The New Suits for Spring \$45 to \$195

Foremost in suit modes is the three-piece model, which has achieved a new role and has become fashion's costume to be worn at the smartest gatherings.

Finest of twills combine charmingly with figured crepes in striking modern-art designs for bodices, though solid colors, too, are represented.

The More Tailored Suit

The supreme confidence that comes with the assurance of being correctly corseted may be yours by wearing

Binner Corsets

There is a model designed for every type, and the greatest corset comfort can only be attained by wearing the one best suited to your figure. Often the position of the boning, the shape of a garter or the strength of an elastic insert determines whether a corset is a comfort or a physical trial to the wearer. Only the highest quality workmanship and materials are used in the Binner corsets. May we help you in your selection.
