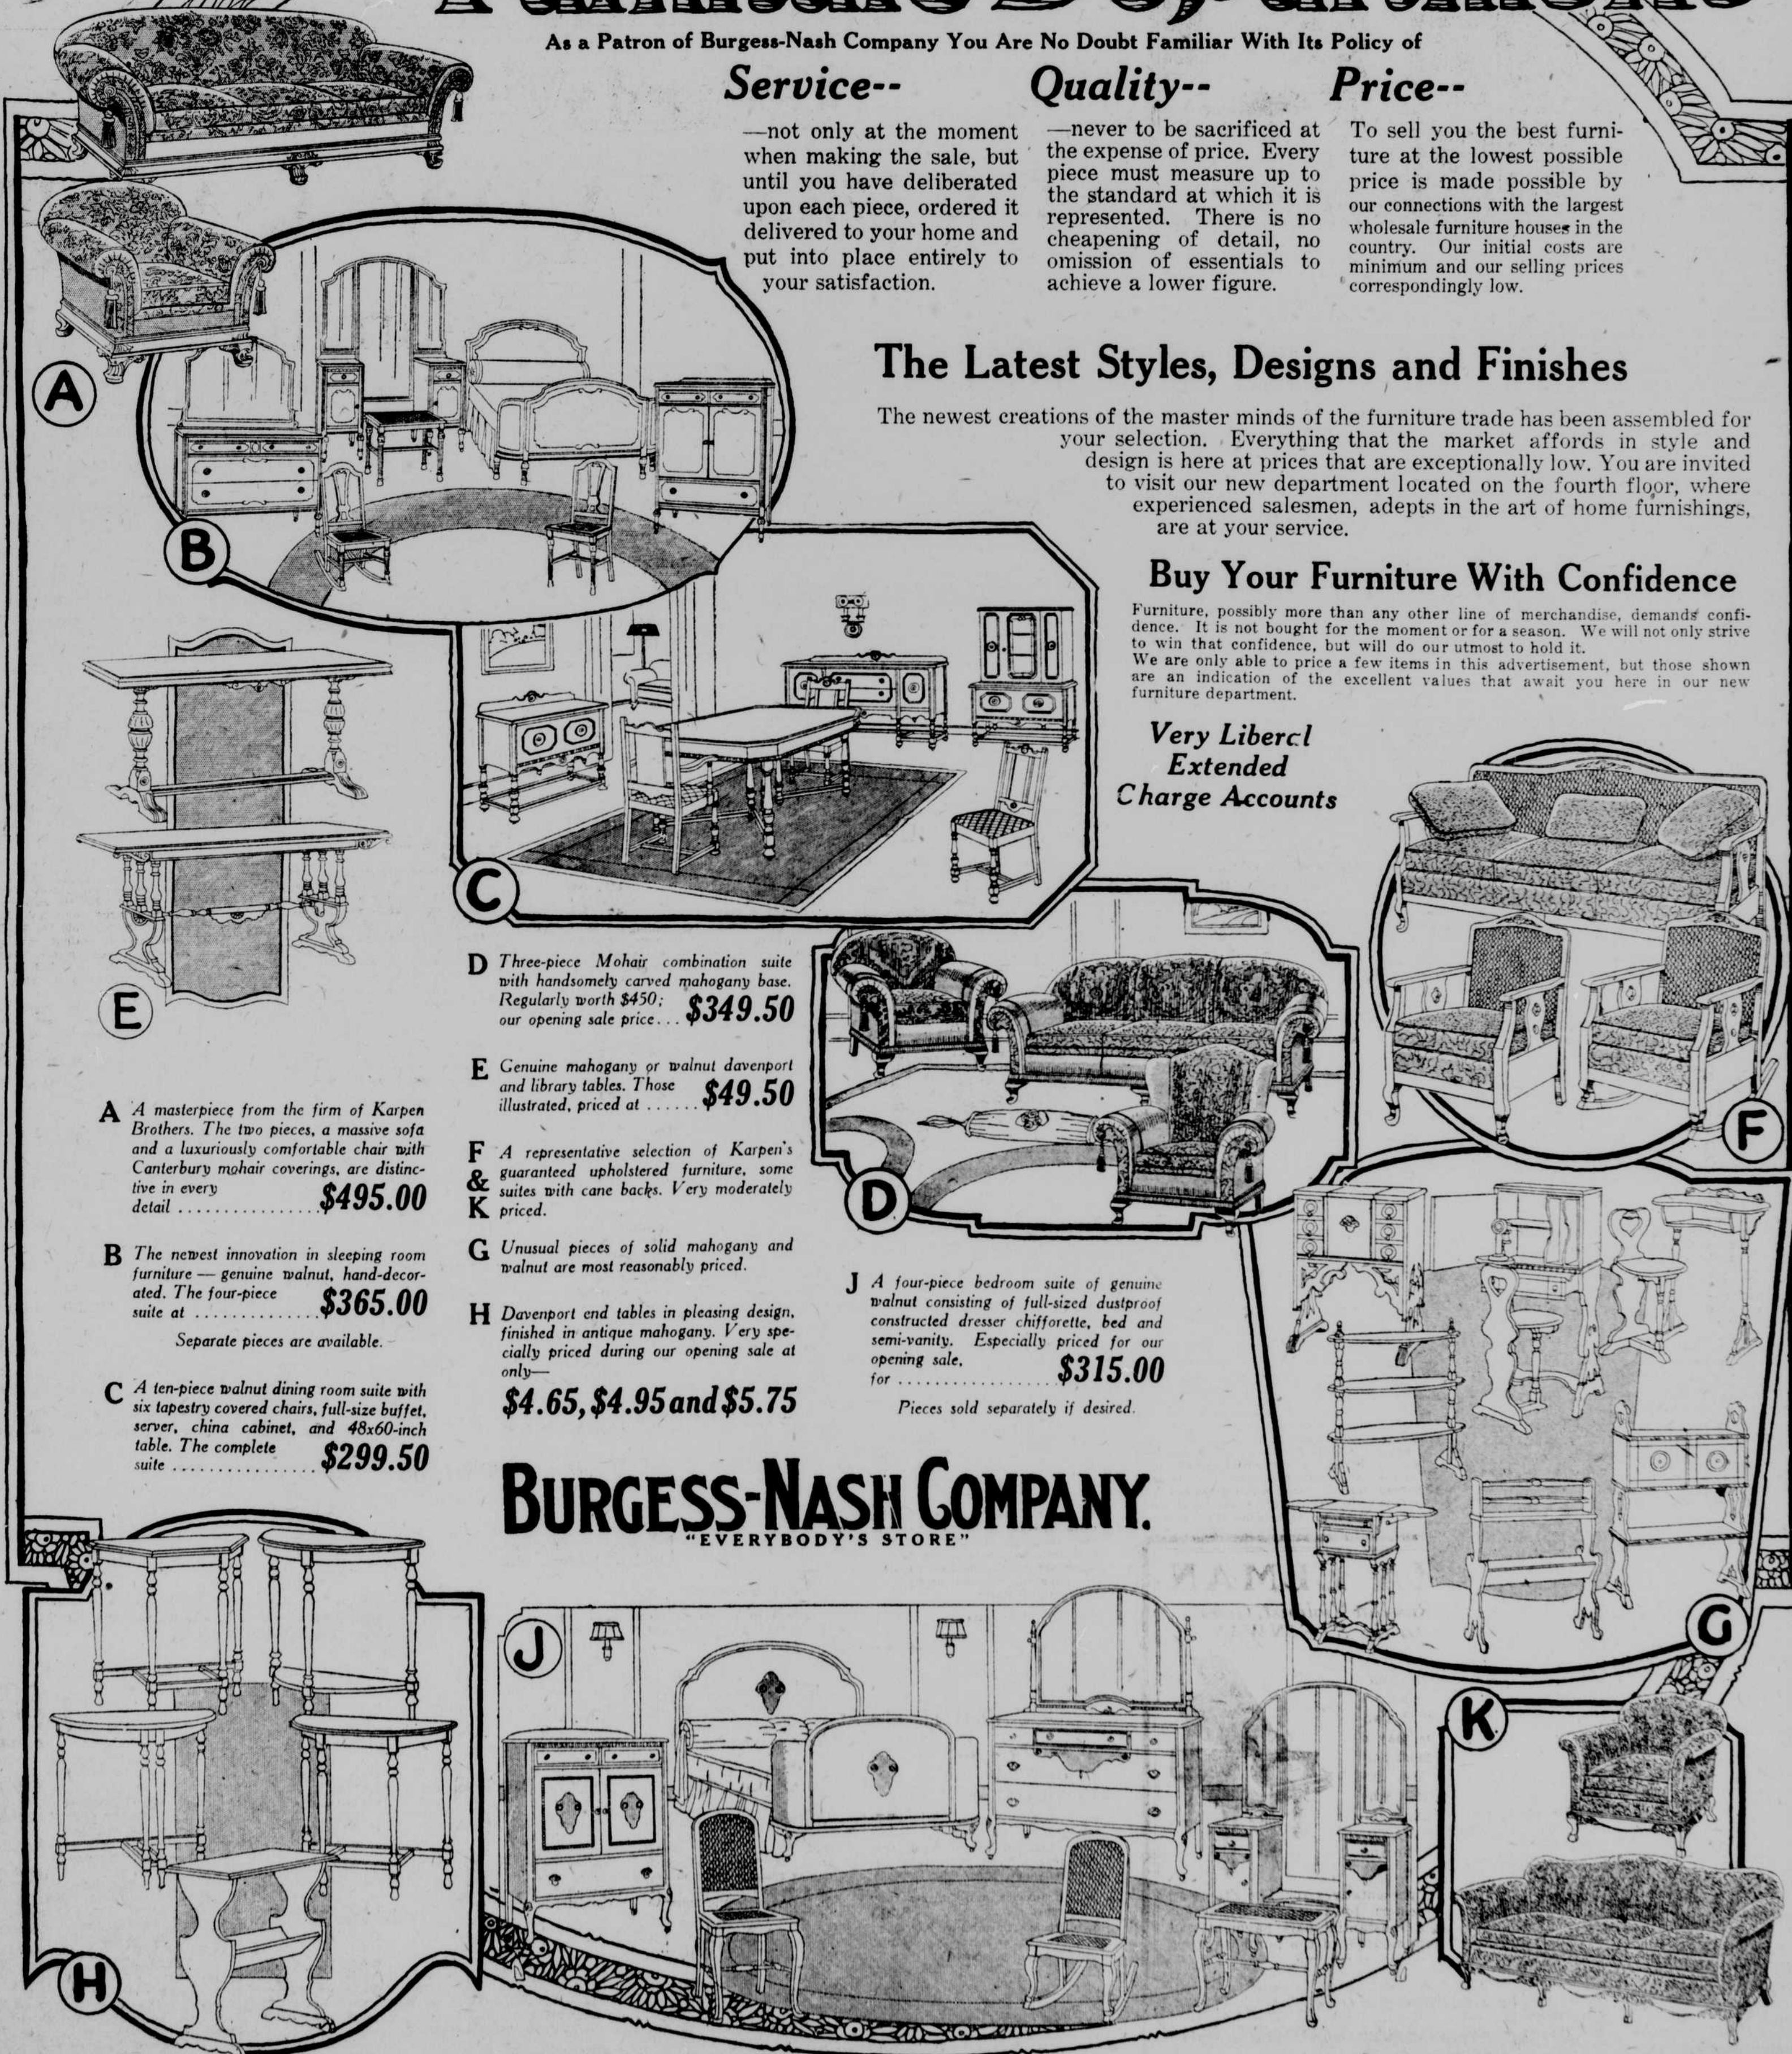

## The Latest Styles, Designs and Finishes

The newest creations of the master minds of the furniture trade has been assembled for your selection. Everything that the market affords in style and design is here at prices that are exceptionally low. You are invited to visit our new department located on the fourth floor, where experienced salesmen, adepts in the art of home furnishings, are at your service.

## Buy Your Furniture With Confidence

Furniture, possibly more than any other line of merchandise, demands confidence. It is not bought for the moment or for a season. We will not only strive to win that confidence, but will do our utmost to hold it. We are only able to price a few items in this advertisement, but those shown are an indication of the excellent values that await you here in our new furniture department.

**Very Liberal  
Extended  
Charge Accounts**
